

## Attestation Report on Post-issuance of BOC Group Life Assurance Company Limited's Green Insurance Product Series

### To the Management of BOC Group Life Assurance Company Limited

#### Scope

We have been engaged by BOC Group Life Assurance Company Limited ("BOC Life") to perform a 'limited assurance engagement,' as defined by International Standards on Assurance Engagements (hereinafter referred to as the "Engagement"), to report on BOC Life's Green Insurance Product Series (iGreen Savings Insurance Plan) (the "Subject Matter") contained in 2024 Annual Report on BOC Group Life Assurance Company Limited's Green Insurance Product Series for the period from 8 August 2023 to 7 August 2024 (the "Report").

#### Criteria applied by BOC Life

In preparing the Subject Matter, BOC Life applied the Principles for Sustainable Insurance issued by United Nations Environment Program Finance Initiative ("Criteria"). Such Criteria were specifically designed for sustainable development within the insurance industry by addressing ESG risks and opportunities; As a result, the Subject Matter information may not be suitable for another purpose.

#### Management's responsibilities

BOC Life's management is responsible for selecting the Criteria, and for presenting the Subject Matter in accordance with that Criteria, in all material respects. These responsibilities include establishing and maintaining internal controls, maintaining adequate records and making estimates that are relevant to the preparation of the Subject Matter, such that it is free from material misstatement, whether due to fraud or error.

#### Our responsibilities

Our responsibility is to express a conclusion on the presentation of the Subject Matter based on the evidence we have obtained.

We conducted the Engagement in accordance with the *International Standard for Assurance Engagements Other Than Audits or Reviews of Historical Financial Information* ('ISAE 3000 (Revised)'). Those standards require that we plan and perform our engagement to express a conclusion on whether we are aware of any material modifications that need to be made to the Subject Matter in order for it to be in accordance with the Criteria, and to issue a report. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risk of material misstatement, whether due to fraud or error.

We believe that the evidence obtained is sufficient and appropriate to provide a basis for our limited assurance conclusion.

#### Our independence and quality management

We have maintained our independence and confirm that we have met the requirements of the Code of Ethics for Professional Accountants issued by the International Ethics Standards Board for Accountants, and have the required competencies and experience to conduct this Engagement.

EY also applies International Standard on Quality Management 1, *Quality Management for Firms that Perform Audits or Reviews of Financial Statements, or Other Assurance or Related Services engagements*, which requires that we design, implement and operate a system of quality management including policies or procedures regarding compliance with ethical requirements, professional standards and applicable legal and regulatory requirements.

#### **Description of procedures performed**

Procedures performed in a limited assurance engagement vary in nature and timing from, and are less in extent than for a reasonable assurance engagement. Consequently, the level of assurance obtained in a limited assurance engagement is substantially lower than the assurance that would have been obtained had a reasonable assurance engagement been performed. Our procedures were designed to obtain a limited level of assurance on which to base our conclusion and do not provide all the evidence that would be required to provide a reasonable level of assurance.

Although we considered the effectiveness of management's internal controls when determining the nature and extent of our procedures, our assurance engagement was not designed to provide assurance on internal controls. Our procedures did not include testing controls or performing procedures relating to checking aggregation or calculation of data within IT systems.

The Engagement consists of making enquiries, primarily of persons responsible for preparing the Green Insurance Product Series (iGreen Savings Insurance Plan) for the period from 8 August 2023 to 7 August 2024 and related information, and applying analytical and other appropriate procedures.

Our procedures included:

- Assessed policies and procedures established by BOC Life related to the post-issuance of the BOC Life's Green Insurance Product Series in accordance with the Principles for Sustainable Insurance;
  - a) Reviewed BOC Life's policies and procedures in relation to embedding ESG-related issues into the decision-making of the BOC Life's Green Insurance Product Series and the insurance business;
  - b) Reviewed BOC Life's policies and procedures in relation to the use and management of the target premium investment on green bonds and other investments according to the Green Insurance Product Framework;
  - c) Reviewed BOC Life's policies and procedures in relation to working with their clients and business partners to raise awareness of ESG issues, manage risk and develop green insurance solutions;
  - d) Reviewed BOC Life's policies and procedures in relation to working with governments, regulators, and other key stakeholders to promote widespread action across society on ESG issues; and
  - e) Reviewed BOC Life's policies and procedures in relation to demonstrating accountability and transparency in regularly disclosing publicly the progress in implementing the Principles.
- Interviewed personnel of selected business units to understand the key matters in relation BOC Life's policies and procedures.

We also performed such other procedures as we considered necessary in the circumstances.

**Conclusion**

Based on our procedures and the evidence obtained, we are not aware of any material modifications that need to be made to the Green Insurance Product Series (iGreen Savings Insurance Plan) for the period from 8 August 2023 to 7 August 2024 in order for it to be in accordance with the Criteria.

**Restricted use**

This report is intended solely for the information and use of BOC Life for the Subject Matter and is not intended to be and should not be used by anyone other than those specified parties.

## 2024 Annual Report on BOC Group Life Assurance Company Limited's Green Insurance Product Series

BOC Group Life Assurance Company Limited ("BOC Life" or the "Company") issued the first Green Insurance Product Series, the iGreen Savings Insurance Plan, on 8 August 2022 (the "**Plan**"), following the Company's *Green Insurance Framework* (the "**Framework**"), which serves as a guidance for BOC Life's issuance of green insurance products based on the Principles for Sustainable Insurance (as listed below) developed by the United Nations Environment Program Finance Initiative.

Principle 1: We will embed in our decision-making environmental, social and governance issues relevant to our insurance business.

At BOC Life, we have integrated ESG issues into our decision-making processes, demonstrating our commitment to sustainability. We have been closely adhering to and implementing the BOC Hong Kong (Holdings) Limited (the "Group")'s Sustainable Development Policy in order to achieve the long-term success and sustainable development of the Group and our key stakeholders. Where our risk management, product and services development, claims management, and sales and marketing take into consideration environmental, social, and governance (ESG) and climate-related issues, we also strive to invest sustainably. We have established a monitoring mechanism to manage the overall investments raised from the Plan, whether for green or non-green activities, including regular checking on the investment portfolio to ensure that none of the raised premiums is invested in activities or sectors within the exclusion list of high ESG risk that may have an adverse impact on society and the environment, and aimed to invest our target premium investment on bonds which raise funds for green activities.

In 2024, we have approved the Green Operation Targets, which include reducing electricity and water consumption, minimising waste and emissions, and decreasing paper purchase while fostering an Eco-Healthy Workplace that enhances employee well-being. We have also obtained the World Green Organisation's Green Office Label and Eco-Healthy Workplace Label, which reflects our efforts to creating a responsible workplace that benefits both our employees and the environment.

Principle 2: We will work together with our clients and business partners to raise awareness of environmental, social and governance issues, manage risk and develop solutions.

BOC Life has been collaborating with business partners to promote ESG issues and understand their approach to sustainability. Apart from complying with the Group's Sustainable Procurement Policy and Supply Chain Code of Conduct in the supplier selection process, BOC Life has also taken suppliers' ESG performance into account and encouraged suppliers to improve their sustainability performance, promote long-term sustainability determination and commitment.

BOC Life recognises the importance of raising awareness and educating our employees and customers on the ESG context. We have prepared green insurance product training materials and regularly conduct Sustainability Seminar Series with our business partners to support employee's understanding on how sustainability is being applied to insurance operation and investments.

Our three Sustainability Seminar Series, held throughout the year, bring together business partners to share valuable insights with our employees. These seminars focus on integrating sustainable practices into both business operations and daily life, while also exploring how ESG principles can be incorporated into our decision-making processes.

Principle 3: We will work together with governments, regulators and other key stakeholders to promote widespread action across society on environmental, social and governance issues.

BOC Life has been engaging in regular dialogues with industry associations to discuss and promote developments and actions relating to ESG issues. We have also been exploring on opportunities to work with international organisations to contribute to global cooperation on sustainability issues. This year, we have sponsored the ESG XChange 2024: ESG for Climate Actions International Summit organised by the World Green Organisation, focusing on key topics like ESG, green finance, carbon neutrality, sustainable supply chains, and sustainable investment.

We have also cooperated with various stakeholders, such as NGOs, community organisations and social service agencies, by co-hosting conferences and events, supporting sustainability programmes, partaking in community services. Through these initiatives, we aim to fostering creativity and innovation while promoting inclusivity and diversity, ultimately raising awareness on sustainability.

Principle 4: We will demonstrate accountability and transparency in regularly disclosing publicly our progress in implementing the principles.

In addition to openly disclosing BOC Life's commitment in implementing the Principles for Sustainable Insurance and advocating internally, we publish a report annually on how the principles of the Framework have been embraced within the Plan.

As stated in the Framework, we hereby present the Annual Report on BOC Life's Green Insurance Product Series. This report also discloses the amount of premiums raised for the overall investments, whether green and non-green, along with the categories to which these green investments belong. This report is made available to the public to ensure that relevant information is accessible and transparent for interested parties.

Summary on Green Insurance Product Series – iGreen Savings Insurance Plan's Product Features

The Plan is a special limited product in cooperation with Bank of China (Hong Kong) Limited ("BOCHK"), which exhibits excellent performance in ESG. By making a one-off payment of premium as low as RMB3,000 / USD375, the Plan can provide stable returns and life protection, as well as an opportunity to support green projects and contribute to the environment.

Positive screening is applied in BOC Life's investment strategies to actively explore suitable ESG investment opportunities such as carbon neutral bonds, ESG funds, etc. and none of the overall premiums raised from the Plan will be invested in activities or sectors within the exclusion list of high ESG risk that may have an adverse impact on society and the environment.

**Basic Eligibility Requirements:**

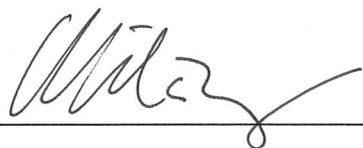

Issue Age	From age 18 to age 64
Premium Payment Term	Single premium
Benefit Term	3 years
Policy Currency	RMB / USD
Premium Payment Mode	Single payment (Direct Payment from BOCHK e-Banking Account)

**Charity Donation Benefit:**

After approval and payment of Additional Accidental Death Benefit, Charity Donation Benefit equivalent to 5% of the Net Premiums Paid as of the date of the insured's death will be payable to the designated charitable institution selected by BOC Life.

**Summary on iGreen Savings Insurance Plan's Green Premium Investment**

As of 7 August 2024, the insurance premium under the iGreen Savings Insurance Plan, which is backed by the green asset pool totalling HKD 449.13 million (as of 31st July 2024) is invested in eligible green bonds adhering to the Green Bond Principles, published by the International Capital Market Association. The proceeds of the green bonds have been 100% allocated to finance eligible green projects categories including Sustainable Water and Wastewater Management, Green Buildings, Pollution Prevention and Control, Energy Efficiency, Renewable Energy and Clean Transportation. All these eligible green projects are located in Hong Kong, Northern and Southern China.
