| Sustainability Criteria                                                | <p>The Investment Manager applies governance and sustainability criteria when selecting investments for the Fund.</p> <p>The strategy aims to identify issuers demonstrating good or improving sustainability credentials, and those that impose a high cost on the environment and society. This involves:</p> <ul style="list-style-type: none"> <li>– The exclusion of issuers that the Investment Manager deems to have businesses that are materially damaging to the climate and impose unjustifiable social costs.</li> <li>– The inclusion of issuers that demonstrate stable and improving sustainability trajectories, and issuers demonstrating good governance based on the Investment Manager's sustainability rating methodology.</li> </ul> <p>The Investment Manager may also engage with companies to encourage transparency, the transition to a circular economy with lower carbon emissions intensity and responsible social behaviour that promotes sustainable growth and alpha generation.</p> <p>The primary sources of information used to perform the analysis are the Investment Manager's proprietary tools and research, third-party research, NGO reports and expert networks. The Investment Manager also performs its own analysis of publicly available information provided by the companies, including information provided in company sustainability reports and other relevant company material.</p> <p>More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website <a href="http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures">www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures</a>.</p> <p>The Investment Manager ensures that at least:</p> <ul style="list-style-type: none"> <li>– 90% of fixed or floating rate securities and money market instruments with an investment grade credit rating; sovereign debt issued by developed countries; and equities issued by large companies domiciled in developed countries; and</li> <li>– 75% of fixed or floating rate securities and money market instruments with a high yield credit rating; sovereign debt issued by emerging countries equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies,</li> </ul> <p>held in the Fund's portfolio are rated against the sustainability criteria. For the purposes of this test, small companies are those with market capitalisation below €5 billion, medium companies are those between €5 billion and €10 billion and large companies are those above €10 billion.</p> |

## General Share Class Features

| Share Classes             | Initial Charge <sup>2</sup> | Annual Distribution Charge <sup>3</sup> | Annual Management Charge |
|---------------------------|-----------------------------|-----------------------------------------|--------------------------|
| A Shares                  | Up to 3%                    | None                                    | 1.00%                    |
| AX Shares                 | Up to 3%                    | None                                    | 1.00%                    |
| A1 Shares                 | Up to 2%                    | 0.50%                                   | 1.00%                    |
| B Shares                  | None                        | 0.50%                                   | 1.00%                    |
| C Shares                  | Up to 1%                    | None                                    | 0.50%                    |
| CN Shares                 | Up to 3%                    | None                                    | 0.50%                    |
| CX Shares                 | Up to 1%                    | None                                    | 0.50%                    |
| D Shares                  | None                        | 1.00%                                   | 1.00%                    |
| E Shares                  | Up to 1%                    | None                                    | 0.25%                    |
| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 0.50%              |
| Z Shares                  | None                        | None                                    | Up to 0.50%              |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 3% is equivalent to 3.09278% of the Net Asset Value per Share; up to 2% is equivalent to 2.04081% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund EURO Equity

## Investment Objective

The Fund aims to provide capital growth in excess of the MSCI European Monetary Union (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity related securities of companies in countries participating in the European Monetary Union.

## Investment Policy

The Fund is actively managed and invests at least 75% of its assets in equity and equity related securities of companies that are incorporated in the European Economic Area. The Fund invests at least two-thirds of its assets in equity and equity related securities of companies in countries whose currency is the Euro.

The Fund may also invest up one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.

The Fund maintains a higher overall sustainability score than MSCI European Monetary Union (Net TR) index, based on the Investment Manager's rating system. More details on the investment process used to achieve this can be found in the Fund Characteristics section.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

## Benchmark

The Fund's performance should be assessed against its target benchmark being to exceed the MSCI European Monetary Union (Net TR) index and compared against the Morningstar Eurozone Large Cap Equity Category. The Fund's investment universe is expected to overlap materially with the components of the target benchmark. The comparator benchmark is only included for performance comparison purposes and does not determine how the Investment Manager invests the Fund's assets. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the target benchmark. The Investment Manager will invest in companies or sectors not included in the target benchmark in order to take advantage of specific investment opportunities.

## Fund Characteristics

|                      |                                        |
|----------------------|----------------------------------------|
| Fund Currency        | EUR                                    |
| Investment Manager   | Schroder Investment Management Limited |
| Dealing Cut-off Time | 13.00 Luxembourg time on Dealing Day   |
| Dealing Frequency    | Daily on Dealing Day                   |

The target benchmark has been selected because it is representative of the type of investments in which the Fund is likely to invest and it is, therefore, an appropriate target in relation to the return that the Fund aims to provide. The comparator benchmark has been selected because the Investment Manager believes that the benchmark is a suitable comparison for performance purposes given the Fund's investment objective and policy. The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

## Further Information

The Fund is categorised as "Mainstream Equity Fund".

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Specific Risk Considerations

The reference in the Investment Policy to a fund investing 75% of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund's investment objective across all Share Classes after fees have been deducted.

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). A Fund with these characteristics may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As Investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are seeking long term growth potential offered through investment in equities.

| Sustainability Criteria                                                | <p>The Investment Manager applies governance and sustainability criteria when selecting investments for the Fund.</p> <p>The sources of information used to perform the analysis include Schroders' proprietary sustainability tools and third-party data.</p> <p>Companies in the investment universe are assessed on their governance, environmental and social profile, across a range of factors. This analysis is supported by quantitative analysis gained from Schroders in-house ESG data tools. The Investment Manager assesses a company's environment and social impact, as well as governance practices, using proprietary sustainability tools. In addition, the Investment Manager also performs its own research and analysis before deciding whether a company is eligible for inclusion in the Fund, based on its overall sustainability profile. Proprietary tools will be key inputs to measure how companies in the portfolio are meeting the sustainability credentials outlined above.</p> <p>The sources of information used to perform the analysis include information provided by the companies, such as company sustainability reports and other relevant company material, as well as Schroders' proprietary sustainability tools and third-party data.</p> <p>More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website <a href="https://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures">https://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures</a>.</p> <p>The Investment Manager ensures that at least:</p> <ul style="list-style-type: none"> <li>- 90% of equities issued by large companies domiciled in developed countries; fixed or floating rate securities and money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries; and</li> <li>- 75% of equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies; fixed or floating rate securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging countries,</li> </ul> <p>held in the Fund's portfolio are rated against the sustainability criteria. For the purposes of this test, small companies are those with market capitalisation below €5 billion, medium companies are those between €5 billion and €10 billion and large companies are those above €10 billion.</p> |

<sup>1</sup> Different subscription and redemption procedures may apply if applications are made through Distributors.

<sup>2</sup> To ensure eligibility for the French Plan d'Epargne en Actions (PEA), the Fund invests at least 75% of its assets in equity securities issued by companies which have their head office in the European Union, or in an EEA state that has signed a tax agreement with France, including a clause on combating fraud and tax avoidance.

## General Share Class Features

| Share Classes             | Initial Charge <sup>3</sup> | Annual Distribution Charge <sup>4</sup> | Annual Management Charge |
|---------------------------|-----------------------------|-----------------------------------------|--------------------------|
| A Shares                  | Up to 5%                    | None                                    | 1.50%                    |
| AX Shares                 | Up to 5%                    | None                                    | 1.50%                    |
| A1 Shares                 | Up to 4%                    | 0.50%                                   | 1.50%                    |
| B Shares                  | None                        | 0.60%                                   | 1.50%                    |
| C Shares                  | Up to 1%                    | None                                    | 0.75%                    |
| CN Shares                 | Up to 3%                    | None                                    | 0.75%                    |
| CX Shares                 | Up to 1%                    | None                                    | 0.75%                    |
| D Shares                  | None                        | 1.00%                                   | 1.50%                    |
| E Shares                  | Up to 1%                    | None                                    | 0.375%                   |
| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 0.75%              |
| Z Shares                  | None                        | None                                    | Up to 0.75%              |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>3</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate. Initial charge of up to 5% is equivalent to 5.263 15% of the Net Asset Value per Share; up to 4% is equivalent to 4.16667% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>4</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund EURO Government Bond

## Investment Objective

The Fund aims to provide income and capital growth in excess of the ICE BofA Merrill Lynch Euro Government index after fees have been deducted over a three to five year period by investing in fixed and floating rate securities issued by Eurozone governments.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in fixed and floating rate securities with an investment grade or sub-investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies for rated bonds and implied Schroders ratings for non-rated bonds) issued by governments of countries whose currency is the Euro.

The Fund may also invest up one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives, long and short, with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.

The Fund maintains a higher overall sustainability score than the ICE BofA Merrill Lynch Euro Government index based on the Investment Manager's rating criteria. More details on the investment process used to achieve this can be found in the Fund Characteristics section.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

## Benchmark

The Fund's performance should be assessed against its target benchmark being to exceed the ICE BofA Merrill Lynch Euro Government index. The Fund's investment universe is expected to overlap to a limited extent with the components of the target benchmark. However, the Fund will likely reflect certain features of the target benchmark (namely credit quality/duration, currency exposure/exposure to particular issuers). The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the target benchmark. The Investment Manager will invest in companies or sectors not included in the target benchmark in order to take advantage of specific investment opportunities.

The target benchmark has been selected because it is representative of the type of investments in which the Fund is likely to invest and it is, therefore, an appropriate target in relation to the return that the Fund aims to provide.

The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

## Further Information

The Fund is categorised as "Mainstream Bond Fund".

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Risk Management Method

Relative Value-at-Risk (VaR)

### VaR Benchmark

ICE BofA Merrill Lynch Euro Government Index. This index tracks the performance of EUR denominated sovereign debt publicly issued by Euro member countries in either the Eurobond or the issuer's own domestic market.

### Expected Leverage

150% of the total net assets

The expected level of leverage may be higher when volatility decreases sustainably, when interest rates are expected to change or when credit spreads are expected to widen or tighten.

### This Fund is not a leveraged financial instrument

The Fund utilises financial derivative instruments for investment purposes and the global exposure is monitored under the relative VaR approach in line with UCITS Risk Measurement Rules. Whilst these instruments generate leverage, the Fund itself is not a leveraged financial instrument as further described in the MIFID Directive. For further details on the relative VaR approach please see Appendix 1. In addition to this regulatory restriction, Schroders implements internal controls on global exposure to constrain and/or highlight global exposure as appropriate.

### Specific Risk Considerations

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). A Fund with these characteristics may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As Investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund's investment objective across all Share Classes after fees have been deducted.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are seeking to combine capital growth opportunities with income in the relative stability of the debt markets over the long term.

## Fund Characteristics

| Redemption Charge                                                      | None                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| PEA / PIR Eligibility                                                  | No                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| Sustainability Criteria                                                | <p>The Investment Manager applies governance and sustainability criteria when selecting investments for the Fund.</p> <p>Sustainability factors are assessed – across both sovereign markets and credit allocation decisions – in tandem with macroeconomic factors throughout the Investment Manager’s top-down thematic investment process.</p> <p>In assessing sustainability factors for sovereign issuers, the Investment Manager considers that countries with stable and non-corrupt governments are likely to be more willing and able to service their debts, while political considerations, including the impact of social and governance factors, can influence a country’s inflation and currency profile and thus have a material impact on the real value of debt. Environmental impacts – which can be more pertinent over a longer-term horizon – are also incorporated. The Investment Manager’s approach includes the use of Schroders’ proprietary sustainability tools to rank countries by measuring their performance against multiple sustainability-related indicators.</p> <p>Credit selection decisions are delegated to the Investment Manager’s specialist credit investment teams, who aim to identify issuers demonstrating good or improving sustainability credentials, and those that impose a high cost on the environment and society. This involves:</p> <ul style="list-style-type: none"> <li>– The exclusion of issuers that the Investment Manager deems to have businesses that are materially damaging to the environment or impose unjustifiable social costs.</li> <li>– The inclusion of issuers that demonstrate stable and improving sustainability trajectories, and issuers demonstrating good governance based on the Investment Manager’s sustainability rating methodology.</li> </ul> <p>The primary sources of information used to perform this analysis are the Investment Manager’s proprietary tools and research, third-party research, NGO reports and expert networks. For corporate issuers, the Investment Manager also performs its own analysis of publicly available information provided by the companies, including information provided in company sustainability reports and other relevant company material.</p> <p>More details on the Investment Manager’s approach to sustainability and its engagement with companies are available on the website <a href="http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures">www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures</a>.</p> <p>The Investment Manager ensures that at least:</p> <ul style="list-style-type: none"> <li>– 90% of equities issued by large companies domiciled in developed countries; fixed or floating rate securities and money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries; and</li> <li>– 75% of equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies; fixed or floating rate securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging countries,</li> </ul> <p>held in the Fund’s portfolio are rated against the sustainability criteria. For the purposes of this test, small companies are those with market capitalisation below €5 billion, medium companies are those between €5 billion and €10 billion and large companies are those above €10 billion.</p> |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 3% is equivalent to 3.09278% of the Net Asset Value per Share; up to 2% is equivalent to 2.04081% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund EURO High Yield

## Investment Objective

The Fund aims to provide capital growth and income in excess of the ICE BofA Merrill Lynch Euro High Yield Constrained index after fees have been deducted over a three to five year period by investing in sub-investment grade fixed and floating rate securities denominated in Euro issued by companies worldwide.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in fixed and floating rate securities denominated in EUR issued by governments, government agencies, supra-nationals and companies worldwide. The Fund also invests at least two-thirds of its assets in sub-investment grade fixed and floating rate securities (being securities with a credit rating below investment grade as measured by Standard & Poor's or any equivalent grade of other credit rating agencies).

The Fund may invest up to 10% of its assets in contingent convertible bonds.

The Fund may also invest up to one-third of its asset directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may also invest in derivatives to create long and short exposure to the underlying assets of these derivatives. The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.

The Fund maintains a higher overall sustainability score than the ICE BofA Merrill Lynch Euro High Yield Constrained index, based on the Investment Manager's rating criteria. More details on the investment process used to achieve this can be found in the Fund Characteristics section.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

## Benchmark

The Fund's performance should be assessed against its target benchmark being to exceed the ICE BofA Merrill Lynch Euro High Yield Constrained index. The Fund's investment universe is expected to overlap to a limited extent with the components of the target benchmark. However, the Fund will likely reflect certain features of the target benchmark (namely credit quality/duration, exposure to particular issuers). The Investment Manager invests on a

discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the target benchmark. The Investment Manager will invest in companies or sectors not included in the target benchmark in order to take advantage of specific investment opportunities.

The target benchmark has been selected because it is representative of the type of investments in which the Fund is likely to invest and it is, therefore, an appropriate target in relation to the return that the Fund aims to provide.

The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

## Further Information

The Fund is categorised as "Specialist Bond Fund".

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Specific Risk Considerations

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). A Fund with these characteristics may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As Investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund's investment objective across all Share Classes after fees have been deducted.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are seeking to combine capital growth opportunities with income in the relative stability of the debt markets over the long term.

| Sustainability Criteria                                                | <p>The Investment Manager applies governance and sustainability criteria when selecting investments for the Fund.</p> <p>The strategy aims to identify issuers demonstrating good or improving sustainability credentials, and those that impose a high cost on the environment and society. This involves:</p> <ul style="list-style-type: none"> <li>- The exclusion of issuers that the Investment Manager deems to have businesses that are materially damaging to the climate and impose unjustifiable social costs.</li> <li>- The inclusion of issuers that demonstrate stable and improving sustainability trajectories, and issuers demonstrating good governance based on the Investment Manager's sustainability rating methodology.</li> </ul> <p>The Investment Manager may also engage with companies to encourage transparency, the transition to a circular economy with lower carbon emissions intensity and responsible social behaviour that promotes sustainable growth and alpha generation.</p> <p>The primary sources of information used to perform the analysis are the Investment Manager's proprietary tools and research, third-party research, NGO reports and expert networks. The Investment Manager also performs its own analysis of publicly available information provided by the companies, including information provided in company sustainability reports and other relevant company material.</p> <p>More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website <a href="http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures">www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures</a>.</p> <p>The Investment Manager ensures that at least:</p> <ul style="list-style-type: none"> <li>- 90% of fixed or floating rate securities and money market instruments with an investment grade credit rating; sovereign debt issued by developed countries; and equities issued by large companies domiciled in developed countries; and</li> <li>- 75% of fixed or floating rate securities and money market instruments with a high yield credit rating; sovereign debt issued by emerging countries equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies,</li> </ul> <p>held in the Fund's portfolio are rated against the sustainability criteria. For the purposes of this test, small companies are those with market capitalisation below €5 billion, medium companies are those between €5 billion and €10 billion and large companies are those above €10 billion.</p> |

## General Share Class Features

| Share Classes             | Initial Charge <sup>2</sup> | Annual Distribution Charge <sup>3</sup> | Annual Management Charge |
|---------------------------|-----------------------------|-----------------------------------------|--------------------------|
| A Shares                  | Up to 3%                    | None                                    | 1.00%                    |
| AX Shares                 | Up to 3%                    | None                                    | 1.00%                    |
| A1 Shares                 | Up to 2%                    | 0.50%                                   | 1.00%                    |
| B Shares                  | None                        | 0.50%                                   | 1.00%                    |
| C Shares                  | Up to 1%                    | None                                    | 0.60%                    |
| CN Shares                 | Up to 3%                    | None                                    | 0.60%                    |
| CX Shares                 | Up to 1%                    | None                                    | 0.60%                    |
| D Shares                  | None                        | 1.00%                                   | 1.00%                    |
| E Shares                  | Up to 1%                    | None                                    | 0.30%                    |
| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 0.60%              |
| Z Shares                  | None                        | None                                    | Up to 0.60%              |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 3% is equivalent to 3.092 78% of the Net Asset Value per Share; up to 2% is equivalent to 2.04081% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charge in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund EURO Short Term Bond

## Investment Objective

The Fund aims to provide capital growth and income in excess of the Bloomberg Euro Aggregate (1-3 Y) index after fees have been deducted over a three to five year period by investing in short term fixed and floating rate securities denominated in Euro.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in short term fixed and floating rate securities with an investment grade or sub-investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies for rated bonds and implied Schroders ratings for non-rated bonds) denominated in Euro, issued by governments, government agencies, supra-nationals and companies worldwide.

The average duration of the securities held by the Fund does not exceed 3 years and the effective maturity of any such security does not exceed 5 years.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives, long and short, with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.

The Fund maintains a higher overall sustainability score than the Bloomberg Euro Aggregate (1-3 Y) index, based on the Investment Manager's rating criteria. More details on the investment process used to achieve this can be found in the Fund Characteristics section.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

## Benchmark

The Fund's performance should be assessed against its target benchmark being to exceed the Bloomberg Euro Aggregate (1-3 Y) index. The Fund's investment universe is expected to overlap to a limited extent with the components of the target benchmark. However, the Fund will likely reflect certain features of the target benchmark (namely credit quality/duration, currency exposure/exposure to particular issuers). The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the target benchmark. The Investment Manager will invest in companies or sectors not included in the target benchmark in order to take advantage of specific investment opportunities.

The target benchmark has been selected because it is representative of the type of investments in which the Fund is likely to invest and it is, therefore, an appropriate target in relation to the return that the Fund aims to provide.

The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

## Further Information

The Fund is categorised as "Mainstream Bond Fund".

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Risk Management Method

Relative Value-at-Risk (VaR)

### VaR Benchmark

Bloomberg Euro Aggregate 1-3 Year index. This index is composed of fixed-rate euro-zone government and corporate bonds with a residual maturity comprised between 1 and 3 years.

### Expected Leverage

200% of the total net assets

The expected level of leverage may be higher when volatility decreases sustainably, when interest rates are expected to change or when credit spreads are expected to widen or tighten.

### This Fund is not a leveraged financial instrument

The Fund utilises financial derivative instruments for investment purposes and the global exposure is monitored under the relative VaR approach in line with UCITS Risk Measurement Rules. Whilst these instruments generate leverage, the Fund itself is not a leveraged financial instrument as further described in the MIFID Directive. For further details on the relative VaR approach please see Appendix 1. In addition to this regulatory restriction, Schroders implements internal controls on global exposure to constrain and/or highlight global exposure as appropriate.

### Specific Risk Considerations

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). A Fund with these characteristics may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As Investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund's investment objective across all Share Classes after fees have been deducted.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are seeking to combine capital growth opportunities with income in the relative stability of the debt markets over the long term.

## Fund Characteristics

| Redemption Charge                                                      | None                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| PEA / PIR Eligibility                                                  | No                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| Sustainability Criteria                                                | <p>The Investment Manager applies governance and sustainability criteria when selecting investments for the Fund.</p> <p>Sustainability factors are assessed – across both sovereign markets and credit allocation decisions – in tandem with macroeconomic factors throughout the Investment Manager's top-down thematic investment process.</p> <p>In assessing sustainability factors for sovereign issuers, the Investment Manager considers that countries with stable and non-corrupt governments are likely to be more willing and able to service their debts, while political considerations, including the impact of social and governance factors, can influence a country's inflation and currency profile and thus have a material impact on the real value of debt. Environmental impacts – which can be more pertinent over a longer-term horizon – are also incorporated. The Investment Manager's approach includes the use of Schroders' proprietary sustainability tools to rank countries by measuring their performance against multiple sustainability-related indicators.</p> <p>Credit selection decisions are delegated to the Investment Manager's specialist credit investment teams, who aim to identify issuers demonstrating good or improving sustainability credentials, and those that impose a high cost on the environment and society. This involves:</p> <ul style="list-style-type: none"> <li>– The exclusion of issuers that the Investment Manager deems to have businesses that are materially damaging to the environment or impose unjustifiable social costs.</li> <li>– The inclusion of issuers that demonstrate stable and improving sustainability trajectories, and issuers demonstrating good governance based on the Investment Manager's sustainability rating methodology.</li> </ul> <p>The primary sources of information used to perform this analysis are the Investment Manager's proprietary tools and research, third-party research, NGO reports and expert networks. For corporate issuers, the Investment Manager also performs its own analysis of publicly available information provided by the companies, including information provided in company sustainability reports and other relevant company material.</p> <p>More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website <a href="http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures">www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures</a>.</p> <p>The Investment Manager ensures that at least:</p> <ul style="list-style-type: none"> <li>– 90% of equities issued by large companies domiciled in developed countries; fixed or floating rate securities and money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries; and</li> <li>– 75% of equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies; fixed or floating rate securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging countries,</li> </ul> <p>held in the Fund's portfolio are rated against the sustainability criteria. For the purposes of this test, small companies are those with market capitalisation below €5 billion, medium companies are those between €5 billion and €10 billion and large companies are those above €10 billion.</p> |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 3% is equivalent to 3.09278% of the Net Asset Value per Share; up to 2% is equivalent to 2.04081% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charge in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund European Alpha Absolute Return

## Investment Objective

The Fund aims to provide an absolute return after fees have been deducted by investing directly, or indirectly through derivatives, in equity and equity related securities of European companies.

Absolute return means the Fund seeks to provide a positive return over a period of 12 months in all market conditions, but this cannot be guaranteed and your capital is at risk.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets directly, or indirectly through derivatives, in equity and equity related securities of European companies.

'Alpha' funds invest in companies in which the Investment Manager has a high conviction that the current share price does not reflect the future prospects for that business.

The investment strategy of the Fund and the use of derivatives may lead to situations where it is considered appropriate that prudent levels of cash and Money Market Investments will be maintained which may represent (exceptionally) 100% of the Fund's assets. This will be limited to a maximum of six months (otherwise the Fund will be liquidated). During this period, the Fund will not fall within the scope of MMFR.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds and warrants (subject to the restrictions provided in Appendix I).

The Fund intends to use derivatives (including total return swaps) with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently. The Fund may have synthetic long and short positions and may be net long or short when long and short positions are combined. Where the Fund uses total return swaps and contracts for difference, the underlying consists of instruments in which the Fund may invest according to its Investment Objective and Investment Policy. In particular, the aim is to use total return swaps on a temporary basis in market conditions including but not limited to during periods of market crisis or unrest. Contracts for difference will be used on a continuous basis. Contracts for difference and total return swaps will be used to gain long and short exposure or to hedge exposure on equity and equity related securities. The gross exposure of total return swaps and contracts for difference will not exceed 250% and is expected to remain within the range of 0% to 50% of the Net Asset Value for total return swaps and 40% to 150% for contracts for difference. In certain circumstances this proportion may be higher.

The Fund maintains a positive absolute sustainability score, based on the Investment Manager's rating system. More details on the investment process used to achieve this can be found in the Fund Characteristics section.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

## Benchmark

The Fund's performance should be assessed against its objective of providing a positive return over a 12-month period in all market conditions, and compared against the MSCI Europe (Net TR) index and the Euro Short Term Rate (or an alternative reference rate). The comparator benchmarks are only included for performance comparison purposes and do not determine how the Investment Manager invests the Fund's assets. In relation to the MSCI Europe (Net TR) index, the Fund's investment universe is expected to overlap materially, directly or indirectly, with the components of the comparator benchmark. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the MSCI Europe (Net TR) index. The Investment Manager will invest in companies or sectors not included in the MSCI Europe (Net TR) index.

The target benchmark has been selected because the target return of the Fund is to deliver or exceed the return of that benchmark as stated in the investment objective. Any comparator benchmark has been selected because the Investment Manager believes that the benchmark is a suitable comparison for performance purposes given the Fund's investment objective and policy.

The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

## Further Information

The Fund is categorised as "Absolute Return Fund" which is managed with a view to generating a positive return (i.e. greater than zero) over a rolling period of no more than 12 months. The Investment Manager will seek to generate such a return even in falling markets (or in expectation of falling markets) by either shorting (on a covered basis) the various sources of return and/or moving into cash and Money Market Investments. There is no guarantee that such objective may be achieved.

The Fund bears in its name the word "Alpha", which means that the Investment Manager adopts an active management strategy, by aggressively positioning the portfolio according to prevailing market conditions. This could be on the basis of particular sectors, themes or styles, or on a selected number of investments which the Investment Manager believes have the potential to provide enhanced returns relative to the market.

The reference in the Investment Policy to the Fund investing two-thirds of its assets in a certain way, the percentage is calculated based on the Fund's global exposure (the remaining percentage of the Fund will also be calculated based on the Fund's global exposure).

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Risk Management Method

Absolute Value-at-Risk (VaR)

### Expected Leverage

300% of the total net assets

The expected level of leverage may be higher when volatility decreases sustainably, or when bearish markets are expected.

### This Fund is not a leveraged financial instrument

The Fund utilises financial derivative instruments for investment purposes and the global exposure is monitored under the absolute VaR approach in line with UCITS Risk Measurement Rules. Whilst these instruments generate leverage, the Fund itself is not a leveraged financial instrument as further described in the MIFID Directive. For further details on the absolute VaR approach please see Appendix 1. In addition to this regulatory restriction, Schroders implements internal controls on global exposure to constrain and/or highlight global exposure as appropriate.

### Specific Risk Considerations

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). A Fund with these characteristics may have limited exposure to some

companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As Investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund's investment objective across all Share Classes after fees have been deducted.

### Profile of the Typical Investor

The Fund may be suitable for Investors who are seeking positive absolute return over the medium to longer term (at least 5 years) by investing in an actively managed portfolio. The Investor must be able to accept temporary capital losses due to the potentially volatile nature of the assets held.

| Performance Fee                                                        | 20% of the outperformance over the Euro Short Term Rate <sup>2</sup> , subject to a High Water Mark as per the methodology in section 3.1. Performance fee will be applied to all Share Classes except the I Shares                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| Redemption Charge                                                      | None                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| PEA / PIR Eligibility                                                  | No                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| Sustainability Criteria                                                | <p>The Investment Manager applies governance and sustainability criteria when selecting investments for the Fund.</p> <p>Companies in the investment universe are assessed on their governance, environmental and social profile, across a range of factors. This analysis is a combination of quantitative and qualitative inputs, gained from Schroders' proprietary sustainability tools as well as the Investment Manager's own research and analysis.</p> <p>These factors are considered as part of the investment decision making process to determine which companies the Investment Manager includes within the Fund.</p> <p>The sources of information used to perform the analysis include information provided by the companies, such as company sustainability reports and other relevant company material, as well as Schroders' proprietary sustainability tools and third-party data.</p> <p>More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website <a href="http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures">www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures</a>.</p> <p>The Investment Manager ensures that at least:</p> |

<sup>1</sup> Different subscription and redemption procedures may apply if applications are made through Distributors.

<sup>2</sup> For the avoidance of doubt, the above mentioned benchmarks are solely used for performance fee calculation purposes, and they should therefore under no circumstances be considered as indicative of a specific investment style. In relation to currency hedged Share Classes, currency hedged versions of the above mentioned benchmarks (including currency equivalent cash benchmarks) are used for performance fee calculation purposes.

- 90% of equities issued by large companies domiciled in developed countries; fixed or floating rate securities and money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries; and
- 75% of equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies; fixed or floating rate securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging countries,

held in the Fund's portfolio are rated against the sustainability criteria. For the purposes of this test, small companies are those with market capitalisation below €5 billion, medium companies are those between €5 billion and €10 billion and large companies are those above €10 billion.

## General Share Class Features

| Share Classes             | Initial Charge <sup>3</sup> | Annual Distribution Charge <sup>4</sup> | Annual Management Charge |
|---------------------------|-----------------------------|-----------------------------------------|--------------------------|
| A Shares                  | Up to 3%                    | None                                    | 1.50%                    |
| AX Shares                 | Up to 3%                    | None                                    | 1.50%                    |
| A1 Shares                 | Up to 2%                    | 0.50%                                   | 1.50%                    |
| B Shares                  | None                        | 0.50%                                   | 1.50%                    |
| C Shares                  | Up to 1%                    | None                                    | 0.75%                    |
| CN Shares                 | Up to 3%                    | None                                    | 0.75%                    |
| CX Shares                 | Up to 1%                    | None                                    | 0.75%                    |
| D Shares                  | None                        | 1.00%                                   | 1.50%                    |
| E Shares                  | Up to 1%                    | None                                    | 0.375%                   |
| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 0.75%              |
| Z Shares                  | None                        | None                                    | Up to 0.75%              |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>3</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate. Initial charge of up to 3% is equivalent to 3.092 78% of the Net Asset Value per Share; up to 2% is equivalent to 2.04081% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>4</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund European Innovators

## Investment Objective

The Fund aims to provide capital growth in excess of the MSCI Europe (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity related securities of European companies which help to advance the UN SDGs and which the Investment Manager deems to be sustainable investments.

## Investment Policy

The Fund is actively managed and invests at least 75% of its assets in sustainable investments, which are investments in companies that contribute towards the advancement of one or more of the UN SDGs using a science or engineering-driven, innovation-led approach (please see the Fund Characteristics section for more details).

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

The Fund invests in companies that do not cause significant environmental or social harm and have good governance practices, as determined by the Investment Manager's rating criteria (please see the Fund Characteristics section for more details).

The Fund may invest in companies that the Investment Manager believes will improve their sustainability practices within a reasonable timeframe, typically up to two years.

The Investment Manager may engage with companies held by the Fund to challenge identified areas of weakness on sustainability issues. More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website [www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures](http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures).

The Fund will invest at least two thirds of its assets in a concentrated range of equity and equity related securities of European companies. This means typically holding fewer than 30 companies.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.

## Benchmark

The Fund's performance should be assessed against its target benchmark being to exceed the MSCI Europe (Net TR) index, and compared against the Morningstar Europe Flex Cap Equity Category. The Fund's investment universe is expected to overlap materially with the components of the target benchmark. The comparator benchmark is only included for performance comparison purposes and does

not determine how the Investment Manager invests the Fund's assets. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the target benchmark. The Investment Manager will invest in companies or sectors not included in the target benchmark in order to take advantage of specific investment opportunities. The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

The target benchmark has been selected because it is representative of the type of investments in which the Fund is likely to invest and it is, therefore, an appropriate target in relation to the return that the Fund aims to provide. The comparator benchmark has been selected because the Investment Manager believes that the benchmark is a suitable comparison for performance purposes given the Fund's investment objective and policy.

## Further Information

The Fund is categorised as "Specialist Equity Fund".

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Specific Risk Considerations

This Fund makes use of derivatives in a way that is fundamental to its investment objective. It is possible that this will lead to a higher volatility in the price of Shares.

The reference in the Investment Policy to a fund investing two thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund's investment objective across all Share Classes after fees have been deducted.

The Fund has the objective of sustainable investment (within the meaning of Article 9 SFDR). A Fund with this objective may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As Investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are more concerned with maximising long term returns than minimising possible short term losses.

## Fund Characteristics

| Redemption Charge                                                      | None                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| PEA / PIR Eligibility                                                  | No                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| Sustainability Criteria                                                | <p>The Investment Manager applies sustainability criteria when selecting investments for the Fund.</p> <p>The Investment Manager seeks to identify science and engineering-led European companies whose business contributes to addressing challenges faced in society such as reducing CO2 emissions, tackling air pollution and managing the use of scarce resources. The Investment Manager also seeks to identify companies that provide solutions to address the needs of growing and aging populations in areas including healthcare, transport, food and access to crucial services. The Investment Manager will assess how a company is helping to solve problems in society by drawing links between the products and services it sells and one, if not several, of the UN SDGs.</p> <p>Companies held by the Fund are expected to show a commitment to their stakeholders, including customers, employees, suppliers and regulators. The Fund invests in those companies which consider stakeholders fairly and have good governance.</p> <p>Companies meeting the above criteria are considered as potential holdings in the Fund. The Investment Manager performs its own due diligence on potential holdings including, where possible, meetings with senior management.</p> <p>This analysis is supported by quantitative analysis gained from Schroders' proprietary sustainability tools. Such tools are key inputs to measure how companies in the portfolio are meeting the sustainability credentials outlined above.</p> <p>The Investment Manager aims to ensure that more than 80% of the Fund's individual holdings have a positive sustainability score relative to the Fund's target benchmark. The Investment Manager aims for more than 75% of holdings to have at least strong governance scores.</p> <p>The Investment Manager ensures that at least 90% of companies in the Fund's portfolio are rated against the sustainability criteria. As a result of the application of sustainability criteria, at least 20% of the Fund's potential investment universe is excluded from the selection of investments.</p> <p>For the purposes of this test, the potential investment universe is the core universe of issuers that the Investment Manager may select for the Fund prior to the application of sustainability criteria, in accordance with the other limitations of the Investment Objective and Policy. This universe is comprised of equity and equity related securities of European companies.</p> |

| Z Shares                  | None                        | None                                    | Up to 0.75%              |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 5% is equivalent to 5.263 15% of the Net Asset Value per Share; up to 4% is equivalent to 4.16667% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund European Dividend Maximiser

## Investment Objective

The Fund aims to deliver an income of 7% per year by investing in equities or equity related securities of European companies. This is not guaranteed and could change depending on market conditions.

## Investment Policy

The Fund is actively managed and invests at least two thirds of its assets in equities or equity related securities of European companies, which are selected for their income and capital growth potential. To enhance the yield of the Fund, the Investment Manager selectively sells short dated call options over individual securities held by the Fund, generating extra income by agreeing strike prices above which potential capital growth is sold.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.

The Fund maintains a carbon exposure below that of the MSCI Europe (Net TR) Index, and maintains a higher overall sustainability score than the MSCI Europe (Net TR) index, based on the Investment Manager's rating system. More details on the investment process used to achieve this can be found in the Fund Characteristics section.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

## Benchmark

The Fund's performance should be assessed against the income target of 7% per year, and compared against the MSCI Europe (Net TR) index and the Morningstar Europe Equity Income Category. The comparator benchmarks are only included for performance comparison purposes and do not determine how the Investment Manager invests the Fund's assets. In relation to the MSCI Europe (Net TR) index, the Fund's investment universe is expected to overlap materially with the components of the comparator benchmark. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the MSCI Europe (Net TR) index. The Investment Manager will invest in companies or sectors not

included in the MSCI Europe (Net TR) index. The benchmark (s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

The income target has been selected because the Investment Manager deploys strategies that aim to deliver the level of income stated in the investment objective. Any comparator benchmark has been selected because the Investment Manager believes that the benchmark is a suitable comparison for performance purposes given the Fund's investment objective and policy.

## Further Information

The Fund is categorised as "Specialist Equity Fund".

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Specific Risk Considerations

This Fund makes use of derivatives in a way that is fundamental to its investment objective. It is expected that the strategy will typically underperform a similar portfolio with no derivative overlay in periods when the underlying stock prices are rising, and outperform when the underlying stock prices are falling.

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). A Fund with these characteristics may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As Investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are more concerned with maximising long term returns than minimising possible short term losses.

## Fund Characteristics

| Sustainability Criteria                                                | <p>The Investment Manager applies governance and sustainability criteria when selecting investments for the Fund.</p> <p>Companies in the investment universe are subject to analysis related to their individual total scope 1 &amp; 2 carbon emissions. The sources of information used to perform the analysis include Schroders' proprietary sustainability tools and third-party data.</p> <p>Companies in the investment universe are assessed on their governance, environmental and social profile, across a range of factors. This analysis is supported by quantitative analysis gained from Schroders in-house ESG data tools. The Investment Manager assesses a company's environment and social impact, as well as governance practices, using proprietary sustainability tools. In addition, the Investment Manager also performs its own research and analysis before deciding whether a company is eligible for inclusion in the Fund, based on its overall sustainability profile. Proprietary tools will be key inputs to measure how companies in the portfolio are meeting the sustainability credentials outlined above.</p> <p>The sources of information used to perform the analysis include information provided by the companies, such as company sustainability reports and other relevant company material, as well as Schroders' proprietary sustainability tools and third-party data</p> <p>More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website <a href="http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures">www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures</a>.</p> <p>The Investment Manager ensures that at least:</p> <ul style="list-style-type: none"> <li>- 90% of equities issued by large companies domiciled in developed countries; fixed or floating rate securities and money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries; and</li> <li>- 75% of equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies; fixed or floating rate securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging countries,</li> </ul> <p>held in the Fund's portfolio are rated against the sustainability criteria. For the purposes of this test, small companies are those with market capitalisation below €5 billion, medium companies are those between €5 billion and €10 billion and large companies are those above €10 billion.</p> |

## General Share Class Features

| Share Classes             | Initial Charge <sup>2</sup> | Annual Distribution Charge <sup>3</sup> | Annual Management Charge |
|---------------------------|-----------------------------|-----------------------------------------|--------------------------|
| A Shares                  | Up to 5%                    | None                                    | 1.50%                    |
| AX Shares                 | Up to 5%                    | None                                    | 1.50%                    |
| A1 Shares                 | Up to 4%                    | 0.50%                                   | 1.50%                    |
| B Shares                  | None                        | 0.60%                                   | 1.50%                    |
| C Shares                  | Up to 1%                    | None                                    | 0.75%                    |
| CN Shares                 | Up to 3%                    | None                                    | 0.75%                    |
| CX Shares                 | Up to 1%                    | None                                    | 0.75%                    |
| D Shares                  | None                        | 1.00%                                   | 1.50%                    |
| E Shares                  | Up to 1%                    | None                                    | 0.50%                    |
| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 0.75%              |
| Z Shares                  | None                        | None                                    | Up to 0.75%              |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

<sup>1</sup> Different subscription and redemption procedures may apply if applications are made through Distributors.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 5% is equivalent to 5.263 15% of the Net Asset Value per Share; up to 4% is equivalent to 4.16667% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

# Schroder International Selection Fund European Sustainable Value

## Investment Objective

The Fund aims to provide capital growth in excess of the MSCI Europe (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity related securities of European companies which meet the Investment Manager's sustainability criteria.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of European companies.

The Fund focuses on companies that have certain "Value" characteristics. Value is assessed by looking at indicators such as cash flows, dividends and earnings to identify securities which the Investment Manager believes have been undervalued by the market.

The Fund maintains a higher overall sustainability score than the MSCI Europe (Net TR) index, based on the Investment Manager's rating criteria. More details on the investment process used to achieve this can be found in the Fund Characteristics section.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

The Fund invests in companies that have good governance practices, as determined by the Investment Manager's rating criteria (please see the Fund Characteristics section for more details).

The Fund may invest in companies that the Investment Manager believes will improve their sustainability practices within a reasonable timeframe, typically up to three years.

The Investment Manager may also engage with companies held by the Fund to challenge identified areas of weakness on sustainability issues. More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website [www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures](http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures).

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.

## Benchmark

The Fund's performance should be assessed against its target benchmark, being to exceed the MSCI Europe (Net TR) index and compared against the MSCI Europe Value (Net TR) index. The Fund's investment universe is expected to overlap to a limited extent with the components of the target benchmark and the MSCI Europe Value (Net TR) index. The comparator benchmark are only included for

performance comparison purposes and do not determine how the Investment Manager invests the Fund's assets. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the target benchmark or the MSCI Europe Value (Net TR) index. The Investment Manager will invest in companies or sectors not included in the target benchmark or the MSCI Europe Value (Net TR) index in order to take advantage of specific investment opportunities.

The target benchmark has been selected because it is representative of the type of investments in which the Fund is likely to invest, and it is, therefore, an appropriate target in relation to the return that the Fund aims to provide. Any comparator benchmark has been selected because the Investment Manager believes that the benchmark is a suitable comparison for performance purposes given the Fund's investment objective and policy.

The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

## Further Information

The Fund is categorised as "Specialist Equity Fund".

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Specific Risk Considerations

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). A Fund with these characteristics may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As Investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund's investment objective across all Share Classes after fees have been deducted.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are more concerned with maximising long term returns than minimising possible short term losses.

## Fund Characteristics

| Redemption Charge                                                      | None                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| PEA / PIR Eligibility                                                  | No                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |
| Sustainability Criteria                                                | <p>The Investment Manager applies sustainability criteria when selecting investments for the Fund.</p> <p>Companies are assessed on a variety of ESG factors including how they treat their stakeholders, governance, and environmental impact. Issuers are analysed in three ways – through research conducted by the investment desk, via third party sustainability research and using proprietary sustainability tools. Issuers are not assigned an overall score, but should generally be deemed to have satisfied the Investment Manager’s requirements across different assessments in order to be eligible for the Fund’s portfolio. The criteria required by the Investment Manager include both quantitative standards (such as minimum ratings) and strong performance in a qualitative assessment of the sustainability of the issuer’s business. The weighting of environmental, social and governance factors may be varied to take into account those most relevant for the issuer’s particular industry.</p> <p>The sources of information used to perform this analysis includes information disclosed by companies as well as Schroders’ proprietary sustainability tools and third-party research. The Investment Manager will also typically engage with issuers directly to obtain information and to encourage improvements in sustainability performance.</p> <p>More details on the Investment Manager’s approach to sustainability and its engagement with companies are available on the website <a href="http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures">www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures</a>.</p> <p>The Investment Manager ensures that at least 90% of companies in the Fund’s portfolio are rated against the sustainability criteria. As a result of the application of sustainability criteria, at least 20% of the Fund’s potential investment universe is excluded from the selection of investments.</p> <p>For the purposes of this test, the potential investment universe is the core universe of issuers that the Investment Manager may select for the Fund prior to the application of sustainability criteria, in accordance with the other limitations of the Investment Objective and Policy. This universe is comprised of equity and equity related securities of European companies.</p> |

<sup>1</sup> Different subscription and redemption procedures may apply if applications are made through Distributors.

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 5% is equivalent to 5.263 15% of the Net Asset Value per Share; up to 4% is equivalent to 4.16667% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund European Large Cap

## Investment Objective

The Fund aims to provide capital growth in excess of the MSCI Europe (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity related securities of European large-sized companies.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of large-sized European companies. These are companies which, at the time of purchase, are considered to be in the top 80% by market capitalisation of the European equities market.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.

The Fund maintains a carbon exposure below that of the MSCI Europe (Net TR) index, and maintains a higher overall sustainability score than the MSCI Europe (Net TR) index, based on the Investment Manager's rating system. More details on the investment process used to achieve this can be found in the Fund Characteristics section.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

## Benchmark

The Fund's performance should be assessed against its target benchmark being to exceed the MSCI Europe (Net TR) index, and compared against the Morningstar Europe Large Cap Blend Equity Category. The Fund's investment universe is expected to overlap materially with the components of the target benchmark. The comparator benchmark is only included for performance comparison purposes and does not determine how the Investment Manager invests the Fund's assets. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the target benchmark. The Investment Manager will invest in companies or sectors not included in the target benchmark in order to take advantage of specific investment opportunities. The benchmark(s) does/do not

take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

The target benchmark has been selected because it is representative of the type of investments in which the Fund is likely to invest and it is, therefore, an appropriate target in relation to the return that the Fund aims to provide. The comparator benchmark has been selected because the Investment Manager believes that the benchmark is a suitable comparison for performance purposes given the Fund's investment objective and policy.

## Further Information

The Fund is categorised as "Mainstream Equity Fund".

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Specific Risk Considerations

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund's investment objective across all Share Classes after fees have been deducted.

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). A Fund with these characteristics may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As Investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are seeking long term growth potential offered through investment in equities.

| Sustainability Criteria | <p>The Investment Manager applies governance and sustainability criteria when selecting investments for the Fund.</p> <p>Companies in the investment universe are subject to analysis related to their individual total scope 1 &amp; 2 carbon emissions. The sources of information used to perform the analysis include Schroders' proprietary sustainability tools and third-party data.</p> <p>Companies in the investment universe are assessed on their governance, environmental and social profile, across a range of factors. This analysis is supported by quantitative analysis gained from Schroders in-house ESG data tools. The Investment Manager assesses a company's environment and social impact, as well as governance practices, using proprietary sustainability tools. In addition, the Investment Manager also performs its own research and analysis before deciding whether a company is eligible for inclusion in the Fund, based on its overall sustainability profile. Proprietary tools will be key inputs to measure how companies in the portfolio are meeting the sustainability credentials outlined above.</p> <p>The sources of information used to perform the analysis include information provided by the companies, such as company sustainability reports and other relevant company material, as well as Schroders' proprietary sustainability tools and third-party data.</p> <p>More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website <a href="http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures">www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures</a>.</p> <p>The Investment Manager ensures that at least:</p> <ul style="list-style-type: none"> <li>– 90% of equities issued by large companies domiciled in developed countries; fixed or floating rate securities and money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries; and</li> <li>– 75% of equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies; fixed or floating rate securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging countries,</li> </ul> <p>held in the Fund's portfolio are rated against the sustainability criteria. For the purposes of this test, small companies are those with market capitalisation below €5 billion, medium companies are those between €5 billion and €10 billion and large companies are those above €10 billion.</p> |

## General Share Class Features

| Share Classes             | Initial Charge <sup>2</sup> | Annual Distribution Charge <sup>3</sup> | Annual Management Charge |
|---------------------------|-----------------------------|-----------------------------------------|--------------------------|
| A Shares                  | Up to 5%                    | None                                    | 1.25%                    |
| AX Shares                 | Up to 5%                    | None                                    | 1.25%                    |
| A1 Shares                 | Up to 4%                    | 0.50%                                   | 1.50%                    |
| B Shares                  | None                        | 0.60%                                   | 1.25%                    |
| C Shares                  | Up to 1%                    | None                                    | 0.625%                   |
| CN Shares                 | Up to 3%                    | None                                    | 0.625%                   |
| CX Shares                 | Up to 1%                    | None                                    | 0.625%                   |
| D Shares                  | None                        | 1.00%                                   | 1.25%                    |
| E Shares                  | Up to 1%                    | None                                    | 0.375%                   |
| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 0.75%              |
| Z Shares                  | None                        | None                                    | Up to 0.75%              |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 5% is equivalent to 5.263 15% of the Net Asset Value per Share; up to 4% is equivalent to 4.16667% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

# Schroder International Selection Fund European Smaller Companies

## Investment Objective

The Fund aims to provide capital growth in excess of the EMIX European Smaller Companies (TR) index after fees have been deducted over a three to five year period by investing in equity or equity related securities of small-sized European companies.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of small-sized European companies. These are companies which, at the time of purchase, are considered to be in the bottom 30% by market capitalisation of the European equities market.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.

The Fund maintains a higher overall sustainability score than the EMIX European Smaller Companies (TR) index, based on the Investment Manager's rating criteria. More details on the investment process used to achieve this can be found in the Fund Characteristics section.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

## Benchmark

The Fund's performance should be assessed against its target benchmark being to exceed the EMIX European Smaller Companies (TR) index. The Fund's investment universe is expected to overlap materially with the components of the target benchmark. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the target benchmark. The Investment Manager will invest in companies or sectors not included in the target benchmark in order to take advantage of specific investment opportunities.

## Fund Characteristics

|                                                                        |                                               |
|------------------------------------------------------------------------|-----------------------------------------------|
| Fund Currency                                                          | EUR                                           |
| Investment Manager                                                     | Schroder Investment Management Limited        |
| Dealing Cut-off Time                                                   | 13.00 Luxembourg time on Dealing Day          |
| Dealing Frequency                                                      | Daily on Dealing Day                          |
| Settlement Period of Subscription and Redemption Proceeds <sup>1</sup> | 3 Business Days from the relevant Dealing Day |
| Performance Fee                                                        | None                                          |

<sup>1</sup> Different subscription and redemption procedures may apply if applications are made through Distributors.

The target benchmark has been selected because it is representative of the type of investments in which the Fund is likely to invest and it is, therefore, an appropriate target in relation to the return that the Fund aims to provide.

The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

## Further Information

The Fund is categorised as "Specialist Equity Fund".

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Specific Risk Considerations

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). A Fund with these characteristics may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As Investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund's investment objective across all Share Classes after fees have been deducted.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are more concerned with maximising long term returns than minimising possible short term losses.

|                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |

| Sustainability Criteria | <p>The Investment Manager applies governance and sustainability criteria when selecting investments for the Fund.</p> <p>Companies in the investment universe are assessed on their governance, environmental and social profile. The Investment Manager performs due diligence on potential holdings and this can include meetings with company management. The Investment Manager aims to identify the impact a business has on society whilst assessing relationships with key stakeholders such as employees, suppliers and regulators. This research is supported by quantitative analysis gained from Schroders' proprietary sustainability tools which are key inputs to assessing how existing and potential investments are meeting the Fund's sustainability criteria.</p> <p>The sources of information used to perform the analysis include information provided by the companies, such as company sustainability reports and other relevant company material, as well as Schroders' proprietary sustainability tools and third-party data.</p> <p>More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website <a href="http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures">www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures</a>.</p> <p>The Investment Manager ensures that at least:</p> <ul style="list-style-type: none"> <li>– 90% of equities issued by large companies domiciled in developed countries; fixed or floating rate securities and money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries; and</li> <li>– 75% of equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies; fixed or floating rate securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging countries,</li> </ul> <p>held in the Fund's portfolio are rated against the sustainability criteria. For the purposes of this test, small companies are those with market capitalisation below €5 billion, medium companies are those between €5 billion and €10 billion and large companies are those above €10 billion.</p> |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate. Initial charge of up to 5% is equivalent to 5.263 15% of the Net Asset Value per Share; up to 4% is equivalent to 4.16667% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund European Special Situations

## Investment Objective

The Fund aims to provide capital growth in excess of the MSCI Europe (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity related securities of European companies which meet the Investment Manager's sustainability criteria.

## Investment Policy

The Fund is actively managed and invests in a select portfolio of securities in special situations, where the Investment Manager believes a special situation to be a company whose future prospects are not fully reflected in its valuation.

The Fund maintains a higher overall sustainability score than MSCI Europe Net TR index, based on the Investment Manager's rating system. More details on the investment process used to achieve this can be found in the Fund Characteristics section.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

The Fund invests in companies that have good governance practices, as determined by the Investment Manager's rating criteria (please see the Fund Characteristics section for more details).

The Investment Manager may also engage with companies held by the Fund to challenge identified areas of weakness on sustainability issues. More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website [www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures](http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures).

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.

## Benchmark

The Fund's performance should be assessed against its target benchmark being to exceed the MSCI Europe (Net TR) index. The Fund's investment universe is expected to

overlap materially with the components of the target benchmark. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the target benchmark. The Investment Manager will invest in companies or sectors not included in the target benchmark in order to take advantage of specific investment opportunities. The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

The target benchmark has been selected because it is representative of the type of investments in which the Fund is likely to invest and it is, therefore, an appropriate target in relation to the return that the Fund aims to provide.

## Further Information

The Fund is categorised as "Specialist Equity Fund".

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Specific Risk Considerations

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund's investment objective across all Share Classes after fees have been deducted.

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). A Fund with these characteristics may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As Investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are more concerned with maximising long term returns than minimising possible short term losses.

| Performance Fee         | 15% of the outperformance over MSCI Europe Net TR <sup>2</sup> , subject to a High Water Mark as per the methodology in section 3.1. Performance fee will be applied to all Share Classes except the I Shares                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| Redemption Charge       | None                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| PEA / PIR Eligibility   | No                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| Sustainability Criteria | <p>The Investment Manager applies sustainability criteria when selecting investments for the Fund.</p> <p>Companies held by the Fund are expected to show a commitment to their stakeholders, including customers, employees, suppliers and regulators. The Fund invests in those companies which consider stakeholders fairly and have good governance.</p> <p>Companies in the investment universe are assessed on their governance, environmental and social profile, across a range of factors. The Investment Manager performs its own due diligence on all potential holdings including, where possible, meetings with senior management.</p> <p>This analysis is supported by quantitative analysis gained from Schroders' proprietary sustainability tools. Such are key inputs to measure how companies in the portfolio are meeting the sustainability credentials outlined above. The Investment Manager aims to ensure that at least 75% of the Fund's individual holdings have a positive sustainability score relative to the benchmark stated in the investment policy.</p> <p>The Investment Manager ensures that at least 90% of companies in the Fund's portfolio are rated against the sustainability criteria. As a result of the application of sustainability criteria, at least 20% of the Fund's potential investment universe is excluded from the selection of investments.</p> <p>For the purposes of this test, the potential investment universe is the core universe of issuers that the Investment Manager may select for the Fund prior to the application of sustainability criteria, in accordance with the other limitations of the Investment Objective and Policy. This universe is comprised of equity and equity related securities issued by European companies.</p> |

## General Share Class Features

| Share Classes             | Initial Charge <sup>3</sup> | Annual Distribution Charge <sup>4</sup> | Annual Management Charge |
|---------------------------|-----------------------------|-----------------------------------------|--------------------------|
| A Shares                  | Up to 5%                    | None                                    | 1.50%                    |
| AX Shares                 | Up to 5%                    | None                                    | 1.50%                    |
| A1 Shares                 | Up to 4%                    | 0.50%                                   | 1.50%                    |
| B Shares                  | None                        | 0.60%                                   | 1.50%                    |

| CN Shares                 | Up to 3%                    | None                                    | 0.75%                    |
| CX Shares                 | Up to 1%                    | None                                    | 0.75%                    |
| D Shares                  | None                        | 1.00%                                   | 0.75%                    |
| E Shares                  | Up to 1%                    | None                                    | 0.50%                    |
| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 0.75%              |
| Z Shares                  | None                        | None                                    | Up to 0.75%              |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> In relation to currency hedged Share Classes, currency hedged versions of the above mentioned benchmarks (including currency equivalent cash benchmarks) are used for performance fee calculation purposes.

<sup>3</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate. Initial charge of up to 5% is equivalent to 5.263 15% of the Net Asset Value per Share; up to 4% is equivalent to 4.1667% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>4</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund European Sustainable Equity

## Investment Objective

The Fund aims to provide capital growth in excess of the MSCI Europe (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity related securities of European companies which meet the Investment Manager's sustainability criteria.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of European companies.

The Fund maintains a higher overall sustainability score than MSCI Europe (Net TR) index, based on the Investment Manager's rating system. More details on the investment process used to achieve this can be found in the Fund Characteristics section.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

The Fund invests in companies that have good governance practices, as determined by the Investment Manager's rating criteria (please see the Fund Characteristics section for more details).

The Investment Manager may also engage with companies held by the Fund to challenge identified areas of weakness on sustainability issues. More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website [www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures](http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures).

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.

## Benchmark

The Fund's performance should be assessed against its target benchmark, being to exceed the MSCI Europe (Net TR) index and compared against the Morningstar Europe Large Cap Blend Equity Category. The Fund's investment universe is expected to overlap to a limited extent with the components of the target benchmark. The comparator benchmark is only included for performance comparison purposes and does not determine how the Investment Manager invests the Fund's assets. The Investment Manager invests on a discretionary basis and there are no

restrictions on the extent to which the Fund's portfolio and performance may deviate from the target benchmark. The Investment Manager will invest in companies or sectors not included in the target benchmark in order to take advantage of specific investment opportunities.

The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

The target benchmark has been selected because it is representative of the type of investments in which the Fund is likely to invest and it is, therefore, an appropriate target in relation to the return that the Fund aims to provide. The comparator benchmark has been selected because the Investment Manager believes that the benchmark is a suitable comparison for performance purposes given the Fund's investment objective and policy.

## Further Information

The Fund is categorised as "Specialist Equity Fund".

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Specific Risk Considerations

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund's investment objective across all Share Classes after fees have been deducted.

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). A Fund with these characteristics may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As Investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are more concerned with maximising long term returns than minimising possible short term losses.

| Sustainability Criteria                                                | <p>The Investment Manager applies sustainability criteria when selecting investments for the Fund.</p> <p>Companies in the investment universe are assessed on their governance, environmental and social profile, across a range of factors. This analysis is supported by quantitative analysis gained from Schroders' proprietary sustainability tools. The Investment Manager assesses a company's environment and social impact, as well as governance practices, using proprietary sustainability tools. In addition, the Investment Manager also performs its own research and analysis before deciding whether a company is eligible for inclusion in the Fund, based on its overall sustainability profile. Proprietary tools will be key inputs to measure how companies in the portfolio are meeting the sustainability credentials outlined above.</p> <p>The sources of information used to perform the analysis include information provided by the companies, such as company sustainability reports and other relevant company material, as well as Schroders' proprietary sustainability tools and third-party data.</p> <p>The Investment Manager ensures that at least 90% of companies in the Fund's portfolio are rated against the sustainability criteria. As a result of the application of sustainability criteria, at least 20% of the Fund's potential investment universe is excluded from the selection of investments.</p> <p>For the purposes of this test, the potential investment universe is the core universe of issuers that the Investment Manager may select for the Fund prior to the application of sustainability criteria, in accordance with the other limitations of the Investment Objective and Policy. This universe is comprised of equity and equity related securities of European companies.</p> |

| D Shares                  | None                        | 1.00%                                   | 1.25%                    |
| E Shares                  | Up to 1%                    | None                                    | 0.375%                   |
| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 0.625%             |
| Z Shares                  | None                        | None                                    | Up to 0.625%             |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>1</sup> Different subscription and redemption procedures may apply if applications are made through Distributors.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate. Initial charge of up to 3% is equivalent to 3.092 78% of the Net Asset Value per Share; up to 2% is equivalent to 2.04081% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund European Value

## Investment Objective

The Fund aims to provide capital growth in excess of the MSCI Europe (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity related securities of European companies.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in a concentrated range of equities of European companies. The Fund typically holds 30 - 70 companies.

The Fund applies a disciplined value investment approach, seeking to invest in a select portfolio of companies that the Investment Manager believes are significantly undervalued relative to their long-term earnings potential.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.

## Benchmark

The Fund's performance should be assessed against its target benchmark, being to exceed the MSCI Europe (Net TR) index and compared against the MSCI Europe Value (Net TR) index and the Morningstar Europe Flex Cap Equity Category. The Fund's investment universe is expected to overlap to a limited extent with the components of the target benchmark and the MSCI Europe Value (Net TR) index. The comparator benchmarks are only included for performance comparison purposes and do not determine how the Investment Manager invests the Fund's assets. The

Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the target benchmark or the MSCI Europe Value (Net TR) index. The Investment Manager will invest in companies or sectors not included in the target benchmark or the MSCI Europe Value (Net TR) index in order to take advantage of specific investment opportunities.

The target benchmark has been selected because it is representative of the type of investments in which the Fund is likely to invest, and it is, therefore, an appropriate target in relation to the return that the Fund aims to provide. Any comparator benchmark has been selected because the Investment Manager believes that the benchmark is a suitable comparison for performance purposes given the Fund's investment objective and policy.

## Further Information

The Fund is categorised as "Specialist Equity Fund".

## Risk Considerations

### Specific Risk Considerations

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund's investment objective across all Share Classes after fees have been deducted.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are more concerned with maximising long term returns than minimising possible short term losses.

| A Shares                  | Up to 5%                    | None                                    | 1.50%                    |
| AX Shares                 | Up to 5%                    | None                                    | 1.50%                    |
| A1 Shares                 | Up to 4%                    | 0.50%                                   | 1.50%                    |
| B Shares                  | None                        | 0.60%                                   | 1.50%                    |
| C Shares                  | Up to 1%                    | None                                    | 0.75%                    |
| CN Shares                 | Up to 3%                    | None                                    | 0.75%                    |
| CX Shares                 | Up to 1%                    | None                                    | 0.75%                    |
| D Shares                  | None                        | 1.00%                                   | 1.50%                    |
| E Shares                  | Up to 1%                    | None                                    | 0.50%                    |
| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 1%                 |
| Z Shares                  | None                        | None                                    | Up to 1%                 |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>3</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 5% is equivalent to 5.263 15% of the Net Asset Value per Share; up to 4% is equivalent to 4.16667% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>4</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund Frontier Markets Equity

## Investment Objective

The Fund aims to provide capital growth in excess of the MSCI Frontier Emerging Markets (FEM) index (Net TR) with emerging markets capped at 10% after fees have been deducted over a three to five year period by investing in equity and equity related securities of frontier emerging markets companies.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of frontier emerging markets companies worldwide.

The Fund typically holds 50-70 companies.

'Frontier emerging markets' are countries included in the MSCI Frontier Emerging Markets (FEM) index or any other recognised frontier markets financial index, or additional countries that the Investment Manager deems to be frontier emerging market countries.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.

## Benchmark

The Fund's performance should be assessed against its target benchmark being to exceed the MSCI Frontier Emerging Markets (FEM) index (Net TR) with emerging markets capped at 10%. The Fund's investment universe is expected to overlap materially, directly or indirectly, with the components of the target benchmark. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and

performance may deviate from the target benchmark. The Investment Manager will invest in companies or sectors not included in the target benchmark in order to take advantage of specific investment opportunities.

The target benchmark has been selected because it is representative of the type of investments in which the Fund is likely to invest and it is, therefore, an appropriate target in relation to the return that the Fund aims to provide.

## Further Information

The Fund is categorised as "Specialist Equity Fund".

Frontier emerging markets are countries included in the MSCI Frontier Emerging Markets (FEM) index or any other recognised frontier markets financial index, or additional countries that the Investment Manager deems to be frontier emerging market countries.

## Risk Considerations

### Specific Risk Considerations

Risks related to emerging and frontier markets investments can be found under "Emerging and Less Developed Markets Securities Risk" in Appendix II of this Prospectus.

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund's investment objective across all Share Classes after fees have been deducted.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are more concerned with maximising long term returns than minimising possible short term losses.

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 5% is equivalent to 5.263 15% of the Net Asset Value per Share; up to 4% is equivalent to 4.16667% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund Global Bond

## Investment Objective

The Fund aims to provide capital growth and income in excess of the Bloomberg Global Aggregate Bond index after fees have been deducted over a three to five year period by investing in fixed and floating rate securities.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in fixed and floating rate securities with an investment grade or sub-investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies) issued by governments, government agencies, supra-nationals and companies worldwide in various currencies.

The Fund may invest:

- up to 10% of its assets in contingent convertible bonds;
- up to 30% of its assets in securities that have a below investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies for rated bonds and implied Schrodgers ratings for non-rated bonds); and
- up to 40% of its assets in asset-backed securities, commercial mortgage-backed securities, and/or residential mortgage-backed securities issued worldwide with an investment grade or sub-investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies). Underlying assets may include credit card receivables, personal loans, auto loans, small business loans, leases, commercial mortgages and residential mortgages.

The Fund may invest in mainland China through Regulated Markets (including the CIBM via Bond Connect or CIBM Direct).

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.

The Fund maintains a higher overall sustainability score than the Bloomberg Global Aggregate Bond index, based on the Investment Manager's rating criteria. More details on the investment process used to achieve this can be found in the Fund Characteristics section.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

## Benchmark

The Fund's performance should be assessed against its target benchmark being to exceed the Bloomberg Global Aggregate Bond index. The Fund's investment universe is expected to overlap to a limited extent with the components of the target benchmark. However, the Fund will likely

reflect certain features of the target benchmark (namely credit quality/duration, currency exposure/exposure to particular issuers). The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the target benchmark. The Investment Manager will invest in companies or sectors not included in the target benchmark in order to take advantage of specific investment opportunities.

The target benchmark has been selected because it is representative of the type of investments in which the Fund is likely to invest and it is, therefore, an appropriate target in relation to the return that the Fund aims to provide.

The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

## Further Information

The Fund is categorised as "Mainstream Bond Fund".

The Investment Manager of the Fund undertakes the hedging of the Shares of the hedged Share Classes by considering the relevant underlying currency exposures within the benchmark of the Fund. Performance of these hedged Share Classes may therefore vary significantly from equivalent Share Classes in the Fund Currency.

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Risk Management Method

Relative Value-at-Risk (VaR)

### VaR Benchmark

Bloomberg Global Aggregate Bond Index. This USD unhedged index provides a broad-based measure of the global investment grade fixed-rate debt markets.

### Expected Leverage

400% of the total net assets

The expected level of leverage may be higher when volatility decreases sustainably, when interest rates are expected to change or when credit spreads are expected to widen or tighten.

### This Fund is not a leveraged financial instrument

The Fund utilises financial derivative instruments for investment purposes and the global exposure is monitored under the relative VaR approach in line with UCITS Risk Measurement Rules. Whilst these instruments generate leverage, the Fund itself is not a leveraged financial instrument as further described in the MIFID Directive. For further details on the relative VaR approach please see Appendix 1. In addition to this regulatory restriction, Schroders implements internal controls on global exposure to constrain and/or highlight global exposure as appropriate.

### Specific Risk Considerations

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). A Fund with these characteristics may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund's investment objective across all Share Classes after fees have been deducted.

### Profile of the Typical Investor

The Fund may be suitable for Investors who are seeking to combine capital growth opportunities with income in the relative stability of the debt markets over the long term.

| PEA / PIR Eligibility                                                  | No                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |
| Sustainability Criteria                                                | <p>The Investment Manager applies governance and sustainability criteria when selecting investments for the Fund.</p> <p>Sustainability factors are assessed – across both sovereign markets and credit allocation decisions – in tandem with macroeconomic factors throughout the Investment Manager's top-down thematic investment process.</p> <p>In assessing sustainability factors for sovereign issuers, the Investment Manager considers that countries with stable and non-corrupt governments are likely to be more willing and able to service their debts, while political considerations, including the impact of social and governance factors, can influence a country's inflation and currency profile and thus have a material impact on the real value of debt. Environmental impacts – which can be more pertinent over a longer-term horizon – are also incorporated. The Investment Manager's approach includes the use of Schroders' proprietary sustainability tools to rank countries by measuring their performance against multiple sustainability related indicators.</p> <p>Credit selection decisions are delegated to the Investment Manager's specialist credit investment teams, who aim to identify issuers demonstrating good or improving sustainability credentials, and those that impose a high cost on the environment and society. This involves:</p> <ul style="list-style-type: none"><li>– The exclusion of issuers that the Investment Manager deems to have businesses that are materially damaging to the environment or impose unjustifiable social costs; and</li><li>– The inclusion of issuers that demonstrate stable and improving sustainability trajectories, and issuers demonstrating good governance based on the Investment Manager's sustainability rating methodology.</li></ul> <p>The primary sources of information used to perform this analysis are the Investment Manager's proprietary tools and research, third-party research, NGO reports and expert networks. For corporate issuers, the Investment Manager also performs its own analysis of publicly available information provided by the companies, including information provided in company sustainability reports and other relevant company material.</p> <p>More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website <a href="http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures">www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures</a>.</p> <p>The Investment Manager ensures that at least:</p> <ul style="list-style-type: none"><li>– 90% of equities issued by large companies domiciled in developed countries; fixed or floating rate securities and money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries; and</li></ul> |

<sup>1</sup> Different subscription and redemption procedures may apply if applications are made through Distributors.

- 75% of equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies; fixed or floating rate securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging countries,

held in the Fund's portfolio are rated against the sustainability criteria. For the purposes of this test, small companies are those with market capitalisation below €5 billion, medium companies are those between €5 billion and €10 billion and large companies are those above €10 billion.

## General Share Class Features

| Share Classes             | Initial Charge <sup>2</sup> | Annual Distribution Charge <sup>3</sup> | Annual Management Charge |
|---------------------------|-----------------------------|-----------------------------------------|--------------------------|
| A Shares                  | Up to 3%                    | None                                    | 0.75%                    |
| AX Shares                 | Up to 3%                    | None                                    | 0.75%                    |
| A1 Shares                 | Up to 2%                    | 0.50%                                   | 0.75%                    |
| B Shares                  | None                        | 0.50%                                   | 0.75%                    |
| C Shares                  | Up to 1%                    | None                                    | 0.50%                    |

| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 0.50%              |
| Z Shares                  | None                        | None                                    | Up to 0.50%              |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 3% is equivalent to 3.092 78% of the Net Asset Value per Share; up to 2% is equivalent to 2.04081% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund Global Cities

## Investment Objective

The Fund aims to provide capital growth and income in excess of the FTSE EPRA NAREIT Developed index (Net TR, USD) after fees have been deducted over a three to five year period by investing in equity and equity related securities of real estate companies worldwide and which the Investment Manager deems to be sustainable investments.

## Investment Policy

The Fund is actively managed and invests at least 75% of its assets in sustainable investments, which are investments that contribute towards more environmentally resilient and innovative cities and infrastructure (please see the Fund Characteristics section for more details).

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

The Fund invests in companies that do not cause significant environmental or social harm and have good governance practices, as determined by the Investment Manager's rating criteria (please see the Fund Characteristics section for more details).

The Fund may invest in companies that the Investment Manager believes will improve their sustainability practices within a reasonable timeframe, typically up to two years.

The Investment Manager may also engage with companies held by the Fund to challenge identified areas of weakness on sustainability issues. More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website <https://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures>.

The Fund invests at least two-thirds of its assets in equity and equity related securities of real estate companies worldwide with a focus on companies that invest in cities that the Investment Manager believes will exhibit continued economic growth, supported by factors such as strong infrastructure and supportive planning regimes.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.

## Benchmark

The Fund's performance should be assessed against its target benchmark, being to exceed the FTSE EPRA NAREIT Developed index (Net TR, USD). The Fund's investment

universe is expected to overlap materially with the components of the target benchmark. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the target benchmark. The Investment Manager will invest in companies or sectors not included in the target benchmark in order to take advantage of specific investment opportunities. The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

The target benchmark has been selected because it is representative of the type of investments in which the Fund is likely to invest and it is, therefore, an appropriate target in relation to the return that the Fund aims to provide.

## Further Information

The Fund is categorised as "Specialist Equity Fund".

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Specific Risk Considerations

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund's investment objective across all Share Classes after fees have been deducted.

The Fund has the objective of sustainable investment (within the meaning of Article 9 SFDR). A Fund with this objective may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As Investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are more concerned with maximising long term returns than minimising possible short term losses.

| Sustainability Criteria                                                | <p>The Investment Manager applies sustainability criteria when selecting investments for the Fund. The investment universe is analysed in two distinct phases. Each phase leads to companies being excluded based on weak sustainability metrics:</p> <ul style="list-style-type: none"> <li>– Stage 1 analyses cities on a range of environmental and social metrics. Companies are then scored based on their exposure to the superior/ inferior locations. Companies in the bottom quartile are removed from the Fund's investment universe.</li> <li>– Stage 2 focusses on determining the quantum to be invested in each company, using both internal (i.e. Schroders' proprietary sustainability tools and external sustainability measurement tools. The analysis awards a sustainability score to each company. The process excludes the bottom quartile of companies (based on their sustainability score) from investment by the Fund.</li> </ul> <p>The Investment Manager may also engage with companies in the portfolio, which are expected to demonstrate a clear commitment to sustainability both in their relationships with stakeholders and in their efforts to mitigate their impact on the natural environment.</p> <p>The Investment Manager performs its analysis using its own research and Schroders' sustainable proprietary tools. Third party research is used as a secondary consideration and generally provides a source of challenge or endorsement for its proprietary view.</p> <p>The Investment Manager ensures that at least 90% of companies in the Fund's portfolio are rated against the sustainability criteria. As a result of the application of sustainability criteria, at least 20% of the Fund's potential investment universe is excluded from the selection of investments.</p> <p>For the purposes of this test, the potential investment universe is the core universe of issuers that the Investment Manager may select for the Fund prior to the application of sustainability criteria, in accordance with the other limitations of the Investment Objective and Policy. This universe is comprised of equity and equity related securities of real estate companies worldwide.</p> |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>1</sup> Different subscription and redemption procedures may apply if applications are made through Distributors.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 5% is equivalent to 5.263 15% of the Net Asset Value per Share; up to 4% is equivalent to 4.16667% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund Global Climate Change Equity

## Investment Objective

The Fund aims to provide capital growth by investing in equity and equity related securities of companies worldwide which the Investment Manager believes will benefit from efforts to accommodate or limit the impact of global climate change and which meet the Investment Manager's sustainability criteria.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of companies worldwide.

The Fund maintains a higher overall level of avoided emissions than MSCI All Country World (Net TR) index, based on the Investment Manager's rating system. More details on the investment process used to achieve this can be found in the Fund Characteristics section.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

The Fund invests in companies that have good governance practices, as determined by the Investment Manager's rating criteria (please see the Fund Characteristics section for more details).

The Investment Manager may also engage with companies held by the Fund to challenge identified areas of weakness on sustainability issues. More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website [www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures](http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures).

The Fund may invest directly in China B-Shares and China H-Shares and may invest up to 10% of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A-Shares through Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect and shares listed on the STAR Board and the ChiNext.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.

## Benchmark

The Fund does not have a target benchmark. The Fund's performance should be compared against the MSCI All Country World (Net TR) index. The comparator benchmark is

only included for performance comparison purposes and does not determine how the Investment Manager invests the Fund's assets. The Fund's investment universe is expected to overlap materially with the components of the comparator benchmark. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the comparator benchmark. The Investment Manager will invest in companies or sectors not included in the comparator benchmark. The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

The comparator benchmark has been selected because the Investment Manager believes that the benchmark is a suitable comparison for performance purposes given the Fund's investment objective and policy.

## Further Information

The Fund is categorised as "Specialist Equity Fund".

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Specific Risk Considerations

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). A Fund with these characteristics may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As Investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are more concerned with maximising long term returns than minimising possible short term losses.

## Fund Characteristics

| PEA / PIR Eligibility                                                  | No                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| Sustainability Criteria                                                | <p>The Investment Manager applies sustainability criteria when selecting investments for the Fund.</p> <p>When assessing the significance of climate change on the long-term business outlook for a company, a company is assessed on a number of factors which include but are not limited to:</p> <p>If the company has significant direct industry exposure to climate change trends (mitigation – reducing greenhouse gas emissions through energy efficiency, renewable power, and cleaner vehicles; or adaptation – those that are preparing for the impacts of climate change, for example water stress, coastal flooding, community health issues, or supply chain disruptions, among other issues).</p> <p>The proportion of business segments that are potentially exposed to climate change trends.</p> <p>If the company has significant investment and research and development spending related to the transition to a lower carbon economy.</p> <p>A product portfolio that takes into account the physical and transition risks posed by climate change.</p> <p>The impact on the company of rising carbon costs in the context of its industry and competitive environment.</p> <p>The Investment Manager will then decide on a case by case basis whether a company is eligible for inclusion in the Fund's investment universe, based on this assessment. In addition, the Investment Manager's ESG analysis seeks to evaluate the materiality and impact of a range of ESG factors on the sustainability of future earnings growth and as potential risk factors that may affect a company's valuation. The Investment Manager's decision will focus on ratings in the areas that are most relevant to the particular business of that company.</p> <p>The Investment Manager performs its own analysis of information provided by the companies, including information provided in company sustainability reports and other relevant company material. The research draws information from a wide variety of publicly available corporate information and company meetings, broker reports and outputs from industry bodies, research organisations, think tanks, legislators, consultants, NGOs and academics. Third party research is used as a secondary consideration, and generally provides a source of challenge or endorsement for the Investment Manager's proprietary view.</p> <p>The Investment Manager ensures that at least 90% of companies in the Fund's portfolio are rated against the sustainability criteria. As a result of the application of sustainability criteria, at least 20% of the Fund's potential investment universe is excluded from the selection of investments.</p> <p>For the purposes of this test, the potential investment universe is the core universe of issuers that the Investment Manager may select for the Fund prior to the application of sustainability criteria, in accordance with the other limitations of the Investment Objective and Policy. This universe is comprised of equity and equity related securities of companies worldwide.</p> |

## General Share Class Features

| Share Classes             | Initial Charge <sup>2</sup> | Annual Distribution Charge <sup>3</sup> | Annual Management Charge |
|---------------------------|-----------------------------|-----------------------------------------|--------------------------|
| A Shares                  | Up to 5%                    | None                                    | 1.50%                    |
| AX Shares                 | Up to 5%                    | None                                    | 1.50%                    |
| A1 Shares                 | Up to 4%                    | 0.50%                                   | 1.50%                    |
| B Shares                  | None                        | 0.60%                                   | 1.50%                    |
| C Shares                  | Up to 1%                    | None                                    | 0.75%                    |
| CN Shares                 | Up to 3%                    | None                                    | 0.75%                    |
| CX Shares                 | Up to 1%                    | None                                    | 0.75%                    |
| D Shares                  | None                        | 1.00%                                   | 1.50%                    |
| E Shares                  | Up to 1%                    | None                                    | 0.50%                    |
| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 1%                 |
| Z Shares                  | None                        | None                                    | Up to 1%                 |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 5% is equivalent to 5.263 15% of the Net Asset Value per Share; up to 4% is equivalent to 4.16667% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund Global Climate Leaders

## Investment Objective

The Fund aims to provide capital growth by investing in equity and equity related securities of companies worldwide which the Investment Manager believes will contribute to the global reduction of carbon usage, in line with the Paris Agreement to limit climate change, and which meet the Investment Manager's sustainability criteria.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of companies worldwide.

The Fund maintains a higher overall sustainability score than the MSCI All Country World (Net TR) Index, based on the Investment Manager's rating system. More details on the investment process used to achieve this can be found in the Fund Characteristics section.

The Fund invests in companies that have set targets in relation to the decarbonisation of their business consistent with limiting climate change to 1.5°C warming or less under the Paris Agreement.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

The Fund invests in companies that have good governance practices, as determined by the Investment Manager's rating criteria (please see the Fund Characteristics section for more details).

The Fund may invest in companies that the Investment Manager believes will improve their sustainability practices within a reasonable timeframe, typically up to two years.

The Investment Manager may also engage with companies held by the Fund to challenge identified areas of weakness on sustainability issues. More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website [www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures](http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures).

The Fund may invest directly in China B-Shares and China H-Shares and may invest up to 30% of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A-Shares through Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect and shares listed on the STAR Board and the ChiNext.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I)

The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.

## Benchmark

The Fund does not have a target benchmark. The Fund's performance should be compared against the MSCI AC World (Net TR) Index and the MSCI All Country World Climate Paris Aligned Index. The comparator benchmarks are only included for performance comparison purposes and do not determine how the Investment Manager invests the Fund's assets. The Fund's investment universe is expected to overlap materially with the components of the comparator benchmarks. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the comparator benchmarks. The Investment Manager will invest in companies or sectors not included in the comparator benchmarks. The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

The comparator benchmarks have been selected because the Investment Manager believes that the benchmarks are a suitable comparison for performance purposes given the Fund's investment objective and policy.

## Further Information

The Fund is categorised as "Specialist Equity Fund".

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Specific Risk Considerations

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). A Fund with these characteristics may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As Investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are more concerned with maximising long-term returns than minimising possible short-term losses.

|                                                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

| Sustainability Criteria                                                | <p>The Investment Manager applies sustainability criteria when selecting investments for the Fund.</p> <p>When deciding whether a company is eligible for the Fund's portfolio, the Investment Manager will assess it against a number of criteria which include but are not limited to the company's emissions reduction target and whether the Investment Manager believes that the company is an ambitious and clear climate leader within its industry. The Investment Manager will decide on a case by case basis whether a company is eligible for inclusion in the Fund's investment universe, based on this assessment. The Investment Manager's decision will focus on ratings in the areas that are most relevant to the particular business of that company.</p> <p>The Investment Manager performs its own analysis of information provided by the companies, including information provided in company sustainability reports and other relevant company material. The research draws information from a wide variety of publicly available corporate information and company meetings, broker reports and outputs from industry bodies, research organisations, think tanks, legislators, consultants, NGOs and academics. Third party research is used as a secondary consideration, and generally provides a source of challenge or endorsement for the Investment Manager's proprietary view.</p> <p>The Investment Manager ensures that at least 90% of companies in the Fund's portfolio are rated against the sustainability criteria. As a result of the application of sustainability criteria, at least 20% of the Fund's potential investment universe is excluded from the selection of investments.</p> <p>For the purposes of this test, the potential investment universe is the core universe of issuers that the Investment Manager may select for the Fund prior to the application of sustainability criteria, in accordance with the other limitations of the Investment Objective and Policy. This universe is comprised of equity and equity related securities of companies worldwide.</p> |

## General Share Class Features

| Share Classes             | Initial Charge <sup>2</sup> | Annual Distribution Charge <sup>3</sup> | Annual Management Charge |

Distribution Charge and Management Fee percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

<sup>1</sup> Different subscription and redemption procedures may apply if applications are made through Distributors.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate. Initial charge of up to 5% is equivalent to 5.263 15% of the Net Asset Value per Share; up to 4% is equivalent to 4.16667% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

# Schroder International Selection Fund Global Convertible Bond

## Investment Objective

The Fund aims to provide capital growth in excess of the Thomson Reuters Global Focus Hedged Convertible Bond index (USD) after fees have been deducted over a three to five year period by investing in convertible securities issued by companies worldwide.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in a diversified range of convertible securities and other similar transferable securities, such as convertible preference securities, exchangeable bonds or exchangeable notes issued by companies worldwide. The Fund may also invest in fixed and floating rate securities, equity and equity related securities of companies worldwide.

Convertible bonds are typically corporate bonds that can be converted into shares at a given price. As such, the Investment Manager believes investors can gain exposure to global equity markets with the defensive benefits and less volatile characteristics of a bond investment.

The Fund may invest in excess of 50% of its assets in securities that have a below investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies for rated bonds and implied Schroders ratings for non-rated bonds).

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.

## Benchmark

The Fund's performance should be assessed against its target benchmark being to exceed the Thomson Reuters Global Focus Hedged Convertible Bond index (USD). The Fund's investment universe is expected to overlap materially with the components of the target benchmark. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the target benchmark. The Investment Manager will invest in companies or sectors not included in the target benchmark in order to take advantage of specific investment opportunities.

The target benchmark has been selected because it is representative of the type of investments in which the Fund is likely to invest and it is, therefore, an appropriate target in relation to the return that the Fund aims to provide.

## Further Information

The Fund is categorised as "Specialist Bond Fund".

## Risk Considerations

### Specific Risk Considerations

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund's investment objective across all Share Classes after fees have been deducted.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are seeking to combine capital growth opportunities with income in the relative stability of the debt markets over the long term.

| CN Shares                 | Up to 3%                    | None                                    | 0.75%                    |
| CX Shares                 | Up to 1%                    | None                                    | 0.75%                    |
| D Shares                  | None                        | 1.00%                                   | 1.25%                    |
| E Shares                  | Up to 1%                    | None                                    | 0.375%                   |
| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 0.75%              |
| Z Shares                  | None                        | None                                    | Up to 0.75%              |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 3% is equivalent to 3.09278% of the Net Asset Value per Share; up to 2% is equivalent to 2.04081% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund Global Corporate Bond

## Investment Objective

The Fund aims to provide income and capital growth in excess of the Bloomberg Global Aggregate – Corporate index hedged to USD after fees have been deducted over a three to five year period by investing in fixed and floating rate securities issued by companies worldwide.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in fixed and floating rate securities denominated in various currencies and issued by companies worldwide.

The Fund invests in the full credit spectrum of fixed income investments. The Fund may invest:

- up to 40% of its assets in securities that have a below investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies for rated bonds and implied Schroders ratings for non-rated bonds);
- up to 20% of its assets in securities issued by governments and government agencies; and
- up to 10% of its assets in contingent convertible bonds.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives, long and short, with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently. The Fund may use leverage.

The Fund maintains a higher overall sustainability score than the Bloomberg Global Aggregate – Corporate index Hedged to USD, based on the Investment Manager's rating criteria. More details on the investment process used to achieve this can be found in the Fund Characteristics section.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

## Benchmark

The Fund's performance should be assessed against its target benchmark being to exceed the Bloomberg Global Aggregate – Corporate index Hedged to USD and compared against the Morningstar Global Corporate Bond Category Hedged to USD. The Fund's investment universe is expected to overlap materially with the components of the target benchmark. The comparator benchmark is only included for performance comparison purposes and does not determine how the Investment Manager invests the Fund's assets. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the target benchmark. The Investment Manager will invest in

companies or sectors not included in the target benchmark in order to take advantage of specific investment opportunities.

The target benchmark has been selected because it is representative of the type of investments in which the Fund is likely to invest and it is, therefore, an appropriate target in relation to the return that the Fund aims to provide. The comparator benchmark has been selected because the Investment Manager believes that the benchmark is a suitable comparison for performance purposes given the Fund's investment objective and policy.

The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

## Further Information

The Fund is categorised as "Specialist Bond Fund".

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Risk Management Method

Relative Value-at-Risk (VaR)

### VaR Benchmark

Barclays Global Aggregate Credit Component USD hedged Index. This USD hedged index provides a broad-based measure of the global investment-grade fixed income markets. This index excludes sovereign and securitised securities.

### Expected Leverage

200% of the total net assets

The expected level of leverage may be higher when volatility decreases sustainably, when interest rates are expected to change or when credit spreads are expected to widen or tighten.

### This Fund is not a leveraged financial instrument

The Fund utilises financial derivative instruments for investment purposes and the global exposure is monitored under the relative VaR approach in line with UCITS Risk Measurement Rules. Whilst these instruments generate leverage, the Fund itself is not a leveraged financial instrument as further described in the MIFID Directive. For further details on the relative VaR approach please see Appendix 1. In addition to this regulatory restriction, Schroders implements internal controls on global exposure to constrain and/or highlight global exposure as appropriate.

### Specific Risk Considerations

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). A Fund with these characteristics may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability

criteria chosen by the Investment Manager. As Investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund's investment objective across all Share Classes after fees have been deducted.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are seeking to combine capital growth opportunities with income in the relative stability of the debt markets over the long term.

## Fund Characteristics

| Sustainability Criteria                                                | <p>The Investment Manager applies governance and sustainability criteria when selecting investments for the Fund.</p> <p>The strategy aims to identify issuers demonstrating good or improving sustainability credentials, and those that impose a high cost on the environment and society. This involves:</p> <ul style="list-style-type: none"> <li>- The exclusion of issuers that the Investment Manager deems to have businesses that are materially damaging to the climate and impose unjustifiable social costs.</li> <li>- The inclusion of issuers that demonstrate stable and improving sustainability trajectories, and issuers demonstrating good governance based on the Investment Manager's sustainability rating methodology.</li> </ul> <p>The Investment Manager may also engage with companies to encourage transparency, the transition to a circular economy with lower carbon emissions intensity and responsible social behaviour that promotes sustainable growth and alpha generation.</p> <p>The primary sources of information used to perform the analysis are the Investment Manager's proprietary tools and research, third-party research, NGO reports and expert networks. The Investment Manager also performs its own analysis of publicly available information provided by the companies, including information provided in company sustainability reports and other relevant company material.</p> <p>More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website <a href="http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures">www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures</a>.</p> <p>The Investment Manager ensures that at least:</p> <ul style="list-style-type: none"> <li>- 90% of equities issued by large companies domiciled in developed countries; fixed or floating rate securities and money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries; and</li> <li>- 75% of equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies; fixed or floating rate securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging countries,</li> </ul> <p>held in the Fund's portfolio are rated against the sustainability criteria. For the purposes of this test, small companies are those with market capitalisation below €5 billion, medium companies are those between €5 billion and €10 billion and large companies are those above €10 billion.</p> |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate. Initial charge of up to 3% is equivalent to 3.092 78% of the Net Asset Value per Share; up to 2% is equivalent to 2.04081% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund Global Credit High Income

## Investment Objective

The Fund aims to provide capital growth and income by investing in fixed and floating rate securities issued by governments and companies worldwide. The Fund aims to mitigate losses in falling markets. The mitigation of losses cannot be guaranteed.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in fixed and floating rate investment grade and high yield securities issued by governments, government agencies, supra-nationals and companies worldwide, including emerging market countries.

The Fund may invest:

- in excess of 50% of its assets in securities that have a below investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies for rated bonds and implied Schroders ratings for non-rated bonds);
- up to 20% of its assets in asset-backed securities and mortgage-backed securities;
- up to 10% of its assets in convertible bonds (including contingent convertible bonds);
- up to 10% of its assets in open-ended Investment Funds; and
- in Money Market Investments and hold cash.

The Investment Manager aims to mitigate losses by diversifying the Fund's asset allocation away from areas of the market identified as having a high risk of material negative return.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, and warrants (subject to the restrictions provided in Appendix I).

The Fund may use derivatives, long and short, with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.

The Fund maintains a higher overall sustainability score than the Bloomberg Multiverse ex Treasury BBB+ to CCC+ USD, EUR, GBP index based on the Investment Manager's rating criteria. More details on the investment process used to achieve this can be found in the Fund Characteristics section.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

## Benchmark

The Fund does not have a target benchmark. The Fund's performance should be compared against the Bloomberg Multiverse ex Treasury BBB+ to CCC+ USD, EUR, GBP index, the Bloomberg Global High Yield USD index, and the JP Morgan EMBI Global Total Return index. The comparator benchmarks are only included for performance comparison purposes and do not determine how the Investment

Manager invests the Fund's assets. The Fund's investment universe is expected to overlap to a limited extent with the components of the comparator benchmarks. However, the Fund will likely reflect certain features of the comparator benchmark (namely credit quality/duration, currency exposure/exposure to particular issuers). The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the comparator benchmarks. The Investment Manager will invest in companies or sectors not included in the comparator benchmarks.

Any comparator benchmark has been selected because the Investment Manager believes that the benchmark is a suitable comparison for performance purposes given the Fund's investment objective and policy.

The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

## Further Information

The Fund is categorised as "Specialist Bond Fund".

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Risk Management Method

Absolute Value at Risk (VaR)

### Expected Leverage

500% of the total net assets

The expected level of leverage may be higher when there is unusually high or low volatility.

### This Fund is not a leveraged financial instrument

The Fund utilises financial derivative instruments for investment purposes and the global exposure is monitored under the absolute VaR approach in line with UCITS Risk Measurement Rules. Whilst these instruments generate leverage, the Fund itself is not a leveraged financial instrument as further described in the MIFID Directive. For further details on the absolute VaR approach please see Appendix 1. In addition to this regulatory restriction, Schroders implements internal controls on global exposure to constrain and/or highlight global exposure as appropriate.

### Specific Risk Considerations

A detailed description of the risks linked to contingent convertible bonds, below-investment grade securities, asset-backed securities and mortgage-backed securities can be found in Appendix II of this Prospectus.

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). A Fund with these characteristics may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of

certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As Investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

Risks related to emerging markets investments can be found under “Emerging and Less Developed Markets Securities Risk” in Appendix II of this Prospectus.

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund’s investment objective across all Share Classes after fees have been deducted.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are seeking to combine capital growth opportunities with income in the relative stability of the debt markets over the long term.

| Sustainability Criteria                                                | <p>The Investment Manager applies governance and sustainability criteria when selecting investments for the Fund.</p> <p>The strategy aims to identify issuers demonstrating good or improving sustainability credentials, and those that impose a high cost on the environment and society. This involves:</p> <ul style="list-style-type: none"> <li>– The exclusion of issuers that the Investment Manager deems to have businesses that are materially damaging to the climate and impose unjustifiable social costs.</li> <li>– The inclusion of issuers that demonstrate stable and improving sustainability trajectories, and issuers demonstrating good governance based on the Investment Manager’s sustainability rating methodology.</li> </ul> <p>The Investment Manager may also engage with companies to encourage transparency, the transition to a circular economy with lower carbon emissions intensity and responsible social behaviour that promotes sustainable growth and alpha generation.</p> <p>The primary sources of information used to perform the analysis are the Investment Manager’s proprietary tools and research, third-party research, NGO reports and expert networks. The Investment Manager also performs its own analysis of publicly available information provided by the companies, including information provided in company sustainability reports and other relevant company material.</p> <p>More details on the Investment Manager’s approach to sustainability and its engagement with companies are available on the website <a href="http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures">www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures</a>.</p> <p>The Investment Manager ensures that at least:</p> <ul style="list-style-type: none"> <li>– 90% of equities issued by large companies domiciled in developed countries; fixed or floating rate securities and money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries; and</li> <li>– 75% of equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies; fixed or floating rate securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging countries,</li> </ul> <p>held in the Fund’s portfolio are rated against the sustainability criteria. For the purposes of this test, small companies are those with market capitalisation below €5 billion, medium companies are those between €5 billion and €10 billion and large companies are those above €10 billion.</p> |

| Z Shares                  | None                        | None                                    | Up to 0.60%              |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 5% is equivalent to 5.263 15% of the Net Asset Value per Share; up to 4% is equivalent to 4.16667% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund Global Credit Income

## Investment Objective

The Fund aims to provide income and capital growth by investing in fixed and floating rate securities issued by governments and companies worldwide. The Fund aims to mitigate losses in falling markets. The mitigation of losses cannot be guaranteed.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in fixed and floating rate investment grade and high yield securities issued by governments, government agencies, supra-nationals and companies worldwide, including emerging market countries.

The Fund may invest:

- in excess of 50% of its assets in securities that have a below investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies for rated bonds and implied Schroders ratings for non-rated bonds);
- up to 20% of its assets in asset-backed securities and mortgage-backed securities;
- up to 10% of its assets in convertible bonds (including contingent convertible bonds); and
- up to 10% of its assets in open-ended Investment Funds.

The Investment Manager aims to mitigate losses by diversifying the Fund's asset allocation away from areas of the market identified as having a high risk of material negative return.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives, long and short, with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.

The Fund maintains a higher overall sustainability score than Bloomberg Multiverse ex Treasury A+ to B- USD Hedged index, based on the Investment Manager's rating system. More details on the investment process used to achieve this can be found in the Fund Characteristics section.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

## Benchmark

The Fund does not have a target benchmark. The Fund's performance should be compared against the Bloomberg Multiverse ex Treasury A+ to B- USD Hedged index, the Bloomberg Global Aggregate Corporate USD index, the Bloomberg Global High Yield USD index, and the JP Morgan EMBI Global Total Return index. The comparator benchmarks are only included for performance comparison purposes and do not determine how the Investment Manager invests the Fund's assets. The Fund's investment

universe is expected to overlap materially with the components of the comparator benchmarks. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the comparator benchmarks. The Investment Manager will invest in companies or sectors not included in the comparator benchmarks. The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund. Any comparator benchmark has been selected because the Investment Manager believes that the benchmark is a suitable comparison for performance purposes given the Fund's investment objective and policy.

## Further Information

The Fund is categorised as "Specialist Bond Fund".

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Risk Management Method

Absolute Value-at-Risk (VaR)

### Expected Leverage

500% of the total net assets

The expected level of leverage may be higher when there is unusually high or low volatility.

### This Fund is not a leveraged financial instrument

The Fund utilises financial derivative instruments for investment purposes and the global exposure is monitored under the absolute VaR approach in line with UCITS Risk Measurement Rules. Whilst these instruments generate leverage, the Fund itself is not a leveraged financial instrument as further described in the MIFID Directive. For further details on the absolute VaR approach please see Appendix 1. In addition to this regulatory restriction, Schroders implements internal controls on global exposure to constrain and/or highlight global exposure as appropriate.

### Specific Risk Considerations

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

Risks related to emerging markets investments can be found under "Emerging and Less Developed Markets Securities Risk" in Appendix II of this Prospectus.

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). A Fund with these characteristics may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As Investors may differ in their views of what constitutes sustainable

investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are seeking income, combined with capital growth opportunities in the relative stability of the debt markets over the long term.

## Fund Characteristics

| PEA / PIR Eligibility                                                  | No                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| Sustainability Criteria                                                | <p>The Investment Manager applies governance and sustainability criteria when selecting investments for the Fund.</p> <p>The strategy aims to identify issuers demonstrating good or improving sustainability credentials, and those that impose a high cost on the environment and society. This involves:</p> <ul style="list-style-type: none"> <li>- The exclusion of issuers that the Investment Manager deems to have businesses that are materially damaging to the climate and impose unjustifiable social costs.</li> <li>- The inclusion of issuers that demonstrate stable and improving sustainability trajectories, and issuers demonstrating good governance based on the Investment Manager's sustainability rating methodology.</li> </ul> <p>The Investment Manager may also engage with companies to encourage transparency, the transition to a circular economy with lower carbon emissions intensity and responsible social behaviour that promotes sustainable growth and alpha generation.</p> <p>The primary sources of information used to perform the analysis are the Investment Manager's proprietary tools and research, third-party research, NGO reports and expert networks. The Investment Manager also performs its own analysis of publicly available information provided by the companies, including information provided in company sustainability reports and other relevant company material.</p> <p>More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website <a href="http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures">www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures</a>.</p> <p>The Investment Manager ensures that at least:</p> <ul style="list-style-type: none"> <li>- 90% of fixed or floating rate securities and money market instruments with an investment grade credit rating; sovereign debt issued by developed countries; and equities issued by large companies domiciled in developed countries; and</li> <li>- 75% of fixed or floating rate securities and money market instruments with a high yield credit rating; sovereign debt issued by emerging countries equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies,</li> </ul> <p>held in the Fund's portfolio are rated against the sustainability criteria. For the purposes of this test, small companies are those with market capitalisation below €5 billion, medium companies are those between €5 billion and €10 billion and large companies are those above €10 billion.</p> |

## General Share Class Features

| Share Classes             | Initial Charge <sup>2</sup> | Annual Distribution Charge <sup>3</sup> | Annual Management Charge |
|---------------------------|-----------------------------|-----------------------------------------|--------------------------|
| A Shares                  | Up to 3%                    | None                                    | 1.10%                    |
| AX Shares                 | Up to 3%                    | None                                    | 1.10%                    |
| A1 Shares                 | Up to 2%                    | 0.50%                                   | 1.10%                    |
| B Shares                  | None                        | 0.50%                                   | 1.10%                    |
| C Shares                  | Up to 1%                    | None                                    | 0.55%                    |
| CN Shares                 | Up to 3%                    | None                                    | 0.55%                    |
| CX Shares                 | Up to 1%                    | None                                    | 0.55%                    |
| D Shares                  | None                        | 1.00%                                   | 1.10%                    |
| E Shares                  | Up to 1%                    | None                                    | 0.275%                   |
| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 0.55%              |
| Z Shares                  | None                        | None                                    | Up to 0.55%              |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 3% is equivalent to 3.092 78% of the Net Asset Value per Share; up to 2% is equivalent to 2.04081% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund Global Credit Income Short Duration

## Investment Objective

The Fund aims to provide capital growth and income by investing in fixed and floating rate securities issued by governments and companies worldwide. The Fund aims to reduce interest rate risk (as defined by duration) by focussing on fixed and floating rate securities with a duration of less than four years.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in fixed and floating rate investment grade and high yield securities issued by governments, government agencies, supra-nationals and companies worldwide, including emerging market countries. The Fund's strategy will have an overall duration of less than four years but this does not preclude the fund from investing in securities with a duration above four years. The Investment Manager believes the short duration strategy should limit the overall level of interest rate risk.

The Fund may invest:

- in excess of 50% of its assets in securities that have a below investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies for rated bonds and implied Schroders ratings for non-rated bonds);
- up to 20% of its assets in asset-backed securities and mortgage-backed securities;
- up to 10% of its assets in convertible bonds (including contingent convertible bonds); and
- up to 10% of its assets in open-ended Investment Funds.

The Investment Manager also aims to mitigate losses by diversifying the Fund's asset allocation away from areas of the market identified as having a high risk of material negative return or principal risk.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives, long and short, with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.

The Fund maintains a higher overall sustainability score than Bloomberg Multiverse 1-5 year TR ex-Treasury A+ to B- EUR hedged index, based on the Investment Manager's rating system. More details on the investment process used to achieve this can be found in the Fund Characteristics section.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

## Benchmark

The Fund does not have a target benchmark. The Fund's performance should be compared against 3 month EURIBOR (or alternative reference rate) and Bloomberg Multiverse 1-5 year TR ex-Treasury A+ to B- EUR hedged index. The comparator benchmarks are only included for performance comparison purposes and do not determine how the Investment Manager invests the Fund's assets. In relation to the Bloomberg Multiverse 1-5 year TR ex-Treasury A+ to B- EUR hedged index, the Fund's investment universe is expected to overlap to a limited extent with the components of the comparator benchmark. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the Bloomberg Multiverse 1-5 year TR ex-Treasury A+ to B- EUR hedged index. The Investment Manager will invest in companies or sectors not included in the Bloomberg Multiverse 1-5 year TR ex-Treasury A+ to B- EUR hedged index. The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

Any comparator benchmark has been selected because the Investment Manager believes that the benchmark is a suitable comparison for performance purposes given the Fund's investment objective and policy.

Schroders is in the process of assessing the potential alternatives to EURIBOR and will notify investors of any decision to move away from EURIBOR in due course.

## Further Information

The Fund is categorised as "Specialist Bond Fund".

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Risk Management Method

Absolute Value at Risk (VaR)

### Expected Leverage

300% of the total net assets

The expected level of leverage may be higher when there is unusually high or low volatility.

### This Fund is not a leveraged financial instrument

The Fund utilises financial derivative instruments for investment purposes and the global exposure is monitored under the absolute VaR approach in line with UCITS Risk Measurement Rules. Whilst these instruments generate leverage, the Fund itself is not a leveraged financial instrument as further described in the MIFID Directive. For further details on the absolute VaR approach please see Appendix 1. In addition to this regulatory restriction, Schroders implements internal controls on global exposure to constrain and/or highlight global exposure as appropriate.

### Specific Risk Considerations

The reference in the Investment Policy to a fund investing two thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

Risks related to emerging markets investments can be found under “Emerging and Less Developed Markets Securities Risk” in Appendix II of this Prospectus.

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). A Fund with these characteristics may have limited exposure to some companies, industries or sectors as a result and the Fund

may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As Investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

### Profile of the Typical Investor

The Fund may be suitable for Investors who are seeking income, combined with capital growth opportunities in the relative stability of the debt markets over the long term.

### Fund Characteristics

| Sustainability Criteria                                                | <p>The Investment Manager applies governance and sustainability criteria when selecting investments for the Fund.</p> <p>The strategy aims to identify issuers demonstrating good or improving sustainability credentials, and those that impose a high cost on the environment and society. This involves:</p> <ul style="list-style-type: none"><li>– The exclusion of issuers that the Investment Manager deems to have businesses that are materially damaging to the climate and impose unjustifiable social costs.</li><li>– The inclusion of issuers that demonstrate stable and improving sustainability trajectories, and issuers demonstrating good governance based on the Investment Manager’s sustainability rating methodology.</li></ul> <p>The Investment Manager may also engage with companies to encourage transparency, the transition to a circular economy with lower carbon emissions intensity and responsible social behaviour that promotes sustainable growth and alpha generation.</p> <p>The primary sources of information used to perform the analysis are the Investment Manager’s proprietary tools and research, third-party research, NGO reports and expert networks. The Investment Manager also performs its own analysis of publicly available information provided by the companies, including information provided in company sustainability reports and other relevant company material.</p> <p>More details on the Investment Manager’s approach to sustainability and its engagement with companies are available on the website <a href="http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures">www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures</a>.</p> <p>The Investment Manager ensures that at least:</p> <ul style="list-style-type: none"><li>– 90% of fixed or floating rate securities and money market instruments with an investment grade credit rating; sovereign debt issued by developed countries; and equities issued by large companies domiciled in developed countries; and</li><li>– 75% of fixed or floating rate securities and money market instruments with a high yield credit rating; sovereign debt issued by emerging countries equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies,</li></ul> <p>held in the Fund’s portfolio are rated against the sustainability criteria. For the purposes of this test, small companies are those with market capitalisation below €5 billion, medium companies are those between €5 billion and €10 billion and large companies are those above €10 billion.</p> |

## General Share Class Features

| Share Classes             | Initial Charge <sup>2</sup> | Annual Distribution Charge <sup>3</sup> | Annual Management Charge |
|---------------------------|-----------------------------|-----------------------------------------|--------------------------|
| A Shares                  | Up to 3%                    | None                                    | 1.00%                    |
| AX Shares                 | Up to 3%                    | None                                    | 1.00%                    |
| A1 Shares                 | Up to 2%                    | 0.50%                                   | 1.00%                    |
| B Shares                  | None                        | 0.50%                                   | 1.00%                    |
| C Shares                  | Up to 1%                    | None                                    | 0.40%                    |
| CN Shares                 | Up to 3%                    | None                                    | 0.40%                    |
| CX Shares                 | Up to 1%                    | None                                    | 0.40%                    |
| D Shares                  | None                        | 1.00%                                   | 1.00%                    |
| E Shares                  | Up to 1%                    | None                                    | 0.275%                   |
| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 0.40%              |
| Z Shares                  | None                        | None                                    | Up to 0.40%              |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 3% is equivalent to 3.09278% of the Net Asset Value per Share; up to 2% is equivalent to 2.04081% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund Global Disruption

## Investment Objective

The Fund aims to provide capital growth by investing in equity and equity related securities of companies worldwide which benefit from disruption.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of companies worldwide.

Disruption typically means innovation (whether due to technology or otherwise) which changes a particular industry by creating new markets, products or service models. Disruption can be observed in many industries such as e-commerce, media & communications and banking & payments. The Investment Manager believes that companies benefitting from disruptive innovation, either as the disruptor or otherwise, can experience a rapid acceleration in, and durability of, growth. The Investment Manager seeks to invest in companies benefitting from disruption before this is fully reflected in market expectations.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.

The Fund maintains a higher overall sustainability score than the MSCI AC World (Net TR) index based on the Investment Manager's rating criteria. More details on the investment process used to achieve this can be found in the Fund Characteristics section.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

## Benchmark

The Fund does not have a target benchmark. The Fund's performance should be compared against the MSCI AC World (Net TR) index. The comparator benchmark is only included for performance comparison purposes and does not determine how the Investment Manager invests the Fund's assets. The Fund's investment universe is expected

to overlap materially with the components of the comparator benchmark. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the comparator benchmark. The Investment Manager will invest in companies or sectors not included in the comparator benchmark.

The comparator benchmark has been selected because the Investment Manager believes that the benchmark is a suitable comparison for performance purposes given the Fund's investment objective and policy.

The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

## Further Information

The Fund is categorised as a "Specialist Equity Fund".

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Specific Risk Considerations

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). A Fund with these characteristics may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As Investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

## Profile of the Typical Investor

The Fund may be suitable for investors who are more concerned with maximising long term returns that minimising possible short term losses.

## Fund Characteristics

| Sustainability Criteria | <p>The Investment Manager applies governance and sustainability criteria when selecting investments for the Fund.</p> <p>The Investment Manager evaluates issuers against a range of environmental, social and governance factors in order to decide whether an issuer is eligible for the Fund's portfolio. This analysis is performed by global sector specialists and local analyst teams and is supported by Schroders' dedicated Sustainable Investment team. The Investment Manager uses Schroders' proprietary sustainability tools to provide a baseline assessment that contributes to the overall ESG appraisal of a company. Additionally, meetings with company management inform the Investment Manager's view, providing further insights on corporate culture and senior management commitment to corporate social responsibility, with third party ESG research used primarily as a benchmarking exercise to confirm proprietary analysis.</p> <p>More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website <a href="http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures">www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures</a>.</p> <p>The Investment Manager ensures that at least:</p> <ul style="list-style-type: none"> <li>- 90% of equities issued by large companies domiciled in developed countries; fixed or floating rate securities and money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries; and</li> <li>- 75% of equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies; fixed or floating rate securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging countries,</li> </ul> <p>held in the Fund's portfolio are rated against the sustainability criteria. For the purposes of this test, small companies are those with market capitalisation below €5 billion, medium companies are those between €5 billion and €10 billion and large companies are those above €10 billion.</p> |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 5% is equivalent to 5.263 15% of the Net Asset Value per Share; up to 4% is equivalent to 4.16667% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund Global Diversified Growth

## Investment Objective

The Fund aims to provide long term capital growth and income of 3 Month Euribor + 4.5% per annum after fees have been deducted\* over a five to seven year period by investing in a diversified range of assets and markets worldwide. The Fund aims to provide a volatility (a measure of how much the Fund's returns may vary over a year) of up to two-thirds that of global equities over the same period.

\* As of 1<sup>st</sup> March 2023 the Fund's performance target will change from "after fees have been deducted" to "before fees have been deducted" and the following shall apply:

\*For the target return after fees for each Share Class please visit the Schroder website:

<https://www.schroders.com/en/lu/private-investor/investing-with-us/after-fees-performance-targets/>

## Investment Policy

The Fund is actively managed and invests directly or indirectly through derivatives or open-ended Investment Funds (including other Schroder Funds) and Exchange Traded Funds in a wide range of assets including equity and fixed income securities and Alternative Asset Classes.

The Fund may invest in sub-investment grade securities (being securities with a credit rating below investment grade as measured by Standard & Poor's or any equivalent grade of other credit rating agencies). The Fund may invest up to 20% of its assets in asset-backed securities and mortgage-backed securities. The exposure to Alternative Asset Classes is taken through eligible assets as described in Appendix III of this Prospectus.

The Fund intends to use derivatives (including total return swaps), long and short, with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently. Where the Fund uses total return swaps and contracts for difference, the underlying consists of instruments in which the Fund may invest according to its Investment Objective and Investment Policy. In particular, the aim is to use total return swaps and contracts for difference on a temporary basis in market conditions including but not limited to during periods of expanding global economic growth and rising inflation or elevated geopolitical risk, or when credit spreads are expected to widen such during periods of falling economic growth, rising interest rates or elevated geopolitical risk. Contracts for difference and total return swaps are intended to be used to gain long and short exposure on equity and equity related securities, fixed and floating rate securities and commodity indices. The gross exposure of total return swaps and contracts for difference will not exceed 25% and is expected to remain within the range of 0% to 15% of the Net Asset Value. In certain circumstances this proportion may be higher.

The Fund may invest up to 10% of its assets in open-ended Investment Funds (including other Schroder Funds). The Fund may invest in another fund that charges a performance fee.

**As of 1<sup>st</sup> March 2023 the above paragraph will change to:**

The Fund may invest up to 100% of its assets in open-ended Investment Funds (including other Schroder Funds). The Fund may invest in another fund that charges a performance fee.

The Fund may invest in Money Market Investments and hold cash.

The Fund maintains a higher overall sustainability score than a bespoke asset-weighted blend\* of MSCI World Index (hedged to EUR), MSCI Emerging Market Index (hedged to EUR), Barclays Global Aggregate Corporate Bond Index (hedged to EUR), Barclays Global High Yield excl CMBS & EMD 2% Index (hedged to EUR), ICE BofA US Treasury Index (hedged to EUR), JPM GBI Emerging Market Index - EM Local (hedged to EUR), JPM EMBI Index EM Hard Currency (hedged to EUR), Thomson Reuters Global Convertible Bonds Index (hedged to EUR), based on the Investment Manager's rating system. More details on the investment process used to achieve this can be found in the Fund Characteristics section.\*The blend will evolve over time in line with the actual asset allocation of the Fund.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](https://www.schroders.com/en/lu/private-investor/gfc).

## Benchmark

The Fund's performance should be assessed against its target benchmark, being to deliver the 3 Month Euribor +4.5% and compared against the Harmonised Index of Consumer Prices and the MSCI AC World (Net TR) Hedged to EUR index. The comparator benchmarks are only included for performance comparison purposes and do not determine how the Investment Manager invests the Fund's assets. In relation to the MSCI AC World (Net TR) Hedged to EUR index, the Fund's investment universe is expected to overlap to a limited extent with the components of the comparator benchmark. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the MSCI AC World (Net TR) Hedged to EUR index. The Investment Manager will invest in companies or sectors not included in the MSCI AC World (Net TR) Hedged to EUR index.

The target benchmark has been selected because the target return of the Fund is to deliver or exceed the return of that benchmark as stated in the investment objective. Any comparator benchmark has been selected because the Investment Manager believes that the benchmark is a suitable comparison for performance purposes given the Fund's investment objective and policy.

The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

Schroders is in the process of assessing the potential alternatives to EURIBOR and will notify investors of any decision to move away from EURIBOR in due course.

## Further Information

The Fund is categorised as "Multi-Asset Fund".

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Specific Risk Considerations

Long and short positions gained through index and equity total return swaps may increase exposure to credit-related risks.

The Fund may seek exposure to each of real estate, private equity and commodities through investment in transferable securities, Investment Trusts and REITs, derivatives on Financial Indices, Investment Funds and ETFs which invest in such asset classes. The exposure to commodities will be taken through eligible assets as described under the definition of "Alternative Asset Classes" in Appendix III of this Prospectus.

A detailed description of the risks linked to asset-backed securities and mortgage-backed securities can be found in Appendix II of this Prospectus.

Risks related to emerging markets investments can be found under "Emerging and Less Developed Markets Securities Risk" in Appendix II of this Prospectus.

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). A Fund with these characteristics may have limited exposure to some

companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As Investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund's investment objective across all Share Classes after fees have been deducted.

### Profile of the Typical Investor

The Fund will be suitable for Investors who are more concerned with maximising long-term returns than minimising possible short-term losses.

| Sustainability Criteria                                                | <p>The Investment Manager applies governance and sustainability criteria when selecting investments for the Fund. The investable universe is assessed using a number of proprietary tools, as well as external rating services.</p> <p>The Investment Manager will assess companies against a variety of environmental, social and governance metrics, taking into account issues such as climate change, environmental performance, labour standards and board composition. The Investment Manager will decide whether an investment is eligible for inclusion taking into account the overall ESG score. The multi-asset nature of the Fund means that the Investment Manager will analyse the ESG scores across asset classes as an input into the asset allocation of the Fund. The Investment Manager may select investments, which it deems to contribute to one or more environmental or social objectives, provided that they do no significant harm to any other environmental or social objectives.</p> <p>The sources of information used to perform the analysis include information provided by the companies, such as company sustainability reports and other relevant company material, as well as Schroders' proprietary sustainability tools and third-party data.</p> <p>More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website <a href="http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures">www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures</a>.</p> <p>The Investment Manager ensures that at least:</p> <ul style="list-style-type: none"><li>– 90% of equities issued by large companies domiciled in developed countries; fixed or floating rate securities and money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries; and</li></ul> |

<sup>1</sup> Different subscription and redemption procedures may apply if applications are made through Distributors.

- 75% of equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies; fixed or floating rate securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging countries,

held in the Fund's portfolio are rated against the sustainability criteria. For the purposes of this test, small companies are those with market capitalisation below €5 billion, medium companies are those between €5 billion and €10 billion and large companies are those above €10 billion.

## General Share Class Features

| Share Classes             | Initial Charge <sup>2</sup> | Annual Distribution Charge <sup>3</sup> | Annual Management Charge |
|---------------------------|-----------------------------|-----------------------------------------|--------------------------|
| A Shares                  | Up to 5%                    | None                                    | 1.25%                    |
| AX Shares                 | Up to 5%                    | None                                    | 1.25%                    |
| A1 Shares                 | Up to 4%                    | 0.50%                                   | 1.25%                    |
| B Shares                  | None                        | 0.60%                                   | 1.25%                    |
| C Shares                  | Up to 1%                    | None                                    | 0.625%                   |
| CN Shares                 | Up to 3%                    | None                                    | 0.625%                   |
| CX Shares                 | Up to 1%                    | None                                    | 0.625%                   |
| D Shares                  | None                        | 1.00%                                   | 1.25%                    |
| E Shares                  | Up to 1%                    | None                                    | 0.375%                   |
| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 0.55%              |
| Z Shares                  | None                        | None                                    | Up to 0.55%              |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate. Initial charge of up to 5% is equivalent to 5.263 15% of the Net Asset Value per Share; up to 4% is equivalent to 4.16667% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund Global Dividend Maximiser

## Investment Objective

The Fund aims to deliver an income of 7% per year by investing in equities or equity related securities of companies worldwide. This is not guaranteed and could change depending on market conditions.

## Investment Policy

The Fund is actively managed and invests at least two thirds of its assets (excluding cash) in equities or equity related securities worldwide, which are selected for their income and capital growth potential. To enhance the yield of the Fund the Investment Manager selectively sells short dated call options over individual securities held by the Fund, generating extra income by agreeing strike prices above which potential capital growth is sold.

The Fund may invest directly in China B-Shares and China H-Shares and may invest up to 10% of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A-Shares through Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect and shares listed on the STAR Board and the ChiNext.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.

## Benchmark

The Fund's performance should be assessed against the income target of 7% per year, and compared against the MSCI World (Net TR) index, MSCI World Value (Net TR) index and Morningstar Global Equity Income Category. The comparator benchmarks are only included for performance comparison purposes and do not determine how the Investment Manager invests the Fund's assets. In relation to the MSCI World (Net TR) index and MSCI World Value (Net TR) index, the Fund's investment universe is expected to overlap materially with the components of the comparator benchmarks. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may

deviate from the MSCI World (Net TR) index and the MSCI World Value (Net TR) index. The Investment Manager will invest in companies or sectors not included in the MSCI World (Net TR) index and the MSCI World Value (Net TR) index.

The income target has been selected because the Investment Manager deploys strategies that aim to deliver the level of income stated in the investment objective. Any comparator benchmark has been selected because the Investment Manager believes that the benchmark is a suitable comparison for performance purposes given the Fund's investment objective and policy.

## Further Information

The Fund is categorised as "Specialist Equity Fund".

## Risk Considerations

### Specific Risk Considerations

This Fund makes use of derivatives in a way that is fundamental to its investment objective. It is expected that the strategy will typically underperform a similar portfolio with no derivative overlay in periods when the underlying stock prices are rising, and outperform when the underlying stock prices are falling.

Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect are securities trading and clearing linked programmes developed by The Stock Exchange of Hong Kong Limited, Shanghai/Shenzhen Stock Exchanges, Hong Kong Securities Clearing Company Limited and China Securities Depository and Clearing Corporation Limited, with an aim to achieve mutual stock market access between the PRC (excluding Hong Kong, Macau and Taiwan) and Hong Kong. A detailed description of the programmes as well as risks linked thereto can be found in Appendix II of this Prospectus.

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are more concerned with maximising long term returns than minimising possible short term losses.

## Fund Characteristics

|                                                                        |                                               |

Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund Global Emerging Market Opportunities

## Investment Objective

The Fund aims to provide capital growth and income in excess of the MSCI Emerging Markets (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity related securities of companies in emerging market countries worldwide.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of companies in emerging market countries worldwide.

The Fund may invest up to 40% of its assets in cash and global bonds in order to protect returns when the Investment Manager believes stock markets are expected to be particularly weak.

The Fund may invest directly in China-B Share and China H-Shares and may invest less than 20% of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A-Shares through Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect and shares listed on the STAR Board and the ChiNext.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.

The Fund maintains a higher overall sustainability score than the MSCI Emerging Markets (Net TR) index, based on the Investment Manager's rating criteria. More details on the investment process used to achieve this can be found in the Fund Characteristics section.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

## Benchmark

The Fund's performance should be assessed against its target benchmark being to exceed the MSCI Emerging Markets (Net TR) index. The Fund's investment universe is expected to overlap materially, directly or indirectly, with the components of the target benchmark. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the target benchmark. The Investment Manager will invest in companies or sectors not included in the target benchmark in order to take advantage of specific investment opportunities.

The target benchmark has been selected because it is representative of the type of investments in which the Fund is likely to invest and it is, therefore, an appropriate target in relation to the return that the Fund aims to provide.

The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

## Further Information

The Fund is categorised as "Specialist Equity Fund".

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Specific Risk Considerations

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund's investment objective across all Share Classes after fees have been deducted.

Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect are securities trading and clearing linked programmes developed by The Stock Exchange of Hong Kong Limited, Shanghai/Shenzhen Stock Exchanges, Hong Kong Securities Clearing Company Limited and China Securities Depository and Clearing Corporation Limited, with an aim to achieve mutual stock market access between the PRC (excluding Hong Kong, Macau and Taiwan) and Hong Kong. A detailed description of the programmes as well as risks linked thereto can be found in Appendix II of this Prospectus.

Risks related to emerging markets investments can be found under "Emerging and Less Developed Markets Securities Risk" in Appendix II of this Prospectus.

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). A Fund with these characteristics may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are more concerned with maximising long term returns than minimising possible short term losses.

## Fund Characteristics

| Redemption Charge                                                      | None                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| PEA / PIR Eligibility                                                  | No                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| Sustainability Criteria                                                | <p>The Investment Manager applies governance and sustainability criteria when selecting investments for the Fund.</p> <p>The Investment Manager performs due diligence on potential holdings, including meetings with management, and assesses the company's governance, environmental and social profile across a range of factors. This process is supported by quantitative analysis provided by Schroders' proprietary sustainability tools, which are key inputs to assess how existing and potential investments for the portfolio are meeting the Fund's sustainability criteria. In some cases, companies which fall below the sustainability criteria may still be eligible for investment if, as a result of proprietary analysis and ongoing engagement with management, the Investment Manager believes the company will meet its sustainability criteria within a realistic time horizon.</p> <p>For a company to be eligible to be held in the Fund, it is expected to show a commitment to its stakeholders, including customers, employees, suppliers, shareholders and regulators. The Fund selects companies whose businesses demonstrate good governance and aim to treat stakeholders equitably.</p> <p>The sources of information used to perform the analysis include information provided by the companies, such as company sustainability reports and other relevant company material, as well as Schroders' proprietary sustainability tools and third-party data and reports.</p> <p>More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website <a href="http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures">www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures</a>.</p> <p>The Investment Manager ensures that at least:</p> <ul style="list-style-type: none"> <li>– 90% of equities issued by large companies domiciled in developed countries; fixed or floating rate securities and money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries; and</li> <li>– 75% of equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies; fixed or floating rate securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging countries,</li> </ul> <p>held in the Fund's portfolio are rated against the sustainability criteria. For the purposes of this test, small companies are those with market capitalisation below €5 billion, medium companies are those between €5 billion and €10 billion and large companies are those above €10 billion.</p> |

<sup>1</sup> Different subscription and redemption procedures may apply if applications are made through Distributors.

## General Share Class Features

| Share Classes             | Initial Charge <sup>2</sup> | Annual Distribution Charge <sup>3</sup> | Annual Management Charge |
|---------------------------|-----------------------------|-----------------------------------------|--------------------------|
| A Shares                  | Up to 5%                    | None                                    | 1.50%                    |

| CX Shares                 | Up to 1%                    | None                                    | 1.00%                    |
| D Shares                  | None                        | 1.00%                                   | 1.50%                    |
| E Shares                  | Up to 1%                    | None                                    | 0.50%                    |
| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 1%                 |
| Z Shares                  | None                        | None                                    | Up to 1%                 |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 5% is equivalent to 5.263 15% of the Net Asset Value per Share; up to 4% is equivalent to 4.16667% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund Global Emerging Markets Smaller Companies

## Investment Objective

The Fund aims to provide capital growth in excess of the MSCI Emerging Markets Small Cap (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity related securities of small-sized companies in global emerging market countries.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of small-sized companies of global emerging market countries, including companies outside these countries which have a substantial business exposure to global emerging markets. Small-sized companies are companies which, at the time of purchase, are considered to be in the bottom 30% by market capitalisation of the global emerging market companies.

The Fund typically holds 60-120 companies.

The Fund may invest directly in China B-Shares and China H-Shares and may invest up to 30% of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A-Shares through Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect and shares listed on the STAR Board and the ChiNext.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.

The Fund maintains a higher overall sustainability score than the MSCI Emerging Markets Small Cap (Net TR) index, based on the Investment Manager's rating criteria. More details on the investment process used to achieve this can be found in the Fund Characteristics section.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

## Benchmark

The Fund's performance should be assessed against its target benchmark being to exceed the MSCI Emerging Markets Small Cap (Net TR) index. The Fund's investment universe is expected to overlap to a limited extent with the components of the target benchmark. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the target benchmark. The Investment Manager will invest in companies or sectors not included in the target benchmark in order to take advantage of specific investment opportunities.

The target benchmark has been selected because it is representative of the type of investments in which the Fund is likely to invest and it is, therefore, an appropriate target in relation to the return that the Fund aims to provide.

The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund

## Further Information

The Fund is categorised as "Specialist Equity Fund".

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Specific Risk Considerations

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect are securities trading and clearing linked programmes developed by The Stock Exchange of Hong Kong Limited, Shanghai/Shenzhen Stock Exchanges, Hong Kong Securities Clearing Company Limited and China Securities Depository and Clearing Corporation Limited, with an aim to achieve mutual stock market access between the PRC (excluding Hong Kong, Macau and Taiwan) and Hong Kong. A detailed description of the programmes as well as risks linked thereto can be found in Appendix II of this Prospectus.

Risks related to emerging markets investments can be found under "Emerging and Less Developed Markets Securities Risk" in Appendix II of this Prospectus.

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). A Fund with these characteristics may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As Investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund's investment objective across all Share Classes after fees have been deducted.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are more concerned with maximising long term returns than minimising possible short term losses.

| Redemption Charge                                                      | None                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| PEA / PIR Eligibility                                                  | No                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |
| Sustainability Criteria                                                | <p>The Investment Manager applies governance and sustainability criteria when selecting investments for the Fund.</p> <p>The Investment Manager performs due diligence on potential holdings, including meetings with management, and assesses the company's governance, environmental and social profile across a range of factors. This process is supported by quantitative analysis provided by Schroders' proprietary sustainability tools, which are key inputs to assess how existing and potential investments for the portfolio are meeting the Fund's sustainability criteria. In some cases, companies which fall below the sustainability criteria may still be eligible for investment if, as a result of proprietary analysis and ongoing engagement with management, the Investment Manager believes the company will meet its sustainability criteria within a realistic time horizon.</p> <p>For a company to be eligible to be held in the Fund, it is expected to show a commitment to its stakeholders, including customers, employees, suppliers, shareholders and regulators. The Fund selects companies whose businesses demonstrate good governance and aim to treat stakeholders equitably.</p> <p>The sources of information used to perform the analysis include information provided by the companies, such as company sustainability reports and other relevant company material, as well as Schroders' proprietary sustainability tools and third-party data and reports.</p> <p>More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website <a href="http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures">www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures</a>.</p> <p>The Investment Manager ensures that at least:</p> <ul style="list-style-type: none"> <li>- 90% of equities issued by large companies domiciled in developed countries; fixed or floating rate securities and money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries; and</li> <li>- 75% of equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies; fixed or floating rate securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging countries,</li> </ul> <p>held in the Fund's portfolio are rated against the sustainability criteria. For the purposes of this test, small companies are those with market capitalisation below €5 billion, medium companies are those between €5 billion and €10 billion and large companies are those above €10 billion.</p> |

<sup>1</sup> Different subscription and redemption procedures may apply if applications are made through Distributors.

## General Share Class Features

| Share Classes             | Initial Charge <sup>2</sup> | Annual Distribution Charge <sup>3</sup> | Annual Management Charge |
|---------------------------|-----------------------------|-----------------------------------------|--------------------------|
| A Shares                  | Up to 5%                    | None                                    | 1.50%                    |

| D Shares                  | None                        | 1.00%                                   | 1.50%                    |
| E Shares                  | Up to 1%                    | None                                    | 0.50%                    |
| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 1%                 |
| Z Shares                  | None                        | None                                    | Up to 1%                 |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 5% is equivalent to 5.263 15% of the Net Asset Value per Share; up to 4% is equivalent to 4.16667% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund Global Energy

## Investment Objective

The Fund aims to provide capital growth in excess of the MSCI World SMID Energy index after fees have been deducted over a three to five year period by investing in equity and equity related securities of companies in the energy sector.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in a concentrated range of equities of small and mid-sized companies in the energy sector. These are companies which, at the time of purchase, are considered to be in the bottom 80% by market capitalisation of the energy sector. The Fund typically holds fewer than 50 companies.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.

## Benchmark

The Fund's performance should be assessed against its target benchmark being to exceed the MSCI World SMID Energy index. The Fund's investment universe is expected to overlap materially with the components of the target benchmark. The Investment Manager invests on a

discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the target benchmark. The Investment Manager will invest in companies or sectors not included in the target benchmark in order to take advantage of specific investment opportunities.

The target benchmark has been selected because it is representative of the type of investments in which the Fund is likely to invest and it is, therefore, an appropriate target in relation to the return that the Fund aims to provide.

## Further Information

The Fund is categorised as "Specialist Equity Fund".

## Risk Considerations

### Specific Risk Considerations

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund's investment objective across all Share Classes after fees have been deducted.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are more concerned with maximising long term returns than minimising possible short term losses.

## Fund Characteristics

|                                                                        |                                               |
|------------------------------------------------------------------------|-----------------------------------------------|
| Fund Currency                                                          | USD                                           |
| Investment Manager                                                     | Schroder Investment Management Limited        |
| Dealing Cut-off Time                                                   | 13.00 Luxembourg time on Dealing Day          |
| Dealing Frequency                                                      | Daily on Dealing Day                          |
| Settlement Period of Subscription and Redemption Proceeds <sup>1</sup> | 3 Business Days from the relevant Dealing Day |
| Performance Fee                                                        | None                                          |
| Redemption Charge                                                      | None                                          |
| PEA / PIR Eligibility                                                  | No                                            |

<sup>1</sup> Different subscription and redemption procedures may apply if applications are made through Distributors.

## General Share Class Features

| Share Classes             | Initial Charge <sup>2</sup> | Annual Distribution Charge <sup>3</sup> | Annual Management Charge |
|---------------------------|-----------------------------|-----------------------------------------|--------------------------|
| A Shares                  | Up to 5%                    | None                                    | 1.50%                    |
| AX Shares                 | Up to 5%                    | None                                    | 1.50%                    |
| A1 Shares                 | Up to 4%                    | 0.50%                                   | 1.50%                    |
| B Shares                  | None                        | 0.60%                                   | 1.50%                    |
| C Shares                  | Up to 1%                    | None                                    | 1.00%                    |
| CN Shares                 | Up to 3%                    | None                                    | 1.00%                    |
| CX Shares                 | Up to 1%                    | None                                    | 1.00%                    |
| D Shares                  | None                        | 1.00%                                   | 1.50%                    |
| E Shares                  | Up to 1%                    | None                                    | 0.50%                    |
| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 1%                 |
| Z Shares                  | None                        | None                                    | Up to 1%                 |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 5% is equivalent to 5.263 15% of the Net Asset Value per Share; up to 4% is equivalent to 4.16667% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund Global Energy Transition

## Investment Objective

The Fund aims to provide capital growth by investing in equity and equity related securities of companies worldwide that the Investment Manager believes are associated with the global transition towards lower-carbon sources of energy and which the Investment Manager deems to be sustainable investments.

## Investment Policy

The Fund is actively managed and invests at least 75% of its assets in sustainable investments, which are investments in companies that generate at least 50% of their revenue from activities that contribute towards the global transition towards lower-carbon sources of energy, such as lower-carbon energy production, distribution, storage, transport and associated supply chain, material provider and technology companies.

The Fund may also invest in other companies provided they play critical roles in the transition and are increasing their exposure to such activities. Please see the Fund Characteristics section for more details.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc) which includes companies that generate any revenue from fossil fuel and nuclear power.

The Fund invests in companies that do not cause significant environmental or social harm and have good governance practices, as determined by the Investment Manager's rating criteria (please see the Fund Characteristics section for more details).

The Fund may invest in companies that the Investment Manager believes will improve their sustainability practices within a reasonable timeframe, typically up to two years.

The Investment Manager may also engage with companies held by the Fund to challenge identified areas of weakness on sustainability issues. More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website [www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures](http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures).

The Fund invests at least two-thirds of its assets in a concentrated range of equity and equity related securities of companies worldwide. The Fund typically holds fewer than 60 companies.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.

## Fund Characteristics

|                    |                                        |
|--------------------|----------------------------------------|
| Fund Currency      | USD                                    |
| Investment Manager | Schroder Investment Management Limited |

## Benchmark

The Fund does not have a target benchmark. The Fund's performance should be compared against the MSCI Global Alternative Energy (Net TR) index and the MSCI AC World (Net TR) index. The comparator benchmarks are only included for performance comparison purposes and do not determine how the Investment Manager invests the Fund's assets. The Fund's investment universe is expected to overlap to a limited extent with the components of the comparator benchmarks. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the comparator benchmarks. The Investment Manager will invest in companies or sectors not included in the comparator benchmarks. The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

Any comparator benchmark has been selected because the Investment Manager believes that the benchmark is a suitable comparison for performance purposes given the Fund's investment objective and policy.

## Further Information

The Fund is categorised as "Specialist Equity Fund".

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Specific Risk Considerations

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The Fund has the objective of sustainable investment (within the meaning of Article 9 SFDR). A Fund with this objective may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As Investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are more concerned with maximising long term returns than minimising possible short term losses.

| Sustainability Criteria                                                | <p>The Investment Manager applies sustainability criteria when selecting investments for the Fund.</p> <p>Companies are assessed against eight ESG criteria: (1) management quality; (2) balance sheet sustainability; (3) corporate governance; (4) regulatory risk management; (5) supply chain management; (6) customer management; (7) employee management; and (8) environmental management. The company will receive an overall score out of ten and is placed within one of the following categories based on this score:</p> <ul style="list-style-type: none"> <li>- 'Lagging' (score of 1 – 3): Companies that show poor corporate governance, unconvincing management, weak balance sheets, poor stakeholder relations, and fail to demonstrate an awareness of ESG issues they face.</li> <li>- 'Neutral' (score of 4 – 6): Companies that show adequate corporate governance, suitable management, reasonably robust balance sheets, have reasonable relationships with stakeholders and some awareness of ESG issues. These companies do not exhibit ESG risks necessarily, but at the same time are not best in class companies with the potential to maintain market leading growth.</li> <li>- 'Best-in-class' (score of 7 – 10): Companies that have strong corporate governance, quality management, strong balance sheets, good relationships with stakeholders and a good awareness and management of ESG issues. These companies should be able to attract the best employees, to continue to lead the industry in terms of productivity, have strong supply chain links, acting as the 'supplier of choice' for customers, and are mindful of their environmental impact.</li> </ul> <p>The Fund will generally only invest in companies that are rated as 'neutral' or 'best-in-class'.</p> <p>The Investment Manager performs its own analysis of information provided by the companies, including information provided in company sustainability reports and other relevant company material. Third party research is used by the team as a secondary consideration, and generally provides a source of challenge or endorsement for their own view.</p> <p>The Investment Manager ensures that at least 90% of companies in the Fund's portfolio are rated against the sustainability criteria.</p> |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 3% is equivalent to 3.092 78% of the Net Asset Value per Share; up to 2% is equivalent to 2.04081% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund Global Equity

## Investment Objective

The Fund aims to provide capital growth in excess of the MSCI All Country (AC) World (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity related securities of companies worldwide.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of companies worldwide.

The Investment Manager seeks to identify companies that it believes will deliver future earnings growth above the level expected by the market typically on a three to five year horizon (we refer to this as 'a positive growth gap').

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.

The Fund maintains a higher overall sustainability score than the MSCI All Country (AC) World (Net TR) index based on the Investment Manager's rating criteria. More details on the investment process used to achieve this can be found in the Fund Characteristics section.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

## Benchmark

The Fund's performance should be assessed against its target benchmark being to exceed the MSCI All Country (AC) World (Net TR) index. The Fund's investment universe is expected to overlap materially with the components of the target benchmark. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the target benchmark. The Investment Manager will invest in companies or sectors not included in the target benchmark in order to take advantage of specific investment opportunities.

## Fund Characteristics

<sup>1</sup> Different subscription and redemption procedures may apply if applications are made through Distributors.

The target benchmark has been selected because it is representative of the type of investments in which the Fund is likely to invest, and it is, therefore, an appropriate target in relation to the return that the Fund aims to provide.

The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

## Further Information

The Fund is categorised as "Mainstream Equity Fund".

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Specific Risk Considerations

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). A Fund with these characteristics may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As Investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund's investment objective across all Share Classes after fees have been deducted.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are seeking long term growth potential offered through investment in equities.

| Redemption Charge       | None                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| PEA / PIR Eligibility   | No                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                           |
| Sustainability Criteria | <p>The Investment Manager applies governance and sustainability criteria when selecting investments for the Fund.</p> <p>The Investment Manager evaluates issuers against a range of environmental, social and governance factors in order to decide whether an issuer is eligible for the Fund's portfolio. This analysis is performed by global sector specialists and local analyst teams and is supported by Schroders' dedicated Sustainable Investment team. The Investment Manager uses Schroders' proprietary sustainability tools to provide a baseline assessment that contributes to the overall ESG appraisal of a company. Additionally, meetings with company management inform the Investment Manager's view, providing further insights on corporate culture and senior management commitment to corporate social responsibility. While it is not necessary for every investment selected to exhibit positive ESG characteristics, the Investment Manager will ensure that in aggregate, the portfolio demonstrates a positive score relative to the benchmark specified in the investment policy.</p> <p>More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website <a href="http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures">www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures</a>.</p> <p>The Investment Manager ensures that at least:</p> <ul style="list-style-type: none"> <li>– 90% of equities issued by large companies domiciled in developed countries; fixed or floating rate securities and money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries; and</li> <li>– 75% of equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies; fixed or floating rate securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging countries,</li> </ul> <p>held in the Fund's portfolio are rated against the sustainability criteria. For the purposes of this test, small companies are those with market capitalisation below €5 billion, medium companies are those between €5 billion and €10 billion and large companies are those above €10 billion.</p> |

## General Share Class Features

| CX Shares                 | Up to 1%                    | None                                    | 0.45%                    |
| D Shares                  | None                        | 1.00%                                   | 1.25%                    |
| E Shares                  | Up to 1%                    | None                                    | 0.375%                   |
| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 0.45%              |
| Z Shares                  | None                        | None                                    | Up to 0.45%              |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 5% is equivalent to 5.263 15% of the Net Asset Value per Share; up to 4% is equivalent to 4.16667% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund Global Equity Alpha

## Investment Objective

The Fund aims to provide capital growth in excess of the MSCI World (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity related securities of companies worldwide.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of companies worldwide.

'Alpha' funds invest in companies in which the Investment Manager has a high conviction that the current share price does not reflect the future prospects for that business.

The Investment Manager seeks to identify companies which it believes will deliver future earnings growth above the level expected by the market typically on a three to five year horizon (we term this as 'a positive growth gap').

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.

## Benchmark

The Fund's performance should be assessed against its target benchmark, being to exceed the MSCI World (Net TR) index. The Fund's investment universe is expected to overlap materially with the components of the target benchmark. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the target benchmark. The Investment

Manager will invest in companies or sectors not included in the target benchmark in order to take advantage of specific investment opportunities.

The target benchmark has been selected because it is representative of the type of investments in which the Fund is likely to invest, and it is, therefore, an appropriate target in relation to the return that the Fund aims to provide.

## Further Information

The Fund is categorised as "Alpha Equity Fund".

The Fund bears in its name the word "Alpha", which means that the Investment Manager adopts an active management strategy, by aggressively positioning the portfolio according to prevailing market conditions. This could be on the basis of particular sectors, themes or styles, or on a selected number of investments which the Investment Manager believes have the potential to provide enhanced returns relative to the market.

## Risk Considerations

### Specific Risk Considerations

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund's investment objective across all Share Classes after fees have been deducted.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are more concerned with maximising long term returns than minimising possible short term losses.

<sup>1</sup> Different subscription and redemption procedures may apply if applications are made through Distributors.

## General Share Class Features

| Share Classes             | Initial Charge <sup>2</sup> | Annual Distribution Charge <sup>3</sup> | Annual Management Charge |
|---------------------------|-----------------------------|-----------------------------------------|--------------------------|
| A Shares                  | Up to 5%                    | None                                    | 1.50%                    |
| AX Shares                 | Up to 5%                    | None                                    | 1.50%                    |
| A1 Shares                 | Up to 4%                    | 0.50%                                   | 1.50%                    |
| B Shares                  | None                        | 0.60%                                   | 1.50%                    |
| C Shares                  | Up to 1%                    | None                                    | 0.65%                    |
| CN Shares                 | Up to 3%                    | None                                    | 0.65%                    |
| CX Shares                 | Up to 1%                    | None                                    | 0.65%                    |
| D Shares                  | None                        | 1.00%                                   | 1.50%                    |
| E Shares                  | Up to 1%                    | None                                    | 0.50%                    |
| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 0.65%              |
| Z Shares                  | None                        | None                                    | Up to 1%                 |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 5% is equivalent to 5.263 15% of the Net Asset Value per Share; up to 4% is equivalent to 4.16667% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund Global Equity Yield

## Investment Objective

The Fund aims to provide income and capital growth in excess of the MSCI World (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity related securities of companies worldwide.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of companies worldwide.

The Fund will invest in a diversified portfolio of equity and equity related securities whose dividend yield in aggregate is greater than the average market yield. Equities with below average dividend yield may be included in the portfolio when the Investment Manager considers that they have the potential to pay above average yield in future.

The Fund will not be managed for yield alone: total return (dividend yield plus capital growth) will be equally important.

The Fund may invest directly in China B-Shares and China H-Shares and may invest up to 10% of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A-Shares through Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect and shares listed on the STAR Board and the ChiNext.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.

## Benchmark

The Fund's performance should be assessed against its target benchmark, being to exceed the MSCI World (Net TR) index and compared against the MSCI World Value (Net TR) index and the Morningstar Global Income Equity Category. The Fund's investment universe is expected to overlap to a limited extent with the components of the target benchmark and the MSCI World Value (Net TR) index. The comparator benchmarks are only included for performance comparison purposes and do not determine how the Investment

Manager invests the Fund's assets. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the target benchmark or the MSCI World Value (Net TR) index. The Investment Manager will invest in companies or sectors not included in the target benchmark or the MSCI World Value (Net TR) index in order to take advantage of specific investment opportunities.

The target benchmark has been selected because it is representative of the type of investments in which the Fund is likely to invest, and it is, therefore, an appropriate target in relation to the return that the Fund aims to provide. Any comparator benchmark has been selected because the Investment Manager believes that the benchmark is a suitable comparison for performance purposes given the Fund's investment objective and policy.

## Further Information

The Fund is categorised as "Specialist Equity Fund".

## Risk Considerations

### Specific Risk Considerations

Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect are securities trading and clearing linked programmes developed by The Stock Exchange of Hong Kong Limited, Shanghai/Shenzhen Stock Exchanges, Hong Kong Securities Clearing Company Limited and China Securities Depository and Clearing Corporation Limited, with an aim to achieve mutual stock market access between the PRC (excluding Hong Kong, Macau and Taiwan) and Hong Kong. A detailed description of the programmes as well as risks linked thereto can be found in Appendix II of this Prospectus.

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund's investment objective across all Share Classes after fees have been deducted.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are more concerned with maximising long term returns than minimising possible short term losses.

## Fund Characteristics

|                                                                        |                                               |

# Schroder International Selection Fund Global Gold

## Investment Objective

The Fund aims to provide capital growth in excess of the FTSE Gold Mines index after fees have been deducted over a three to five year period by investing in equity and equity related securities of companies in the gold industry.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of companies worldwide involved in the gold industry. It will also invest in gold and other precious metals through eligible assets (as described under the definition of "Alternative Asset Classes" in Appendix III of this Prospectus, excluding Alternative Investment Funds) and gold and other precious metals transferable securities.

The Fund may hold up to 40% of its assets in cash and Money Market Investments. The Fund will not be exposed to any physical commodities directly, nor enter into any contracts relating to physical commodities.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds and warrants (subject to the restrictions provided in Appendix I).

The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.

## Benchmark

The Fund's performance should be assessed against its target benchmark being to exceed the FTSE Gold Mines index. The Fund's investment universe is expected to

overlap to a limited extent with the components of the target benchmark. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the target benchmark. The Investment Manager will invest in companies or sectors not included in the target benchmark in order to take advantage of specific investment opportunities.

The target benchmark has been selected because it is representative of the type of investments in which the Fund is likely to invest and it is, therefore, an appropriate target in relation to the return that the Fund aims to provide.

## Further Information

The Fund is categorised as "Specialist Equity Fund".

## Risk Considerations

### Specific Risk Considerations

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund's investment objective across all Share Classes after fees have been deducted.

## Profile of the Typical Investor

# Schroder International Selection Fund Global High Yield

## Investment Objective

The Fund aims to provide income and capital growth in excess of the Bloomberg Global HYxCMBSxEMG index USD Hedged 2% cap after fees have been deducted over a three to five year period by investing in below investment grade fixed and floating rate securities issued worldwide.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in fixed and floating rate securities that have a below investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies). The securities may be denominated in various currencies and issued by governments, government agencies, supra-nationals and companies worldwide.

The Fund may invest up to 10% of its assets in contingent convertible bonds.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives, long and short, with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently. The Fund may use leverage.

The Fund maintains a higher overall sustainability score than the Bloomberg Global HYxCMBSxEMG index USD Hedged 2% cap, based on the Investment Manager's rating criteria. More details on the investment process used to achieve this can be found in the Fund Characteristics section.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

## Benchmark

The Fund's performance should be assessed against its target benchmark being to exceed the Bloomberg Global HYxCMBSxEMG index USD Hedged 2% cap and compared against the Morningstar Global High Yield Category. The Fund's investment universe is expected to overlap materially with the components of the target benchmark. The comparator benchmark is only included for performance comparison purposes and does not determine how the Investment Manager invests the Fund's assets. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the target benchmark. The Investment Manager will invest in companies or sectors not included in the target benchmark in order to take advantage of specific investment opportunities. The Bloomberg Global HYxCMBSxEMG index USD Hedged 2% cap measures the market of non-investment grade, fixed-rate, taxable corporate bonds. The index follows the same rules as the uncapped index but limits the exposure of each issuer to 2% of the total market value and redistributes any excess market value index-wide on a pro-rata basis.

The target benchmark has been selected because it is representative of the type of investments in which the Fund is likely to invest and it is, therefore, an appropriate target in relation to the return that the Fund aims to provide. The comparator benchmark has been selected because the Investment Manager believes that the benchmark is a suitable comparison for performance purposes given the Fund's investment objective and policy.

The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

## Further Information

The Fund is categorised as "Specialist Bond Fund".

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Risk Management Method

Relative Value-at-Risk (VaR)

### VaR Benchmark

Bloomberg Global High Yield ex CMBS ex EMG 2% Cap Index USD hedged. This USD hedged index provides a broad-based measure of the global non-investment grade debt market, caps issuers at 2% and excludes emerging markets as well as CMBS.

### Expected Leverage

100% of the total net assets

The expected level of leverage may be higher when volatility decreases sustainably, when interest rates are expected to change or when credit spreads are expected to widen or tighten.

### This Fund is not a leveraged financial instrument

The Fund utilises financial derivative instruments for investment purposes and the global exposure is monitored under the relative VaR approach in line with UCITS Risk Measurement Rules. Whilst these instruments generate leverage, the Fund itself is not a leveraged financial instrument as further described in the MIFID Directive.. For further details on the relative VaR approach please see Appendix 1. In addition to this regulatory restriction, Schroders implements internal controls on global exposure to constrain and/or highlight global exposure as appropriate.

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund's investment objective across all Share Classes after fees have been deducted.

### Specific Risk Considerations

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). A Fund with these characteristics may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of

certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As Investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are seeking to combine capital growth opportunities with income in the relative stability of the debt markets over the long term.

| Sustainability Criteria                                                | <p>The Investment Manager applies governance and sustainability criteria when selecting investments for the Fund.</p> <p>The strategy aims to identify issuers demonstrating good or improving sustainability credentials, and those that impose a high cost on the environment and society. This involves:</p> <ul style="list-style-type: none"> <li>- The exclusion of issuers that the Investment Manager deems to have businesses that are materially damaging to the climate and impose unjustifiable social costs.</li> <li>- The inclusion of issuers that demonstrate stable and improving sustainability trajectories, and issuers demonstrating good governance based on the Investment Manager's sustainability rating methodology.</li> </ul> <p>The Investment Manager may also engage with companies to encourage transparency, the transition to a circular economy with lower carbon emissions intensity and responsible social behaviour that promotes sustainable growth and alpha generation.</p> <p>The primary sources of information used to perform the analysis are the Investment Manager's proprietary tools and research, third-party research, NGO reports and expert networks. The Investment Manager also performs its own analysis of publicly available information provided by the companies, including information provided in company sustainability reports and other relevant company material.</p> <p>More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website <a href="http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures">www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures</a>.</p> <p>The Investment Manager ensures that at least:</p> <ul style="list-style-type: none"> <li>- 90% of equities issued by large companies domiciled in developed countries; fixed or floating rate securities and money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries; and</li> <li>- 75% of equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies; fixed or floating rate securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging countries,</li> </ul> <p>held in the Fund's portfolio are rated against the sustainability criteria. For the purposes of this test, small companies are those with market capitalisation below €5 billion, medium companies are those between €5 billion and €10 billion and large companies are those above €10 billion.</p> |

| E Shares                  | Up to 1%                    | None                                    | 0.30%                    |
| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 0.60%              |
| Z Shares                  | None                        | None                                    | Up to 0.60%              |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 3% is equivalent to 3.092 78% of the Net Asset Value per Share; up to 2% is equivalent to 2.04081% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund Global Inflation Linked Bond

## Investment Objective

The Fund aims to provide capital growth and income in excess of the ICE BofA Merrill Lynch Global Governments Inflation-Linked EUR Hedged index after fees have been deducted over a three to five year period by investing in inflation-linked fixed income securities.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in inflation-linked fixed income securities with an investment grade or sub-investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies for rated bonds and implied Schroders ratings for non-rated bonds) issued by governments, government agencies, supra-nationals and companies worldwide.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives, long and short, with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.

The Fund maintains a higher overall sustainability score than the ICE BofA Merrill Lynch Global Governments Inflation-Linked EUR Hedged index based on the Investment Manager's rating criteria. More details on the investment process used to achieve this can be found in the Fund Characteristics section.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

## Benchmark

The Fund's performance should be assessed against its target benchmark being to exceed the ICE BofA Merrill Lynch Global Governments Inflation-Linked EUR Hedged index. The Fund's investment universe is expected to overlap to a limited extent with the components of the target benchmark. However, the Fund will likely reflect certain features of the target benchmark namely credit quality and duration, as well as currency exposure. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the target benchmark. The Investment Manager will invest in companies or sectors not included in the target benchmark in order to take advantage of specific investment opportunities.

The target benchmark has been selected because it is representative of the type of investments in which the Fund is likely to invest and it is, therefore, an appropriate target in relation to the return that the Fund aims to provide.

The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

## Further Information

The Fund is categorised as "Mainstream Bond Fund".

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Risk Management Method

Relative Value-at-Risk (VaR)

### VaR Benchmark

ICE BofA Merrill Lynch Global Governments Inflation-Linked EUR Hedged index. This EUR hedged index tracks the performance of investment grade inflation-linked sovereign debt publicly issued and denominated in the issuer's own domestic market and currency.

### Expected Leverage

300% of the total net assets

The expected level of leverage may be higher when volatility decreases sustainably, when interest rates are expected to change or when credit spreads are expected to widen or tighten.

### This Fund is not a leveraged financial instrument

The Fund utilises financial derivative instruments for investment purposes and the global exposure is monitored under the relative VaR approach in line with UCITS Risk Measurement Rules. Whilst these instruments generate leverage, the Fund itself is not a leveraged financial instrument as further described in the MIFID Directive. For further details on the relative VaR approach please see Appendix 1. In addition to this regulatory restriction, Schroders implements internal controls on global exposure to constrain and/or highlight global exposure as appropriate.

### Specific Risk Considerations

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). A Fund with these characteristics may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As Investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund's investment objective across all Share Classes after fees have been deducted.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are seeking to combine capital growth opportunities with income in the relative stability of the debt markets over the long term.

## Fund Characteristics

| Redemption Charge                                                      | None                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                          |
| PEA / PIR Eligibility                                                  | No                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                            |
| Sustainability Criteria                                                | <p>The Investment Manager applies governance and sustainability criteria when selecting investments for the Fund.</p> <p>Sustainability factors are assessed – across both sovereign markets and credit allocation decisions – in tandem with macroeconomic factors throughout the Investment Manager’s top-down thematic investment process.</p> <p>In assessing sustainability factors for sovereign issuers, the Investment Manager considers that countries with stable and non-corrupt governments are likely to be more willing and able to service their debts, while political considerations, including the impact of social and governance factors, can influence a country’s inflation and currency profile and thus have a material impact on the real value of debt. Environmental impacts – which can be more pertinent over a longer-term horizon – are also incorporated. The Investment Manager’s approach includes the use of Schroders’ proprietary sustainability tools to rank countries by measuring their performance against multiple sustainability-related indicators.</p> <p>Credit selection decisions are delegated to the Investment Manager’s specialist credit investment teams, who aim to identify issuers demonstrating good or improving sustainability credentials, and those that impose a high cost on the environment and society. This involves:</p> <ul style="list-style-type: none"> <li>– The exclusion of issuers that the Investment Manager deems to have businesses that are materially damaging to the environment or impose unjustifiable social costs.</li> <li>– The inclusion of issuers that demonstrate stable and improving sustainability trajectories, and issuers demonstrating good governance based on the Investment Manager’s sustainability rating methodology.</li> </ul> <p>The primary sources of information used to perform this analysis are the Investment Manager’s proprietary tools and research, third-party research, NGO reports and expert networks. For corporate issuers, the Investment Manager also performs its own analysis of publicly available information provided by the companies, including information provided in company sustainability reports and other relevant company material.</p> <p>More details on the Investment Manager’s approach to sustainability and its engagement with companies are available on the website <a href="http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures">www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures</a>.</p> <p>The Investment Manager ensures that at least:</p> <ul style="list-style-type: none"> <li>– 90% of equities issued by large companies domiciled in developed countries; fixed or floating rate securities and money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries; and</li> <li>– 75% of equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies; fixed or floating rate securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging countries,</li> </ul> <p>held in the Fund’s portfolio are rated against the sustainability criteria. For the purposes of this test, small companies are those with market capitalisation below €5 billion, medium companies are those between €5 billion and €10 billion and large companies are those above €10 billion.</p> |

| CX Shares                 | Up to 1%                    | None                                    | 0.375%                   |
| D Shares                  | None                        | 1.00%                                   | 0.75%                    |
| E Shares                  | Up to 1%                    | None                                    | 0.25%                    |
| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 0.50%              |
| Z Shares                  | None                        | None                                    | Up to 0.50%              |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 3% is equivalent to 3.09278% of the Net Asset Value per Share; up to 2% is equivalent to 2.04081% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund Global Managed Growth

## Investment Objective

The Fund aims to provide capital growth and income in excess of 60% MSCI AC World (Net TR) index unhedged to USD/ 40% Barclays Global Treasury index (CA, IT, FR, DE, UK, US) hedged to USD before fees have been deducted\* over a five to seven year period by investing in a diversified range of assets and markets worldwide.

\*For the target return after fees for each Share Class please visit the Schroder website <https://www.schroders.com/en/lu/private-investor/investing-with-us/after-fees-performance-targets/>

## Investment Policy

The Fund is actively managed and invests directly or indirectly (through open-ended Investment Funds) in equity and equity-related securities and fixed income securities. The Fund may also invest indirectly in real estate, infrastructure and commodities including precious metals (and will not invest in Alternative Investment Funds and private equity). The exposure to real estate, infrastructure and commodities including precious metals is taken through eligible assets as described in Appendix III of this Prospectus. The Fund will not be exposed to any physical commodities directly, nor enter into any contracts relating to physical commodities.

Fixed income securities include fixed or floating rate securities such as government bonds, corporate bonds, emerging market debt, sub-investment grade (fixed and floating rate) securities (being securities with a credit rating below investment grade as measured by Standard & Poor's or any equivalent grade of other credit rating agencies), convertible bonds and inflation linked bonds.

The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently. The Fund may hold up to 100% of its assets in open-ended investment Funds (including other Schroder funds). The Fund may also invest in Money Market Investments and hold cash.

## Benchmark

The Fund's performance should be assessed against its target benchmark, being to exceed 60% MSCI AC World (Net TR) index unhedged to USD Index / 40% Barclays Global Treasury Index (CA, IT, FR, DE, UK, US) hedged to USD. The Fund's investment universe is expected to overlap to a limited extent with the components of the target benchmark. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the target benchmark. The Investment Manager will invest in companies or sectors not included in the target benchmark in order to take advantage of specific investment opportunities.

The target benchmark has been selected because it is representative of the type of investments in which the Fund is likely to invest and it is, therefore, an appropriate target in relation to the return that the Fund aims to provide.

## Further Information

The Fund is categorised as a "Multi Asset Fund".

## Risk Considerations

### Specific Risk Considerations

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

Risks related to emerging markets investments can be found under "Emerging and Less Developed Markets Securities Risk" in Appendix II of this Prospectus.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are more concerned with maximising long-term returns than minimising possible short term losses.

## Fund Characteristics

|                                                                        |                                               |

| D Shares                  | None                        | 1.00%                                   | 1.00%                    |
| E Shares                  | Up to 1%                    | None                                    | 0.25%                    |
| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 0.50%              |
| Z Shares                  | None                        | None                                    | Up to 0.50%              |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 3% is equivalent to 3.09278% of the Net Asset Value per Share; up to 2% is equivalent to 2.04081% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund Global Multi-Asset Balanced

## Investment Objective

The Fund aims to provide capital growth and income over a three to five year period after fees have been deducted by investing in a diversified range of assets and markets worldwide.

## Investment Policy

The Fund is actively managed and invests directly or indirectly through derivatives in equity and equity-related securities, fixed income securities and Alternative Asset Classes.

Fixed income securities include fixed or floating rate securities such as government bonds, corporate bonds, emerging market debt, sub-investment grade (fixed and floating rate) securities (being securities with a credit rating below investment grade as measured by Standard & Poor's or any equivalent grade of other credit rating agencies), convertible bonds and inflation linked bonds.

The exposure to Alternative Asset Classes is taken through eligible assets as described in Appendix III of this Prospectus.

The Fund intends to use derivatives (including total return swaps), long and short, with the aim of achieving investment gains, reducing risk, mitigating losses in falling markets or managing the Fund more efficiently. Where the Fund uses total return swaps and contracts for difference, the underlying consists of instruments in which the Fund may invest according to its Investment Objective and Investment Policy. In particular, total return swaps and contracts for difference will be used on a continuous basis to gain long and short exposure on equity and equity related securities, fixed and floating rate securities and commodity indices. The gross exposure of total return swaps and contracts for difference will not exceed 30% and is expected to remain within the range of 0% to 20% of the Net Asset Value. In certain circumstances this proportion may be higher.

The Fund may (exceptionally) hold up to 100% of its assets in cash and Money Market Investments. This will be limited to a maximum of six months (otherwise the Fund will be liquidated). During this period, the Fund will not fall within the scope of MMFR. The Fund may invest up to 10% of its assets in open-ended Investment Funds.

The Fund maintains a higher overall sustainability score than a bespoke asset-weighted blend\* of MSCI World Index (hedged to EUR), MSCI Emerging Market Index (hedged to EUR), Barclays Global Aggregate Corporate Bond Index (hedged to EUR), Barclays Global High Yield excl CMBS & EMD 2% Index (hedged to EUR), ICE BofA US Treasury Index (hedged to EUR), JPM GBI Emerging Market Index - EM Local (hedged to EUR), JPM EMBI Index EM Hard Currency (hedged to EUR), Thomson Reuters Global Convertible Bonds Index (hedged to EUR), based on the Investment Manager's rating system. More details on the investment process used to achieve this can be found in the Fund Characteristics section.

\*The blend will evolve over time in line with the actual asset allocation of the Fund.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

## Benchmark

The Fund does not have a target benchmark. The Fund's performance should be compared against the Morningstar EUR Cautious Allocation – Global Category. The comparator benchmark is only included for performance comparison purposes and does not determine how the Investment Manager invests the Fund's assets. The comparator benchmark has been selected because the Investment Manager believes that the benchmark is a suitable comparison for performance purposes given the Fund's investment objective and policy.

The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

## Further Information

The Fund is categorised as "Multi-Asset Fund".

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Specific Risk Considerations

Long and short positions gained through index, bond and equity total return swaps may increase exposure to credit-related risks.

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). A Fund with these characteristics may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As Investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

Risks related to emerging markets investments can be found under "Emerging and Less Developed Markets Securities Risk" in Appendix II of this Prospectus.

As the Fund's performance is calculated by reference to an IBOR it may be necessary, as a result of these industry initiatives, for the Fund to choose a successor or substitute alternative reference rate as the Fund's benchmark. As described further under the heading "IBOR Reform" in Appendix II, even with spreads or other adjustments, IBOR-equivalent alternative reference rates may be only an approximation of the relevant IBOR and may not result in a

rate that is the economic equivalent of the specific IBOR. This may result in the Fund not constituting an economically equivalent investment to that which an investor had anticipated at the time it invested in the Fund. Schroders is in the process of assessing the potential alternatives to IBORs and will notify investors in the Fund of the decision in due course.

## Profile of the Typical Investor

The Fund is a medium risk vehicle that will be suitable for Investors who are seeking long term growth potential through investment in a diversified portfolio offering exposure to a range of asset classes.

## Fund Characteristics

| Sustainability Criteria                                                | <p>The Investment Manager applies governance and sustainability criteria when selecting investments for the Fund. The investable universe is assessed using a number of proprietary tools, as well as external rating services.</p> <p>The Investment Manager will assess companies against a variety of environmental, social and governance metrics, taking into account issues such as climate change, environmental performance, labour standards and board composition. The Investment Manager will decide whether an investment is eligible for inclusion taking into account the overall ESG score. The multi-asset nature of the Fund means that the Investment Manager will analyse the ESG scores across asset classes as an input into the asset allocation of the Fund. The Investment Manager may select investments, which it deems to contribute to one or more environmental or social objectives, provided that they do no significant harm to any other environmental or social objectives.</p> <p>The sources of information used to perform the analysis include information provided by the companies, such as company sustainability reports and other relevant company material, as well as Schroders' proprietary sustainability tools and third-party data.</p> <p>More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website <a href="http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures">www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures</a>.</p> <p>The Investment Manager ensures that at least:</p> <ul style="list-style-type: none"> <li>– 90% of equities issued by large companies domiciled in developed countries; fixed or floating rate securities and money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries; and</li> <li>– 75% of equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies; fixed or floating rate securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging countries,</li> </ul> <p>held in the Fund's portfolio are rated against the sustainability criteria. For the purposes of this test, small companies are those with market capitalisation below €5 billion, medium companies are those between €5 billion and €10 billion and large companies are those above €10 billion.</p> |

## General Share Class Features

| Share Classes             | Initial Charge <sup>2</sup> | Annual Distribution Charge <sup>3</sup> | Annual Management Charge |
|---------------------------|-----------------------------|-----------------------------------------|--------------------------|
| A Shares                  | Up to 4%                    | None                                    | 1.25%                    |
| AX Shares                 | Up to 4%                    | None                                    | 1.25%                    |
| A1 Shares                 | Up to 3%                    | 0.50%                                   | 1.25%                    |
| B Shares                  | None                        | 0.60%                                   | 1.25%                    |
| C Shares                  | Up to 1%                    | None                                    | 0.60%                    |
| CN Shares                 | Up to 3%                    | None                                    | 0.60%                    |
| CX Shares                 | Up to 1%                    | None                                    | 0.60%                    |
| D Shares                  | None                        | 1.00%                                   | 1.25%                    |
| E Shares                  | Up to 1%                    | None                                    | 0.30%                    |
| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 0.60%              |
| Z Shares                  | None                        | None                                    | Up to 0.60%              |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 4% is equivalent to 4.166 67% of the Net Asset Value per Share; up to 3% is equivalent to 3.09278% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund Global Multi-Asset Income

## Investment Objective

The Fund aims to deliver an income of 3-5% per annum and capital growth over a three to five year period after fees have been deducted by investing in a diversified range of assets and markets worldwide.

## Investment Policy

The Fund is actively managed and invests directly or indirectly through derivatives in equity and equity-related securities, fixed income securities and Alternative Asset Classes.

The Fund may invest:

- up to 50% of its assets in below investment grade (fixed and floating rate) securities (being securities with a credit rating below investment grade as measured by Standard & Poor's or any equivalent grade of other credit rating agencies) and unrated securities.
- in excess of 50% of its assets in emerging market debt (fixed and floating rate) securities.
- up to 20% of its assets in asset-backed securities and mortgage-backed securities

The exposure to Alternative Asset Classes is taken through eligible assets as described in Appendix III of this Prospectus.

The Fund intends to use derivatives (including total return swaps), long and short, with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently. Where the Fund uses total return swaps and contracts for difference, the underlying consists of instruments in which the Fund may invest according to its Investment Objective and Investment Policy. In particular, the aim is to use total return swaps and contracts for difference on a temporary basis in market conditions including but not limited to during periods of expanding global economic growth and rising inflation or elevated geopolitical risk, or when credit spreads are expected to widen such during periods of falling economic growth, rising interest rates or elevated geopolitical risk. Contracts for difference and total return swaps are intended to be used to gain long and short exposure on equity and equity related securities, fixed and floating rate securities and commodity indices.

The gross exposure of total return swaps and contracts for difference will not exceed 30% and is expected to remain within the range of 0% to 20% of the Net Asset Value. In certain circumstances this proportion may be higher. The Fund may invest up to 10% of its assets in open-ended Investment Funds. The Fund may invest in Money Market Investments and hold cash.

The Fund maintains a higher overall sustainability score than 30% MSCI AC World Index (USD), 40% Barclays Global Aggregate Corporate Bond Index (USD) and 30% Barclays Global High Yield excl CMBS & EMG 2% index (USD) based on the Investment Manager's rating system. More details on the investment process used to achieve this can be found in the Fund Characteristics section.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

## Benchmark

The Fund's performance should be assessed against the income target of 3-5% per year. The Fund's volatility should be compared against 30% MSCI AC World Index (USD), 40% Barclays Global Aggregate Corporate Bond Index (USD) and 30% Barclays Global High Yield excl CMBS & EMG 2% index (USD). The comparator benchmark is only included for volatility comparison purposes and does not determine how the Investment Manager invests the Fund's assets. The Fund's investment universe is expected to have limited overlap with the components of the comparator benchmark. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the comparator benchmark. The Investment Manager will invest in companies or sectors not included in the comparator benchmark.

The comparator benchmark has been selected because the Investment Manager believes that the benchmark is a suitable comparison for volatility purposes given the Fund's investment objective and policy. The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

## Further Information

The Fund is categorised as "Multi-Asset Fund".

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Specific Risk Considerations

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). A Fund with these characteristics may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As Investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

A detailed description of the risks linked to asset-backed securities and mortgage-backed securities can be found in Appendix II of this Prospectus.

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

Risks related to emerging markets investments can be found under “Emerging and Less Developed Markets Securities Risk” in Appendix II of this Prospectus.

## Profile of the Typical Investor

The Fund will be suitable for Investors who desire a sustainable level of income with some capital growth, offered through investment in a range of asset classes.

## Fund Characteristics

| Sustainability Criteria                                                | <p>The Investment Manager applies governance and sustainability criteria when selecting investments for the Fund. The investable universe is assessed using a number of proprietary tools, as well as external rating services.</p> <p>The Investment Manager will assess companies against a variety of environmental, social and governance metrics, taking into account issues such as climate change, environmental performance, labour standards and board composition. The Investment Manager will decide whether an investment is eligible for inclusion taking into account the overall ESG score. The multi-asset nature of the Fund means that the Investment Manager will analyse the ESG scores across asset classes as an input into the asset allocation of the Fund. The Investment Manager may select investments, which it deems to contribute to one or more environmental or social objectives, provided that they do no significant harm to any other environmental or social objectives.</p> <p>The sources of information used to perform the analysis include information provided by the companies, such as company sustainability reports and other relevant company material, as well as Schroders' proprietary sustainability tools and third-party data.</p> <p>More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website <a href="http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures">www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures</a>.</p> <p>The Investment Manager ensures that at least:</p> <ul style="list-style-type: none"> <li>– 90% of equities issued by large companies domiciled in developed countries; fixed or floating rate securities and money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries; and</li> <li>– 75% of equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies; fixed or floating rate securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging countries,</li> </ul> <p>held in the Fund's portfolio are rated against the sustainability criteria. For the purposes of this test, small companies are those with market capitalisation below €5 billion, medium companies are those between €5 billion and €10 billion and large companies are those above €10 billion.</p> |

## General Share Class Features

| Share Classes             | Initial Charge <sup>2</sup> | Annual Distribution Charge <sup>3</sup> | Annual Management Charge |
|---------------------------|-----------------------------|-----------------------------------------|--------------------------|
| A Shares                  | Up to 5%                    | None                                    | 1.25%                    |
| AX Shares                 | Up to 5%                    | None                                    | 1.25%                    |
| A1 Shares                 | Up to 4%                    | 0.50%                                   | 1.25%                    |
| B Shares                  | None                        | 0.60%                                   | 1.25%                    |
| C Shares                  | Up to 1%                    | None                                    | 0.75%                    |
| CN Shares                 | Up to 3%                    | None                                    | 0.75%                    |
| CX Shares                 | Up to 1%                    | None                                    | 0.75%                    |
| D Shares                  | None                        | 1.00%                                   | 1.25%                    |
| E Shares                  | Up to 1%                    | None                                    | 0.375%                   |
| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 0.75%              |
| Z Shares                  | None                        | None                                    | Up to 0.75%              |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 5% is equivalent to 5.263 15% of the Net Asset Value per Share; up to 4% is equivalent to 4.16667% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund Sustainable Global Multi Credit

## Investment Objective

The Fund aims to provide capital growth in excess of the Bloomberg Multiverse (TR) ex Treasury A+ to B- USD Hedged index after fees have been deducted over a three to five year period by investing in fixed and floating rate securities which meet the Investment Manager's sustainability criteria.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in investment grade and sub-investment grade fixed and floating rate securities (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies) issued by governments, government agencies, supra-nationals and companies worldwide, including emerging market countries.

The Fund maintains a higher overall sustainability score than Bloomberg Multiverse (TR) ex Treasury A+ to B- index, USD Hedged, based on the Investment Manager's rating system. More details on the investment process used to achieve this can be found in the Fund Characteristics section.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

The Fund invests in companies that have good governance practices, as determined by the Investment Manager's rating criteria (please see the Fund Characteristics section for more details).

The Investment Manager may also engage with companies held by the Fund to challenge identified areas of weakness on sustainability issues. More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website [www.schroders.com/en/lu/private-investor/strategiccapabilities/sustainability/disclosures](http://www.schroders.com/en/lu/private-investor/strategiccapabilities/sustainability/disclosures).

The Fund may invest:

- in excess of 50% of its assets in securities that have a below investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies for rated bonds and implied Schroders ratings for non-rated bonds);
- up to 20% of its assets in asset-backed and mortgage-backed securities; and
- up to 30% of its assets in convertible bonds including up to 10% of its assets in contingent convertible bonds (CoCos).

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may also invest in derivatives to create long and short exposure to the underlying assets of these derivatives. The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.

## Benchmark

The Fund's performance should be assessed against its target benchmark being to exceed the Bloomberg Multiverse (TR) ex Treasury A+ to B- index, USD Hedged. The Fund's investment universe is expected to overlap materially with the components of the target benchmark. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the target benchmark. The Investment Manager will invest in companies or sectors not included in the benchmark in order to take advantage of specific investment opportunities.

The index is a customised benchmark which has been selected as it provides a more accurate investment universe against which to compare performance. This is a focussed credit fund so the index excludes Treasuries, which tend to be included in broad market indices. The benchmark includes corporate bonds rated A+ to B- as we also excluded securities rated AAA, AA and CCC and below. The index is hedged, but on an unhedged basis local currencies are excluded. The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

The target benchmark has been selected because it is representative of the type of investments in which the Fund is likely to invest and it is, therefore, an appropriate target in relation to the return that the Fund aims to provide.

## Further Information

The Fund is categorised as "Specialist Bond Fund".

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Risk Management Method

Absolute Value-at-Risk (VaR)

### Expected Leverage

500% of the total net assets

The expected level of leverage may be higher when there is unusually high or low volatility.

### This Fund is not a leveraged financial instrument

The Fund utilises financial derivative instruments for investment purposes and the global exposure is monitored under the absolute VaR approach in line with UCITS Risk Measurement Rules. Whilst these instruments generate leverage, the Fund itself is not a leveraged financial instrument as further described in the MIFID Directive. For further details on the absolute VaR approach please see Appendix 1. In addition to this regulatory restriction, Schroders implements internal controls on global exposure to constrain and/or highlight global exposure as appropriate.

### Specific Risk Considerations

The Fund will make use of credit derivative instruments to seek exposure to global credit markets. This may lead to a higher volatility in the price of the Shares and may imply increased counterparty risk.

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

Risks related to emerging markets investments can be found under “Emerging and Less Developed Markets Securities Risk” in Appendix II of this Prospectus.

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund’s investment objective across all Share Classes after fees have been deducted.

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). A Fund with these characteristics may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As Investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

### Profile of the Typical Investor

The Fund may be suitable for Investors who are seeking to combine capital growth opportunities with income in the relative stability of the debt markets over the long term.

### Fund Characteristics

| Sustainability Criteria                                                | <p>The Investment Manager applies sustainability criteria when selecting investments for the Fund.</p> <p>The strategy applies structural sustainability themes and screens to combine companies that the Investment Manager considers are best-in-class with investments in issuers demonstrating good or improving sustainability credentials. This is achieved by:</p> <ul style="list-style-type: none"><li>– The exclusion of issuers that the Investment Manager deems to have businesses that are environmentally destructive, socially costly, violate human rights and/or have demonstrated gross misconduct.</li><li>– The inclusion of issuers that demonstrate stable and improving sustainability trajectories relative to their industry peers and issuers demonstrating good governance based on the Investment Manager’s sustainability rating methodology. As part of the selection process, the Investment Manager also considers companies’ commitment to sustainable themes such as climate change mitigation, economic inclusion and health and wellbeing.</li></ul> <p>The Investment Manager may also engage with companies to encourage transparency, the transition to a circular economy with lower carbon emissions intensity and responsible social behaviour that promotes sustainable growth and alpha generation.</p> <p>The selection of green, social and sustainable bonds entails assessing the overall sustainability of the issuer, analysing the use of proceeds and the expected impact on the bond’s objectives. A green bond is a fixed or floating rate security that finances an environmental objective. A social bond is a fixed or floating rate security that finances a social objective. A sustainable bond is a fixed or floating rate security that finances both environmental and social objectives.</p> <p>The primary sources of information used to perform the analysis are Schroders’ proprietary sustainability tools and research, and the Investment Manager’s third-party research, NGO reports and expert networks. The Investment Manager also performs its own analysis of information provided by the companies, including information provided in company sustainability reports and other relevant company material.</p> <p>The Investment Manager ensures that at least 90% of companies in the Fund’s portfolio are rated against the sustainability criteria. As a result of the application of sustainability criteria, at least 20% of the Fund’s potential investment universe is excluded from the selection of investments.</p> |

<sup>1</sup> Different subscription and redemption procedures may apply if applications are made through Distributors.

For the purposes of this test, the potential investment universe is the core universe of issuers that the Investment Manager may select for the Fund prior to the application of sustainability criteria, in accordance with the other limitations of the Investment Objective and Policy. This universe is comprised of fixed and floating rate securities issued by companies worldwide. However, the universe (for the purpose of this test only) does not include fixed or floating rate securities issued by public or quasi-public issuers.

## General Share Class Features

| Share Classes             | Initial Charge <sup>2</sup> | Annual Distribution Charge <sup>3</sup> | Annual Management Charge |
|---------------------------|-----------------------------|-----------------------------------------|--------------------------|
| A Shares                  | Up to 3%                    | None                                    | 1.20%                    |
| AX Shares                 | Up to 3%                    | None                                    | 1.20%                    |
| A1 Shares                 | Up to 2%                    | 0.50%                                   | 1.20%                    |
| B Shares                  | None                        | 0.30%                                   | 1.20%                    |
| C Shares                  | Up to 1%                    | None                                    | 0.60%                    |
| CN Shares                 | Up to 3%                    | None                                    | 0.60%                    |
| CX Shares                 | Up to 1%                    | None                                    | 0.60%                    |
| D Shares                  | None                        | 1.00%                                   | 1.20%                    |
| E Shares                  | Up to 1%                    | None                                    | 0.30%                    |
| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 0.60%              |
| Z Shares                  | None                        | None                                    | Up to 0.60%              |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate. Initial charge of up to 3% is equivalent to 3.09278% of the Net Asset Value per Share; up to 2% is equivalent to 2.04081% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund Global Recovery

## Investment Objective

The Fund aims to provide capital growth in excess of the MSCI World (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity related securities of companies worldwide that have suffered a severe set back in either share price or profitability.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in equities of companies worldwide.

The Fund may invest directly in China B-Shares and China H-Shares and may invest up to 10% of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A-Shares through Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect and shares listed on the STAR Board and the ChiNext.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.

## Benchmark

The Fund's performance should be assessed against its target benchmark, being to exceed the MSCI World (TR) index and compared against the MSCI World Value (Net TR) index and the Morningstar Global Flex-Cap Equity Category. The Fund's investment universe is expected to overlap to a limited extent with the components of the target benchmark and the MSCI World Value (Net TR) index. The comparator benchmarks are only included for performance comparison purposes and do not determine how the Investment Manager invests the Fund's assets. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the target benchmark or the MSCI World Value (Net TR) index. The Investment Manager will invest in companies or sectors not included in the target benchmark or the MSCI World Value (Net TR) index in order to take advantage of specific investment opportunities.

## Fund Characteristics

|                                                                        |                                               |
|------------------------------------------------------------------------|-----------------------------------------------|
| Fund Currency                                                          | USD                                           |
| Investment Manager                                                     | Schroder Investment Management Limited        |
| Dealing Cut-off Time                                                   | 13.00 Luxembourg time on Dealing Day          |
| Dealing Frequency                                                      | Daily on Dealing Day                          |
| Settlement Period of Subscription and Redemption Proceeds <sup>1</sup> | 3 Business Days from the relevant Dealing Day |

The target benchmark has been selected because it is representative of the type of investments in which the Fund is likely to invest, and it is, therefore, an appropriate target in relation to the return that the Fund aims to provide. Any comparator benchmark has been selected because the Investment Manager believes that the benchmark is a suitable comparison for performance purposes given the Fund's investment objective and policy.

## Further Information

The Fund is categorised as "Specialist Equity Fund".

## Risk Considerations

### Specific Risk Considerations

The portfolio will exhibit a strongly contrarian investment style and look to take maximum advantage of behavioural biases in global investment markets, and will likely exhibit higher investment volatility than global equity market indices. However, a recovery style is believed to exhibit a lower than average investment risk due to the supportive valuations of the stocks in the portfolio.

Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect are securities trading and clearing linked programmes developed by The Stock Exchange of Hong Kong Limited, Shanghai/Shenzhen Stock Exchanges, Hong Kong Securities Clearing Company Limited and China Securities Depository and Clearing Corporation Limited, with an aim to achieve mutual stock market access between the PRC (excluding Hong Kong, Macau and Taiwan) and Hong Kong. A detailed description of the programmes as well as risks linked thereto can be found in Appendix II of this Prospectus.

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund's investment objective across all Share Classes after fees have been deducted.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are more concerned with maximising long term returns than minimising possible short term losses.

<sup>1</sup> Different subscription and redemption procedures may apply if applications are made through Distributors.

|                       |      |
|-----------------------|------|
| Performance Fee       | None |
| Redemption Charge     | None |
| PEA / PIR Eligibility | No   |

## General Share Class Features

| Share Classes             | Initial Charge <sup>2</sup> | Annual Distribution Charge <sup>3</sup> | Annual Management Charge |

| C Shares                  | Up to 1%                    | None                                    | 0.65%                    |
| CN Shares                 | Up to 3%                    | None                                    | 0.65%                    |
| CX Shares                 | Up to 1%                    | None                                    | 0.65%                    |
| D Shares                  | None                        | 1.00%                                   | 1.50%                    |
| E Shares                  | Up to 1%                    | None                                    | 0.375%                   |
| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 0.75%              |
| Z Shares                  | None                        | None                                    | Up to 0.75%              |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 5% is equivalent to 5.263 15% of the Net Asset Value per Share; up to 4% is equivalent to 4.16667% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund Global Smaller Companies

## Investment Objective

The Fund aims to provide capital growth in excess of the S&P Developed Small Cap (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity related securities of small-sized companies worldwide.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of small-sized companies worldwide. Small-sized companies are companies which, at the time of purchase, are considered to be in the bottom 30% by market capitalisation of global equity markets.

The Fund may also invest directly in China B-Shares and China H-Shares and may invest less than 30% of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A-Shares through Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect and shares listed on the STAR Board and the ChiNext.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.

The Fund maintains a higher overall sustainability score than the S&P Developed Small Cap (Net TR) index, based on the Investment Manager's rating criteria. More details on the investment process used to achieve this can be found in the Fund Characteristics section.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

## Benchmark

The Fund's performance should be assessed against its target benchmark being to exceed the S&P Developed Small Cap (Net TR) index. The Fund's investment universe is expected to overlap materially with the components of the target benchmark. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the target benchmark. The Investment Manager will invest in companies or sectors not included in the target benchmark in order to take advantage of specific investment opportunities.

The target benchmark has been selected because it is representative of the type of investments in which the Fund is likely to invest and it is, therefore, an appropriate target in relation to the return that the Fund aims to provide.

The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

## Further Information

The Fund is categorised as "Specialist Equity Fund".

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Specific Risk Considerations

Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect are securities trading and clearing linked programmes developed by The Stock Exchange of Hong Kong Limited, Shanghai/Shenzhen Stock Exchanges, Hong Kong Securities Clearing Company Limited and China Securities Depository and Clearing Corporation Limited, with an aim to achieve mutual stock market access between the PRC (excluding Hong Kong, Macau and Taiwan) and Hong Kong. A detailed description of the programmes as well as risks linked thereto can be found in Appendix II of this Prospectus.

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). A Fund with these characteristics may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As Investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund's investment objective across all Share Classes after fees have been deducted.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are more concerned with maximising long term returns than minimising possible short term losses.

| Sustainability Criteria                                                | <p>The Investment Manager applies governance and sustainability criteria when selecting investments for the Fund.</p> <p>Companies in the investment universe are assessed on their governance, environmental and social profile. The Investment Manager performs due diligence on potential holdings and this can include meetings with company management. The Investment Manager aims to identify the impact a business has on society whilst assessing relationships with key stakeholders such as employees, suppliers and regulators. This research is supported by quantitative analysis gained from Schroders' proprietary sustainability tools which are key inputs to assessing how existing and potential investments are meeting the Fund's sustainability criteria.</p> <p>The sources of information used to perform the analysis include information provided by the companies, such as company sustainability reports and other relevant company material, as well as Schroders' proprietary sustainability tools and third-party data.</p> <p>More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website <a href="http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures">www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures</a>.</p> <p>The Investment Manager ensures that at least:</p> <ul style="list-style-type: none"> <li>- 90% of equities issued by large companies domiciled in developed countries; fixed or floating rate securities and money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries; and</li> <li>- 75% of equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies; fixed or floating rate securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging countries,</li> </ul> <p>held in the Fund's portfolio are rated against the sustainability criteria. For the purposes of this test, small companies are those with market capitalisation below €5 billion, medium companies are those between €5 billion and €10 billion and large companies are those above €10 billion.</p> |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

<sup>1</sup> Different subscription and redemption procedures may apply if applications are made through Distributors.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate. Initial charge of up to 5% is equivalent to 5.263 15% of the Net Asset Value per Share; up to 4% is equivalent to 4.16667% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

# Schroder International Selection Fund Global Sustainable Convertible Bond

## Investment Objective

The Fund aims to provide capital growth by investing in convertible securities issued by companies worldwide which meet the Investment Manager's sustainability criteria.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in a diversified range of convertible securities issued by companies worldwide. The Fund may also invest in equity and equity related securities of companies worldwide.

Convertible bonds are typically corporate bonds that can be converted into equities at a given price. As such, the Investment Manager believes investors can gain exposure to global equity markets with the defensive benefits and less volatile characteristics of a bond investment.

The Fund may invest in excess of 50% of its assets in securities that have a below investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies for rated bonds and implied Schroders ratings for nonrated bonds).

The Fund maintains a higher overall sustainability score than Thomson Reuters Global, based on the Investment Manager's rating system. More details on the investment process used to achieve this can be found in the Fund Characteristics section.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

The Fund invests in companies that have good governance practices, as determined by the Investment Manager's rating criteria (please see the Fund Characteristics section for more details).

The Investment Manager may also engage with companies held by the Fund to challenge identified areas of weakness on sustainability issues. More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website [www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures](http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures).

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.

## Benchmark

The Fund does not have a target benchmark. The Fund's performance should be compared against the 2/3 Thomson Reuters Global Focus Hedged Convertible Bond index (EUR) + 1/3 Thomson Reuters Global Focus Investment Hedged Grade index (EUR). The comparator benchmark is only included for performance comparison purposes and does not determine how the Investment Manager invests the Fund's assets. The Fund's investment universe is expected to overlap materially with the components of the comparator benchmark. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the comparator benchmark. The Investment Manager will invest in companies or sectors not included in the comparator benchmark. The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

The comparator benchmark has been selected because the Investment Manager believes that the benchmark is a suitable comparison for performance purposes given the Fund's investment objective and policy.

## Further Information

The Fund is categorised as a "Specialist Bond Fund".

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Specific Risk Considerations

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). A Fund with these characteristics may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As Investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are seeking to combine capital growth opportunities with income in the relative stability of the debt markets over the long term.

| Sustainability Criteria                                                | <p>The Investment Manager applies sustainability criteria when selecting investments for the Fund.</p> <p>The Investment Manager applies a best in class approach – a company is given a rating based on a variety of ESG criteria using a proprietary tool.</p> <p>The lowest scoring 20% of companies are excluded.</p> <p>Fund holdings will mainly be allocated to companies with ESG scores within the 60% to 100% quintiles, unless there are compelling reasons to include companies which fall outside these quintiles. The sustainability characteristics of a company can also impact the sizing of positions in the Fund.</p> <p>The measures above aim to ensure that the Fund's portfolio has an overall ESG score of more than 50% at any time.</p> <p>The sources of information used to perform the analysis include information provided by the companies, such as company sustainability reports and other relevant company material, as well as Schroders' proprietary sustainability tools and third-party data.</p> <p>The Investment Manager ensures that at least 90% of companies in the Fund's portfolio are rated against the sustainability criteria. As a result of the application of sustainability criteria, at least 20% of the Fund's potential investment universe is excluded from the selection of investments.</p> <p>For the purposes of this test, the potential investment universe is the core universe of issuers that the Investment Manager may select for the Fund prior to the application of sustainability criteria, in accordance with the other limitations of the Investment Objective and Policy. This universe is comprised of convertible securities issued by companies worldwide. However, the universe (for the purpose of this test only) shall not include debt issued by public or quasi-public issuers.</p> |

## General Share Class Features

| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 0.60%              |
| Z Shares                  | None                        | None                                    | Up to 0.60%              |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

<sup>1</sup> Different subscription and redemption procedures may apply if applications are made through Distributors.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 3% is equivalent to 3.092 78% of the Net Asset Value per Share; up to 2% is equivalent to 2.04081% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

# Schroder International Selection Fund Global Sustainable Food and Water

## Investment Objective

The Fund aims to provide capital growth by investing in equity and equity related securities of companies worldwide which help the transition towards the sustainable provision of food and water and which the Investment Manager deems to be sustainable investments.

## Investment Policy

The Fund is actively managed and invests at least 75% of its assets in sustainable investments, which are investments that the Investment Manager expects to contribute towards the provision of sustainable food and water including water management, agricultural equipment, agricultural inputs, food production, processing, packaging and distribution, food and water retail and recycling (please see the Fund Characteristics section for more details).

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

The Fund invests in companies that do not cause significant environmental or social harm and have good governance practices, as determined by the Investment Manager's rating criteria (please see the Fund Characteristics section for more details).

The Investment Manager may also engage with companies held by the Fund to challenge identified areas of weakness on sustainability issues. More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website [www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures](http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures).

The Fund invests at least two-thirds of its assets in equity and equity related securities of companies worldwide.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.

## Benchmark

The Fund does not have a target benchmark. The Fund's performance should be compared against the MSCI AC World (Net TR) index. The comparator benchmark is only

included for performance comparison purposes and does not determine how the Investment Manager invests the Fund's assets. The Fund's investment universe is expected to overlap materially with the components of the comparator benchmark. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the comparator benchmark. The Investment Manager will invest in companies or sectors not included in the comparator benchmark. The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

The comparator benchmark has been selected because the Investment Manager believes that the benchmark is a suitable comparison for performance purposes given the Fund's investment objective and policy.

## Further Information

The Fund is categorised as a "Specialist Equity Fund".

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Specific Risk Considerations

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The Fund has the objective of sustainable investment (within the meaning of Article 9 SFDR). A Fund with this objective may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As Investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are more concerned with maximising long-term returns than minimising possible short term losses.

| PEA / PIR Eligibility                                                  | No                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                   |
| Sustainability Criteria                                                | <p>The Investment Manager applies sustainability criteria when selecting investments for the Fund. Each company in the universe of potential investments is assessed by the Investment Manager against eight categories: (1) management quality; (2) balance sheet sustainability; (3) corporate governance; (4) regulatory risk management; (5) supply chain management; (6) customer management; (7) employee management; and (8) environmental management. The company will receive an overall score out of ten based on the Investment Manager's assessment. Each company is then placed within one of the following categories based on this score:</p> <ul style="list-style-type: none"> <li>- 'Lagging' (score of 1 – 3): Companies that show poor corporate governance, poor management quality, weak balance sheet sustainability, poor stakeholder relations, and fail to demonstrate an awareness of ESG issues they face.</li> <li>- 'Neutral' (score of 4 – 6): Companies that show adequate corporate governance, reasonable management quality, reasonably strong balance sheet sustainability, have reasonable relationships with stakeholders and some awareness of ESG issues. These companies do not exhibit a high level of sustainability risk based on the Investment Manager's assessments, but at the same time are not best in class companies with the potential to maintain market leading growth.</li> <li>- 'Best-in-class' (score of 7 – 10): Companies that have strong corporate governance, quality management, strong balance sheet sustainability, good relationships with stakeholders and a good awareness and management of sustainability issues. These companies should be able to attract talent, lead the industry in terms of productivity, have strong supply chain links, acting as the 'supplier of choice' for customers, and be mindful of their environmental impact.</li> </ul> <p>The Fund will generally only invest in companies that are rated as 'neutral' or better.</p> <p>The Investment Manager performs its own analysis of information provided by the companies, including information provided in company sustainability reports and other relevant company material. Third party research is used by the Investment Manager as a secondary consideration, and generally provides a source of challenge or endorsement for its view.</p> <p>The Investment Manager ensures that at least 90% of companies in the Fund's portfolio are rated against the sustainability criteria. As a result of the application of sustainability criteria, at least 20% of the Fund's potential investment universe is excluded from the selection of investments.</p> <p>For the purposes of this test, the potential investment universe is the core universe of issuers that the Investment Manager may select for the Fund prior to the application of sustainability criteria, in accordance with the other limitations of the Investment Objective and Policy. This universe is comprised of equity and equity related securities of companies worldwide.</p> |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 5% is equivalent to 5.263 15% of the Net Asset Value per Share; up to 4% is equivalent to 4.16667% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund Global Sustainable Growth

## Investment Objective

### Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of companies worldwide.

The Fund typically holds fewer than 50 companies.

The Fund maintains a higher overall sustainability score than MSCI AC World (Net TR) index, based on the Investment Manager's rating system. More details on the investment process used to achieve this can be found in the Fund Characteristics section.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc). The Fund invests in companies that have good governance practices, as determined by the Investment Manager's rating criteria (please see the Fund Characteristics section for more details).

The Investment Manager may also engage with companies held by the Fund to challenge identified areas of weakness on sustainability issues. More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website [www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures](http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures).

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.

### Benchmark

The Fund does not have a target benchmark. The Fund's performance should be compared against the MSCI AC World (Net TR) index. The comparator benchmark is only included for performance comparison purposes and does not determine how the Investment Manager invests the Fund's assets. The Fund's investment universe is expected to overlap materially with the components of the

comparator benchmark. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the comparator benchmark. The Investment Manager will invest in companies or sectors not included in the comparator benchmark. The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

The comparator benchmark has been selected because the Investment Manager believes that the benchmark is a suitable comparison for performance purposes given the Fund's investment objective and policy.

### Further Information

The Fund is categorised as "Specialist Equity Fund".

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

### Risk Considerations

#### Specific Risk Considerations

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). A Fund with these characteristics may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As Investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

### Profile of the Typical Investor

The Fund may be suitable for Investors who are more concerned with maximising long term returns than minimising possible short term losses.

## Fund Characteristics

| PEA / PIR Eligibility   | No                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                               |
| Sustainability Criteria | <p>The Investment Manager applies sustainability criteria when selecting investments for the Fund.</p> <p>Companies are assessed and rated against a set of questions covering issues such as respect for the environment; fair and equitable treatment of employees, suppliers and customers; corporate citizenship; capital allocation and governance.</p> <p>The Investment Manager will decide on a case by case basis whether a company is eligible for inclusion in the investible universe, taking into account these ratings. While all companies are assessed against all questions, the Investment Manager's decision will focus on those areas that are most relevant to the particular business of that company. In these areas, the company should generally be appraised as at least "strong" in order to be accepted into the investible universe. The eligibility of each company in the Fund's portfolio is then reviewed at least annually.</p> <p>The primary sources of information used to perform the analysis are Schroders' proprietary sustainability tools, third-party research, unconventional data sourced by our Data Insights Unit, NGO reports and expert networks. The Investment Manager also scrutinises company sustainability reports and other disclosures, which may be complemented by direct engagement with the company during the assessment process.</p> <p>The Investment Manager ensures that at least 90% of companies in the Fund's portfolio are rated against the sustainability criteria. As a result of the application of sustainability criteria, at least 20% of the Fund's potential investment universe is excluded from the selection of investments.</p> <p>For the purposes of this test, the potential investment universe is the core universe of issuers that the Investment Manager may select for the Fund prior to the application of sustainability criteria, in accordance with the other limitations of the Investment Objective and Policy. This universe is comprised of equity and equity related securities of companies worldwide.</p> |

## General Share Class Features

| Share Classes             | Initial Charge <sup>2</sup> | Annual Distribution Charge <sup>3</sup> | Annual Management Charge |
|---------------------------|-----------------------------|-----------------------------------------|--------------------------|
| A Shares                  | Up to 5%                    | None                                    | 1.30%                    |
| AX Shares                 | Up to 5%                    | None                                    | 1.30%                    |
| A1 Shares                 | Up to 4%                    | 0.50%                                   | 1.30%                    |
| B Shares                  | None                        | 0.60%                                   | 1.30%                    |
| C Shares                  | Up to 1%                    | None                                    | 0.65%                    |
| CN Shares                 | Up to 3%                    | None                                    | 0.65%                    |
| CX Shares                 | Up to 1%                    | None                                    | 0.65%                    |
| D Shares                  | None                        | 1.00%                                   | 1.30%                    |
| E Shares                  | Up to 1%                    | None                                    | 0.50%                    |
| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 0.65%              |
| Z Shares                  | None                        | None                                    | Up to 0.65%              |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 5% is equivalent to 5.263 15% of the Net Asset Value per Share; up to 4% is equivalent to 4.16667% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund Global Sustainable Value

## Investment Objective

The Fund aims to provide capital growth in excess of the MSCI World (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity related securities of companies worldwide which meet the Investment Manager's sustainability criteria.

## Investment Policy

The Fund is actively managed and invests at least two thirds of its assets in equity and equity related securities of companies worldwide.

The Fund applies a disciplined value investment approach, seeking to invest in a select portfolio of companies that the Investment Manager believes are significantly undervalued relative to their long-term earnings potential.

The Fund maintains a higher overall sustainability score than MSCI World (Net TR) index, based on the Investment Manager's rating system. More details on the investment process used to achieve this can be found in the Fund Characteristics section.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

The Fund invests in companies that have good governance practices, as determined by the Investment Manager's rating criteria (please see the Fund Characteristics section for more details).

The Fund may invest in companies that the Investment Manager believes will improve their sustainability practices within a reasonable timeframe, typically up to three years.

The Investment Manager may also engage with companies held by the Fund to challenge identified areas of weakness on sustainability issues. More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website [www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures](http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures).

The Fund may invest directly in China B-Shares and China H-Shares and may invest up to 10% of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A-Shares through Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect and shares listed on the STAR Board and the ChiNext.

The Fund may also invest up to one third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to restrictions provided in Appendix I).

The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.

## Benchmark

The Fund's performance should be assessed against its target benchmark, being to exceed the MSCI World (Net TR) index and compared against the MSCI World Value (Net TR) index. The Fund's investment universe is expected to

overlap to a limited extent with the components of the target and comparator benchmarks. The comparator benchmark is only included for performance comparison purposes and does not determine how the Investment Manager invests the Fund's assets. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the target or comparator benchmarks. The Investment Manager will invest in companies or sectors not included in the target or comparator benchmarks in order to take advantage of specific investment opportunities.

The target benchmark has been selected because it is representative of the type of investments in which the Fund is likely to invest, and it is, therefore, an appropriate target in relation to the return that the Fund aims to provide. The comparator benchmark has been selected because the Investment Manager believes that the benchmark is a suitable comparison for performance purposes given the Fund's investment objective and policy.

The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

## Further Information

The Fund is categorised as "Specialist Equity Fund".

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Specific Risk Considerations

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund's investment objective across all Share Classes after fees have been deducted.

Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect are securities trading and clearing linked programmes developed by The Stock Exchange of Hong Kong Limited, Shanghai/Shenzhen Stock Exchanges, Hong Kong Securities Clearing Company Limited and China Securities Depository and Clearing Corporation Limited, with an aim to achieve mutual stock market access between the PRC (excluding Hong Kong, Macau and Taiwan) and Hong Kong. A detailed description of the programmes as well as risks linked thereto can be found in Appendix II of this Prospectus.

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). A Fund with these characteristics may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As Investors may differ in their views of what constitutes sustainable

investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are more concerned with maximising long term returns than minimising possible short term losses.

## Fund Characteristics

|                                                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                     |

| Sustainability Criteria                                                | <p>The Investment Manager applies sustainability criteria when selecting investments for the Fund.</p> <p>Companies are assessed on a variety of ESG factors including how they treat their stakeholders, governance, and environmental impact. Issuers are analysed in three ways – through research conducted by the Investment Manager, via third party sustainability research and using proprietary sustainability tools. Issuers are not assigned an overall score, but should generally be deemed to have satisfied the Investment Manager’s requirements across different assessments in order to be eligible for the Fund’s portfolio. The criteria required by the Investment Manager include both quantitative standards (such as minimum ratings) and strong performance in a qualitative assessment of the sustainability of the issuer’s business. The weighting of environmental, social and governance factors may be varied to take into account those most relevant for the issuer’s particular industry.</p> <p>The sources of information used to perform this analysis includes information disclosed by companies as well as Schroders’ proprietary sustainability tools and third-party research. The Investment Manager will also typically engage with issuers directly to obtain information and to encourage improvements in sustainability performance.</p> <p>The Investment Manager ensures that at least 90% of companies in the Fund’s portfolio are rated against the sustainability criteria. As a result of the application of sustainability criteria, at least 20% of the Fund’s potential investment universe is excluded from the selection of investments.</p> <p>For the purposes of this test, the potential investment universe is the core universe of issuers that the Investment Manager may select for the Fund prior to the application of sustainability criteria, in accordance with the other limitations of the Investment Objective and Policy. This universe is comprised of equity and equity related securities of companies worldwide.</p> |

<sup>1</sup> Different subscription and redemption procedures may apply if applications are made through Distributors.

## General Share Class Features

| Share Classes             | Initial Charge <sup>2</sup> | Annual Distribution Charge <sup>3</sup> | Annual Management Charge |
|---------------------------|-----------------------------|-----------------------------------------|--------------------------|
| A Shares                  | Up to 5%                    | None                                    | 1.50%                    |
| AX Shares                 | Up to 5%                    | None                                    | 1.50%                    |
| A1 Shares                 | Up to 4%                    | 0.50%                                   | 1.50%                    |
| B Shares                  | None                        | 0.60%                                   | 1.50%                    |
| C Shares                  | Up to 1%                    | None                                    | 0.75%                    |
| CN Shares                 | Up to 3%                    | None                                    | 0.75%                    |
| CX Shares                 | Up to 1%                    | None                                    | 0.75%                    |
| D Shares                  | None                        | 1.00%                                   | 1.50%                    |
| E Shares                  | Up to 1%                    | None                                    | 0.375%                   |
| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 0.75%              |
| Z Shares                  | None                        | None                                    | Up to 0.75%              |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate. Initial charge of up to 5% is equivalent to 5.263 15% of the Net Asset Value per Share; up to 4% is equivalent to 4.16667% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund Global Target Return

## Investment Objective

The Fund aims to provide capital growth and income of ICE BofA 3 Month US Treasury Bill Index +5% per annum before fees have been deducted\*over rolling three year periods by investing in a broad range of asset classes worldwide. There is no guarantee that the objective will be attained and your capital is at risk.

\*For the target return after fees for each Share Class please visit the Schroder website: <https://www.schroders.com/en/lu/private-investor/investing-with-us/after-fees-performance-targets/>

## Investment Policy

The Fund is actively managed and invests directly or indirectly (through open-ended Investment Funds and derivatives) in equities and equity related securities, fixed and floating rate securities (issued by governments, government agencies, supra-nationals and companies), mortgage-backed and asset-backed securities, convertible bonds, currencies and Alternative Asset Classes (as defined in Appendix III of this Prospectus) such as real estate, infrastructure and commodity related transferable securities.

The Fund may hold up to 40% of its assets in open-ended Investment Funds. However as the Fund grows the Investment Manager expects the Fund to hold less than 10% in open-ended Investment Funds.

The Fund may invest in securities that have a below investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies).

The Fund intends to use derivatives (including total return swaps) with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently. Where the Fund uses total return swaps and contracts for difference, the underlying consists of instruments in which the Fund may invest according to its Investment Objective and Investment Policy. In particular, the aim is to use total return swaps and contracts for difference on a temporary basis in market conditions including but not limited to during periods of expanding global economic growth and rising inflation or elevated geopolitical risk, or when credit spreads are expected to widen such during periods of falling economic growth, rising interest rates or elevated geopolitical risk. Contracts for difference and total return swaps are intended to be used to gain long and short exposure on equity and equity related securities, fixed and floating rate securities and commodity indices. The gross exposure of total return swaps and contracts for difference will not exceed 40% and is expected to remain within the range of 0% to 20% of the Net Asset Value. In certain circumstances this proportion may be higher. The Fund may also invest in Money Market Investments and hold cash.

The Fund maintains a higher overall sustainability score than a bespoke asset-weighted blend\* of the MSCI World Index (hedged to USD), MSCI Emerging Market Index (unhedged), Barclays Global Aggregate Corporate Bond Index (hedged to USD), Barclays Global High Yield excl. CMBS & EMD 2% Index (hedged to USD), ICE BofA US Treasury Index (hedged to USD), JPM GBI Emerging Market Index - EM Local (unhedged) and JPM EMBI Index EM Hard

Currency (hedged to USD), based on the Investment Manager's rating system. More details on the investment process used to achieve this can be found in the Fund Characteristics section.

\*The blend will evolve over time in line with the actual asset allocation of the Fund.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

## Benchmark

The Fund's performance should be assessed against its target benchmark, being to achieve a return of ICE BofA 3 Month US Treasury Bill Index + 5% before fees have been deducted. The Investment Manager invests on a discretionary basis and is not limited to investing in accordance with the composition of the benchmark.

The target benchmark has been selected because the target return of the Fund is to deliver or exceed the return of that benchmark as stated in the investment objective.

The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

## Risk Considerations

### Specific Risk Considerations

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). A Fund with these characteristics may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As Investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

Risks related to emerging markets investments can be found under "Emerging and Less Developed Markets Securities Risk" in Appendix II of this Prospectus.

## Further Information

The Fund is categorised as "Multi-Asset Fund". The Fund may invest more than 10% of its assets in Investment Funds.

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Profile of the Typical Investor

The Fund is a medium risk vehicle that will be suitable for Investors who are seeking long term growth potential through investment in a diversified portfolio offering exposure to a range of asset classes.

| Sustainability Criteria                                                | <p>The Investment Manager applies governance and sustainability criteria when selecting investments for the Fund. The investable universe is assessed using a number of proprietary tools, as well as external rating services.</p> <p>The Investment Manager will assess companies against a variety of environmental, social and governance metrics, taking into account issues such as climate change, environmental performance, labour standards and board composition. The Investment Manager will decide whether an investment is eligible for inclusion taking into account the overall ESG score. The multi-asset nature of the Fund means that the Investment Manager will analyse the ESG scores across asset classes as an input into the asset allocation of the Fund. The Investment Manager may select investments, which it deems to contribute to one or more environmental or social objectives, provided that they do no significant harm to any other environmental or social objectives.</p> <p>The sources of information used to perform the analysis include information provided by the companies, such as company sustainability reports and other relevant company material, as well as Schroders' proprietary sustainability tools and third-party data.</p> <p>More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website <a href="http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures">www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures</a>.</p> <p>The Investment Manager ensures that at least:</p> <ul style="list-style-type: none"> <li>– 90% of equities issued by large companies domiciled in developed countries; fixed or floating rate securities and money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries; and</li> <li>– 75% of equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies; fixed or floating rate securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging countries,</li> </ul> <p>held in the Fund's portfolio are rated against the sustainability criteria. For the purposes of this test, small companies are those with market capitalisation below €5 billion, medium companies are those between €5 billion and €10 billion and large companies are those above €10 billion.</p> |

<sup>1</sup> Different subscription and redemption procedures may apply if applications are made through Distributors.

## General Share Class Features

| Share Classes             | Initial Charge <sup>2</sup> | Annual Distribution Charge <sup>3</sup> | Annual Management Charge |
|---------------------------|-----------------------------|-----------------------------------------|--------------------------|
| A Shares                  | Up to 4%                    | None                                    | 1.25%                    |
| AX Shares                 | Up to 4%                    | None                                    | 1.25%                    |
| A1 Shares                 | Up to 3%                    | 0.50%                                   | 1.25%                    |
| B Shares                  | None                        | 0.60%                                   | 1.25%                    |
| C Shares                  | Up to 1%                    | None                                    | 0.625%                   |
| CN Shares                 | Up to 3%                    | None                                    | 0.625%                   |
| CX Shares                 | Up to 1%                    | None                                    | 0.625%                   |
| D Shares                  | None                        | 1.00%                                   | 1.25%                    |
| E Shares                  | Up to 1%                    | None                                    | 0.3125%                  |
| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 0.625%             |
| Z Shares                  | None                        | None                                    | Up to 0.625%             |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 4% is equivalent to 4.166 67% of the Net Asset Value per Share; up to 3% is equivalent to 3.09278% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund Greater China

## Investment Objective

The Fund aims to provide capital growth in excess of the MSCI Golden Dragon (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity related securities of People's Republic of China, Hong Kong SAR and Taiwan companies.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of companies in People's Republic of China, Hong Kong SAR and Taiwan.

The Fund may invest directly in China B-Shares and China H-Shares and may invest less than 50% of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A-Shares through:

- Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect;
- the Renminbi Qualified Institutional Investor (RQFII) Scheme;
- shares listed on the STAR Board and the ChiNext; and
- Regulated Markets.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.

## Benchmark

The Fund's performance should be assessed against its target benchmark being to exceed the MSCI Golden Dragon (Net TR) index and compared against the Morningstar Greater China Equity Category. The Fund's investment universe is expected to overlap to a limited extent with the components of the target benchmark. The comparator benchmark is only included for performance comparison purposes and does not determine how the Investment Manager invests the Fund's assets. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the target benchmark. The

Investment Manager will invest in companies or sectors not included in the target benchmark in order to take advantage of specific investment opportunities.

The target benchmark has been selected because it is representative of the type of investments in which the Fund is likely to invest and it is, therefore, an appropriate target in relation to the return that the Fund aims to provide. The comparator benchmark has been selected because the Investment Manager believes that the benchmark is a suitable comparison for performance purposes given the Fund's investment objective and policy.

## Further Information

The Fund is categorised as "Specialist Equity Fund".

## Risk Considerations

### Specific Risk Considerations

Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect are securities trading and clearing linked programmes developed by The Stock Exchange of Hong Kong Limited, Shanghai/Shenzhen Stock Exchanges, Hong Kong Securities Clearing Company Limited and China Securities Depository and Clearing Corporation Limited, with an aim to achieve mutual stock market access between the PRC (excluding Hong Kong, Macau and Taiwan) and Hong Kong. A detailed description of the programmes as well as risks linked thereto can be found in Appendix II of this Prospectus.

The Fund may invest in mainland China through RQFII schemes or Regulated Markets. Investors should note that the RQFII status may be suspended or revoked and that this may adversely affect the Fund's performance by requiring the Fund to dispose of its securities holdings. Please refer to Appendix II for more information of the risks regarding RQFII status and RQFII quota.

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund's investment objective across all Share Classes after fees have been deducted.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are more concerned with maximising long term returns than minimising possible short term losses.

## Fund Characteristics

|                                                                        |                                                    |

| CX Shares                 | Up to 1%                    | None                                    | 1.00%                    |
| D Shares                  | None                        | 1.00%                                   | 1.50%                    |
| E Shares                  | Up to 1%                    | None                                    | 0.50%                    |
| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 1%                 |
| Z Shares                  | None                        | None                                    | Up to 1%                 |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 5% is equivalent to 5.263 15% of the Net Asset Value per Share; up to 4% is equivalent to 4.16667% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund Healthcare Innovation

## Investment Objective

The Fund aims to provide capital growth by investing in equity and equity related securities of healthcare and medical related companies worldwide which the Investment Manager deems to be sustainable investments.

### **As of 1<sup>st</sup> January 2023 the Investment Objective section will change to:**

The Fund aims to provide capital growth by investing in equity and equity related securities of healthcare and medical related companies worldwide which meet the Investment Manager's sustainability criteria.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of companies worldwide, which are engaged in healthcare provision, medical services and related products.

The Fund invests at least 75% of its assets in sustainable investments, which are investments in companies that contribute towards the advancement of one or more of the UN SDGs by promoting growth in healthcare provision and medical treatments and improving healthcare standards using an innovation-led approach (please see the Fund Characteristics section for more details).

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

The Fund invests in companies that do not cause significant environmental or social harm and have good governance practices, as determined by the Investment Manager's rating criteria (please see the Fund Characteristics section for more details).

The Fund may invest in companies that the Investment Manager believes will improve their sustainability practices within a reasonable timeframe, typically up to two years.

The Investment Manager may also engage with companies held by the Fund to challenge identified areas of weakness on sustainability issues. More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website [www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures](http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures).

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.

## Benchmark

The Fund does not have a target benchmark. The Fund's performance should be compared against its comparator benchmark, being the MSCI AC World (Net TR) index. The comparator benchmark is only included for performance comparison purposes and does not determine how the

Investment Manager invests the Fund's assets. The Fund's investment universe is expected to overlap materially with the components of the comparator benchmark. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the comparator benchmark. The Investment Manager will invest in companies or sectors not included in the comparator benchmark. The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

The comparator benchmark has been selected because the Investment Manager believes that the benchmark is a suitable comparison for performance purposes given the Fund's investment objective and policy.

## Further Information

The Fund is categorised as "Specialist Equity Fund".

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Specific Risk Considerations

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The Fund has the objective of sustainable investment (within the meaning of Article 9 SFDR). A Fund with this objective may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As Investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

### **As of 1<sup>st</sup> January 2023 the above risk consideration will change to:**

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). A Fund with these characteristics may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As Investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are more concerned with maximising long term returns than minimising possible short term losses.

## Fund Characteristics

| Sustainability Criteria                                                | <p>The Investment Manager applies sustainability criteria when selecting investments for the Fund.</p> <p>The Investment Manager selects companies that are engaged in healthcare provision, medical services and related products, including in areas such as biotechnology, generics drug manufacture and supply, pharmaceuticals, health insurance and hospital supplies. Investment ideas are identified using proprietary fundamental stock analysis and top down assessment of the thematic drivers affecting healthcare demand and provision. The Investment Manager's analysis seeks to identify companies that are well placed to develop products or services that address both the rising demand for healthcare and the need to ensure that healthcare systems are more efficiently managed to ease rising cost pressures.</p> <p>The Investment Manager also uses a proprietary tool to assess the ESG performance of companies before they are selected for the Fund's portfolio. Individual names with poor ESG performance may be included in the portfolio if the Investment Manager believes that a company is on track to improve its ESG performance.</p> <p>Other sources of information are also used for this analysis including information provided by the companies, such as company sustainability reports and other relevant company material, as well as Schroders' other proprietary tools and third-party data.</p> <p>The Investment Manager ensures that at least 90% of companies in the Fund's portfolio are rated against the sustainability criteria. As a result of the application of sustainability criteria, at least 20% of the Fund's potential investment universe is excluded from the selection of investments.</p> <p>For the purposes of this test, the potential investment universe is the core universe of issuers that the Investment Manager may select for the Fund prior to the application of sustainability criteria, in accordance with the other limitations of the Investment Objective and Policy. This universe is comprised of equity and equity related securities of companies worldwide.</p> |

| Z Shares                  | None                        | None                                    | Up to 0.75%              |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate. Initial charge of up to 3% is equivalent to 3.092 78% of the Net Asset Value per Share; up to 2% is equivalent to 2.04081% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund Hong Kong Dollar Bond

## Investment Objective

The Fund aims to provide capital growth and income over a three to five year period by investing in fixed and floating rate securities denominated in HKD.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in fixed and floating rate securities denominated in HKD issued by governments, government agencies, supra-nationals and companies worldwide and derivatives related to the above instruments.

The Fund may invest in securities with an investment grade or sub-investment grade credit rating and aims to achieve an average credit quality equivalent to investment grade (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies for rated bonds and implied Schroders ratings for non-rated bonds).

The Fund may invest in mainland China through the Renminbi Qualified Foreign Institutional Investor ("RQFII") scheme or Regulated Markets (including the CIBM via Bond Connect or CIBM Direct).

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives, long and short, with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.

## Benchmark

The Fund does not have a target benchmark. The Fund's performance should be assessed against its objective of providing income and growth over a three to five year period by investing in fixed and floating rate securities denominated in HKD.

## Further Information

The Fund is categorised as "Mainstream Bond Fund".

## Risk Considerations

### Specific Risk Considerations

The Fund may invest in mainland China through RQFII schemes or Regulated Markets (including the CIBM via Bond Connect or CIBM Direct). Investors should note that the RQFII status may be suspended or revoked and that this may adversely affect the Fund's performance by requiring the Fund to dispose of its securities holdings. Please refer to Appendix II for more information of the risks regarding RQFII status, RQFII quota, the CIBM and Bond Connect.

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund's investment objective across all Share Classes after fees have been deducted.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are seeking to combine capital growth opportunities with income in the relative stability of the debt markets over the long term.

## Fund Characteristics

|                                                                        |                                                    |
|------------------------------------------------------------------------|----------------------------------------------------|
| Fund Currency                                                          | HKD                                                |

<sup>1</sup> Different subscription and redemption procedures may apply if applications are made through Distributors.

## General Share Class Features

| Share Classes             | Initial Charge <sup>2</sup> | Annual Distribution Charge <sup>3</sup> | Annual Management Charge |
|---------------------------|-----------------------------|-----------------------------------------|--------------------------|
| A Shares                  | Up to 3%                    | None                                    | 0.75%                    |
| AX Shares                 | Up to 3%                    | None                                    | 0.75%                    |
| A1 Shares                 | Up to 2%                    | 0.50%                                   | 0.75%                    |
| B Shares                  | None                        | 0.50%                                   | 0.75%                    |
| C Shares                  | Up to 1%                    | None                                    | 0.50%                    |
| CN Shares                 | Up to 3%                    | None                                    | 0.50%                    |
| CX Shares                 | Up to 1%                    | None                                    | 0.50%                    |
| D Shares                  | None                        | 1.00%                                   | 0.75%                    |
| E Shares                  | Up to 1%                    | None                                    | 0.25%                    |
| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 0.50%              |
| Z Shares                  | None                        | None                                    | Up to 0.50%              |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate. Initial charge of up to 3% is equivalent to 3.092 78% of the Net Asset Value per Share; up to 2% is equivalent to 2.04081% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund Hong Kong Equity

## Investment Objective

The Fund aims to provide capital growth in excess of the FTSE Hong Kong (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity related securities of companies listed on the Hong Kong Stock Exchange.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of companies listed on the Hong Kong Stock Exchange.

The Fund may invest directly in China B-Shares and China H-Shares and may invest less than 30% of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A-Shares through Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect and shares listed on the STAR Board and the ChiNext.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.

## Benchmark

The Fund's performance should be assessed against its target benchmark being to exceed the FTSE Hong Kong (Net TR) index and compared against the Morningstar Hong Kong Equity Category. The Fund's investment universe is expected to overlap to a limited extent with the components of the target benchmark. The comparator benchmark is only included for performance comparison purposes and does not determine how the Investment Manager invests the Fund's assets. The Investment Manager invests on a discretionary basis and is not limited to investing in accordance with the composition of the target benchmark. The Investment Manager will invest in companies or sectors not included in the target benchmark in order to take advantage of specific investment opportunities.

## Fund Characteristics

|                                                                        |                                                    |
|------------------------------------------------------------------------|----------------------------------------------------|
| Fund Currency                                                          | HKD                                                |
| Investment Manager                                                     | Schroder Investment Management (Hong Kong) Limited |
| Dealing Cut-off Time                                                   | 13.00 Luxembourg time on Dealing Day               |
| Dealing Frequency                                                      | Daily on Dealing Day                               |
| Settlement Period of Subscription and Redemption Proceeds <sup>1</sup> | 3 Business Days from the relevant Dealing Day      |
| Performance Fee                                                        | None                                               |
| Redemption Charge                                                      | None                                               |
| PEA / PIR Eligibility                                                  | No                                                 |

The target benchmark has been selected because it is representative of the type of investments in which the Fund is likely to invest and it is, therefore, an appropriate target in relation to the return that the Fund aims to provide. The comparator benchmark has been selected because the Investment Manager believes that the benchmark is a suitable comparison for performance purposes given the Fund's investment objective and policy.

## Further Information

The Fund is categorised as "Specialist Equity Fund".

## Risk Considerations

### Specific Risk Considerations

Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect are securities trading and clearing linked programmes developed by The Stock Exchange of Hong Kong Limited, Shanghai/Shenzhen Stock Exchanges, Hong Kong Securities Clearing Company Limited and China Securities Depository and Clearing Corporation Limited, with an aim to achieve mutual stock market access between the PRC (excluding Hong Kong, Macau and Taiwan) and Hong Kong. A detailed description of the programmes as well as risks linked thereto can be found in Appendix II of this Prospectus.

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund's investment objective across all Share Classes after fees have been deducted.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are more concerned with maximising long term returns than minimising possible short term losses.

<sup>1</sup> Different subscription and redemption procedures may apply if applications are made through Distributors.

## General Share Class Features

| Share Classes             | Initial Charge <sup>2</sup> | Annual Distribution Charge <sup>3</sup> | Annual Management Charge |
|---------------------------|-----------------------------|-----------------------------------------|--------------------------|
| A Shares                  | Up to 5%                    | None                                    | 1.50%                    |
| AX Shares                 | Up to 5%                    | None                                    | 1.50%                    |
| A1 Shares                 | Up to 4%                    | 0.50%                                   | 1.50%                    |
| B Shares                  | None                        | 0.60%                                   | 1.50%                    |
| C Shares                  | Up to 1%                    | None                                    | 1.00%                    |
| CN Shares                 | Up to 3%                    | None                                    | 1.00%                    |
| CX Shares                 | Up to 1%                    | None                                    | 1.00%                    |
| D Shares                  | None                        | 1.00%                                   | 1.50%                    |
| E Shares                  | Up to 1%                    | None                                    | 0.50%                    |
| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 1%                 |
| Z Shares                  | None                        | None                                    | Up to 1%                 |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 5% is equivalent to 5.263 15% of the Net Asset Value per Share; up to 4% is equivalent to 4.16667% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund Indian Equity

## Investment Objective

The Fund aims to provide capital growth in excess of the MSCI India (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity related securities of Indian companies.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of Indian companies.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.

### **As of 1<sup>st</sup> January 2023 the following will become part of the Investment Policy section:**

The Fund maintains a higher overall sustainability score than the MSCI India (Net TR) index, based on the Investment Manager's rating criteria. More details on the investment process used to achieve this can be found in the Fund Characteristics section.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

## Benchmark

The Fund's performance should be assessed against its target benchmark being to exceed the MSCI India (Net TR) index and compared against the Morningstar India Equity Category. The Fund's investment universe is expected to overlap to a limited extent with the components of the target benchmark. The comparator benchmark is only included for performance comparison purposes and does not determine how the Investment Manager invests the Fund's assets. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the target benchmark. The Investment Manager will invest in companies or sectors not included in the target benchmark in order to take advantage of specific investment opportunities.

The target benchmark has been selected because it is representative of the type of investments in which the Fund is likely to invest and it is, therefore, an appropriate target in

relation to the return that the Fund aims to provide. The comparator benchmark has been selected because the Investment Manager believes that the benchmark is a suitable comparison for performance purposes given the Fund's investment objective and policy.

### **As of 1<sup>st</sup> January 2023 the following will become part of the Benchmark section:**

The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

## Further Information

The Fund is categorised as "Specialist Equity Fund".

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Specific Risk Considerations

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund's investment objective across all Share Classes after fees have been deducted.

### **As of 1<sup>st</sup> January 2023 the following risk consideration will apply:**

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). A Fund with these characteristics may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are more concerned with maximising long term returns than minimising possible short term losses.

## Fund Characteristics

|                      |                                                |

| PEA / PIR Eligibility                                                  | No                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| Sustainability Criteria                                                | <p>As of 1<sup>st</sup> January 2023 the following section will apply:</p> <p>The Investment Manager applies governance and sustainability criteria when selecting investments for the Fund.</p> <p>In the selection and assessment of potential investment opportunities and holdings, companies are assessed on a proprietary stakeholder-based approach against criteria including, but not limited to (1) good governance practices; (2) impact on the environment and local communities; and (3) fair and equitable treatment of employees, suppliers and customers. Information and insights derived from Schroders' proprietary sustainability tools are utilised in this assessment and due diligence process.</p> <p>The Investment Manager's proprietary analysis and ongoing engagement with these companies may also help it derive a reasonable level of conviction that concrete steps will be or are being taken to transition out of business segments or practices that have not met the sustainability criteria or improve on their relevant areas of weakness. The Investment Manager may consider these companies eligible for investment ahead of seeing changes in the company's ratings and rankings across both internal and external evaluation metrics.</p> <p>The primary sources of information used to perform the analysis include the Investment Manager's proprietary tools and research, third-party research, NGO reports and expert networks. The Investment Manager also performs its own analysis of publicly available information provided by the companies, including information provided in company sustainability reports and other relevant company material.</p> <p>More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website <a href="http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures">www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures</a>.</p> <p>The Investment Manager ensures that at least:</p> <ul style="list-style-type: none"> <li>— 90% of equities issued by large companies domiciled in developed countries; fixed or floating rate securities and money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries; and</li> <li>— 75% of equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies; fixed or floating rate securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging countries, held in the Fund's portfolio are rated against the sustainability criteria.</li> </ul> <p>For the purposes of this test, small companies are those with market capitalisation below €5 billion, medium companies are those between €5 billion and €10 billion and large companies are those above €10 billion.</p> |

<sup>1</sup> Different subscription and redemption procedures may apply if applications are made through Distributors.

## General Share Class Features

| Share Classes             | Initial Charge <sup>2</sup> | Annual Distribution Charge <sup>3</sup> | Annual Management Charge |
|---------------------------|-----------------------------|-----------------------------------------|--------------------------|
| A Shares                  | Up to 5%                    | None                                    | 1.50%                    |
| AX Shares                 | Up to 5%                    | None                                    | 1.50%                    |
| A1 Shares                 | Up to 4%                    | 0.50%                                   | 1.50%                    |
| B Shares                  | None                        | 0.60%                                   | 1.50%                    |
| C Shares                  | Up to 1%                    | None                                    | 1.00%                    |
| CN Shares                 | Up to 3%                    | None                                    | 1.00%                    |
| CX Shares                 | Up to 1%                    | None                                    | 1.00%                    |
| D Shares                  | None                        | 1.00%                                   | 1.50%                    |
| E Shares                  | Up to 1%                    | None                                    | 0.50%                    |
| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 1%                 |
| Z Shares                  | None                        | None                                    | Up to 1%                 |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 5% is equivalent to 5.263 15% of the Net Asset Value per Share; up to 4% is equivalent to 4.16667% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund Indian Opportunities

## Investment Objective

The Fund aims to provide capital growth in excess of MSCI India (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity related securities of Indian companies.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of Indian companies or companies which have their principal business activities in India.

Typically the Fund holds between 30-70 companies.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.

**As of 1<sup>st</sup> January 2023 the following will become part of the Investment Policy section:**

The Fund maintains a higher overall sustainability score than the MSCI India (Net TR) index, based on the Investment Manager's rating criteria. More details on the investment process used to achieve this can be found in the Fund Characteristics section.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

## Benchmark

The Fund's performance should be assessed against its target benchmark being to exceed the MSCI India (Net TR) index and compared against the Morningstar India Equity Category. The Fund's investment universe is expected to overlap to a limited extent with the components of the target benchmark. The comparator benchmark is only included for performance comparison purposes and does not determine how the Investment Manager invests the Fund's assets. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the target benchmark. The Investment Manager will invest in companies or sectors not included in the target benchmark in order to take advantage of specific investment opportunities.

The target benchmark has been selected because it is representative of the type of investments in which the Fund is likely to invest and it is, therefore, an appropriate target in

relation to the return that the Fund aims to provide. The comparator benchmark has been selected because the Investment Manager believes that the benchmark is a suitable comparison for performance purposes given the Fund's investment objective and policy.

**As of 1<sup>st</sup> January 2023 the following will become part of the Benchmark section:**

The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

## Further Information

The Fund is categorised as "Specialist Equity Fund".

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Specific Risk Considerations

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund's investment objective across all Share Classes after fees have been deducted.

**As of 1<sup>st</sup> January 2023 the following risk consideration will apply:**

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). A Fund with these characteristics may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are more concerned with maximising long term returns than minimising possible short term losses.

| PEA / PIR Eligibility                                                  | No                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |
| Sustainability Criteria                                                | <p>As of 1<sup>st</sup> January 2023 the following section will apply:</p> <p>The Investment Manager applies governance and sustainability criteria when selecting investments for the Fund.</p> <p>In the selection and assessment of potential investment opportunities and holdings, companies are assessed on a proprietary stakeholder-based approach against criteria including, but not limited to (1) good governance practices; (2) impact on the environment and local communities; and (3) fair and equitable treatment of employees, suppliers and customers. Information and insights derived from Schroders' proprietary sustainability tools are utilised in this assessment and due diligence process.</p> <p>The Investment Manager's proprietary analysis and ongoing engagement with these companies may also help it derive a reasonable level of conviction that concrete steps will be or are being taken to transition out of business segments or practices that have not met the sustainability criteria or improve on their relevant areas of weakness. The Investment Manager may consider these companies eligible for investment ahead of seeing changes in the company's ratings and rankings across both internal and external evaluation metrics.</p> <p>The primary sources of information used to perform the analysis include the Investment Manager's proprietary tools and research, third-party research, NGO reports and expert networks. The Investment Manager also performs its own analysis of publicly available information provided by the companies, including information provided in company sustainability reports and other relevant company material.</p> <p>More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website <a href="http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures">www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures</a>.</p> <p>The Investment Manager ensures that at least:</p> <ul style="list-style-type: none"> <li>— 90% of equities issued by large companies domiciled in developed countries; fixed or floating rate securities and money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries; and</li> <li>— 75% of equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies; fixed or floating rate securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging countries, held in the Fund's portfolio are rated against the sustainability criteria.</li> </ul> <p>For the purposes of this test, small companies are those with market capitalisation below €5 billion, medium companies are those between €5 billion and €10 billion and large companies are those above €10 billion.</p> |

## General Share Class Features

| Share Classes             | Initial Charge <sup>2</sup> | Annual Distribution Charge <sup>3</sup> | Annual Management Charge |
|---------------------------|-----------------------------|-----------------------------------------|--------------------------|
| A Shares                  | Up to 5%                    | None                                    | 1.50%                    |
| AX Shares                 | Up to 5%                    | None                                    | 1.50%                    |
| A1 Shares                 | Up to 4%                    | 0.50%                                   | 1.50%                    |
| B Shares                  | None                        | 0.60%                                   | 1.50%                    |
| C Shares                  | Up to 1%                    | None                                    | 0.75%                    |
| CN Shares                 | Up to 3%                    | None                                    | 0.75%                    |
| CX Shares                 | Up to 1%                    | None                                    | 0.75%                    |
| D Shares                  | None                        | 1.00%                                   | 1.50%                    |
| E Shares                  | Up to 1%                    | None                                    | 0.375%                   |
| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 0.75%              |
| Z Shares                  | None                        | None                                    | Up to 0.75%              |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 5% is equivalent to 5.263 15% of the Net Asset Value per Share; up to 4% is equivalent to 4.16667% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund Inflation Plus

## Investment Objective

The Fund aims to provide capital growth above inflation (as measured by the Eurozone Harmonized Consumer Price Index) after fees have been deducted over rolling three to five year periods by investing in a broad range of asset classes worldwide. There is no guarantee that the objective will be attained and your capital is at risk.

## Investment Policy

The Fund is actively managed and may invest worldwide in commodities, equity and equity related securities of companies, fixed and floating rate securities and other Alternative Asset Classes in any currency, either directly or indirectly through open-ended Investment Funds and Exchange Traded Funds.

The exposure to commodities and other Alternative Asset Classes will be taken through eligible assets as described under the definition of "Alternative Asset Classes" in Appendix III of this Prospectus.

The Fund may invest in excess of 50% of its assets in fixed and floating rate securities that have a below investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies).

The Fund may exceptionally invest up to 100% of its assets in cash and Money Market Investments. This will be limited to a maximum of six months (otherwise the Fund will be liquidated). During this period, the Fund will not fall within the scope of MMFR.

The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.

## Benchmark

The Fund's performance should be assessed against its target benchmark, being to exceed the Eurozone Harmonized Consumer Price Index. The Investment Manager invests on a discretionary basis and is not limited to investing in accordance with the composition of a benchmark.

The target benchmark has been selected because the target return of the Fund is to deliver or exceed the return of that benchmark as stated in the investment objective.

## Further Information

The Fund is categorised as "Multi-Asset Fund". The Fund may invest more than 10% of its assets in Investment Funds. \* The Fund may invest in another fund that charges a performance fee.

**\* As of 1<sup>st</sup> March 2023 the ability of the Fund to invest more than 10% of its assets in Investment Funds will be removed and a limit of 10% of its assets to be invested in Investment Funds will be applied in accordance with investment restriction 1. A(3) in Appendix I. The reference to the Fund's investment in Investment Funds will be removed from the present section.**

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund's investment objective across all Share Classes after fees have been deducted.

## Profile of the Typical Investor

The Fund will be suitable for investors who seek real value (a positive rate of return after inflation) offered through investment in a range of asset classes.

## Fund Characteristics

|                                                                        |                                               |
|------------------------------------------------------------------------|-----------------------------------------------|
| Fund Currency                                                          | EUR                                           |

<sup>1</sup> Different subscription and redemption procedures may apply if applications are made through Distributors.

## General Share Class Features

| Share Classes             | Initial Charge <sup>2</sup> | Annual Distribution Charge <sup>3</sup> | Annual Management Charge |
|---------------------------|-----------------------------|-----------------------------------------|--------------------------|
| A Shares                  | Up to 4%                    | None                                    | 1.50%                    |
| AX Shares                 | Up to 4%                    | None                                    | 1.50%                    |
| A1 Shares                 | Up to 3%                    | 0.50%                                   | 1.50%                    |
| B Shares                  | None                        | 0.50%                                   | 1.50%                    |
| C Shares                  | Up to 1%                    | None                                    | 0.75%                    |
| CN Shares                 | Up to 3%                    | None                                    | 0.75%                    |
| CX Shares                 | Up to 1%                    | None                                    | 0.75%                    |
| D Shares                  | None                        | 1.00%                                   | 1.50%                    |
| E Shares                  | Up to 1%                    | None                                    | 0.375%                   |
| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 0.75%              |
| Z Shares                  | None                        | None                                    | Up to 0.75%              |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 4% is equivalent to 4.166 67% of the Net Asset Value per Share; up to 3% is equivalent to 3.09278% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund Italian Equity

## Investment Objective

The Fund aims to provide capital growth in excess of the FTSE Italia All-Share (TR) index after fees have been deducted over a three to five year period by investing in equity and equity related securities of Italian companies.

## Investment Policy

The Fund is actively managed and invests at least 70% of its assets in a concentrated range (typically fewer than 50 companies) of equity and equity related securities of Italian companies. The Fund invests at least 25% of these assets (which corresponds to 17.5% of the Fund's assets) in equity and equity related securities of Italian companies that are not included in FTSE MIB index or other equivalent indices and at least 5% of these assets (which corresponds to 3.5% of the Fund's assets) in equity and equity related securities of Italian companies that are not included in the FTSE MIB and FTSE MID CAP indexes or other equivalent indices.

The Fund may invest up to 10% of its assets in securities issued by, or entered into with, the same company or companies belonging to the same group.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.

The Fund maintains a higher overall sustainability score than the FTSE Italia All-Share (TR) index, based on the Investment Manager's rating criteria. More details on the investment process used to achieve this can be found in the Fund Characteristics section.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

## Benchmark

The Fund's performance should be assessed against its target benchmark being to exceed the FTSE Italia All-Share (TR) index and compared against the Morningstar Italy Equity Category. The Fund's investment universe is expected to overlap materially with the components of the target benchmark. The comparator benchmark is only included for performance comparison purposes and does not determine how the Investment Manager invests the Fund's assets. The Investment Manager invests on a discretionary basis and is not limited to investing in accordance with the composition of the target benchmark. The Investment Manager will

invest in companies or sectors not included in the target benchmark in order to take advantage of specific investment opportunities.

The target benchmark has been selected because it is representative of the type of investments in which the Fund is likely to invest and it is, therefore, an appropriate target in relation to the return that the Fund aims to provide. The comparator benchmark has been selected because the Investment Manager believes that the benchmark is a suitable comparison for performance purposes given the Fund's investment objective and policy.

The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

## Further Information

The Fund is categorised as "Mainstream Equity Fund".

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Specific Risk Considerations

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). A Fund with these characteristics may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As Investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

The reference in the Investment Policy to a fund investing 70% of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund's investment objective across all Share Classes after fees have been deducted.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are seeking long term growth potential offered through investment in equities.

| Sustainability Criteria                                                | <p>The Investment Manager applies governance and sustainability criteria when selecting investments for the Fund.</p> <p>Companies in the investment universe are assessed on their governance, environmental and social profile. The Investment Manager performs due diligence on potential holdings and this can include meetings with company management. The Investment Manager aims to identify the impact a business has on society whilst assessing relationships with key stakeholders such as employees, suppliers and regulators. This research is supported by quantitative analysis gained from Schroders' proprietary sustainability tools which are key inputs to assessing how existing and potential investments are meeting the Fund's sustainability criteria.</p> <p>The sources of information used to perform the analysis include information provided by the companies, such as company sustainability reports and other relevant company material, as well as Schroders' proprietary sustainability tools and third-party data.</p> <p>More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website <a href="http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures">www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures</a>.</p> <p>The Investment Manager ensures that at least:</p> <ul style="list-style-type: none"> <li>– 90% of equities issued by large companies domiciled in developed countries; fixed or floating rate securities and money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries; and</li> <li>– 75% of equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies; fixed or floating rate securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging countries,</li> </ul> <p>held in the Fund's portfolio are rated against the sustainability criteria. For the purposes of this test, small companies are those with market capitalisation below €5 billion, medium companies are those between €5 billion and €10 billion and large companies are those above €10 billion.</p> |

| Z Shares                  | None                        | None                                    | Up to 0.75%              |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

<sup>1</sup> Different subscription and/or redemption procedures may apply if applications are made through Distributors.

<sup>2</sup> The Fund complies with the conditions of eligibility allowing its shares to be held in a "Piano Individuale di Risparmio a lungo termine" (PIR) under the Italian 2017 Budget Law (Law No 232 of 11 December 2016).

<sup>3</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate. Initial charge of up to 5% is equivalent to 5.263 15% of the Net Asset Value per Share; up to 4% is equivalent to 4.1667% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>4</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

# Schroder International Selection Fund Japan DGF<sup>1</sup>

## Investment Objective

The Fund aims to provide capital growth of 3-month TIBOR (Tokyo interbank interest rates) +4% per annum before fees have been deducted\* by investing in a diversified range of assets and markets worldwide. The Fund aims to provide a volatility (a measure of how much the returns of a fund varies over a year) of 5-7% per annum.

\*For the target return after fees for each Share Class please visit the Schroder website: <https://www.schroders.com/en/lu/private-investor/investing-with-us/after-fees-performance-targets/>

## Investment Policy

The Fund is actively managed and invests indirectly through open-ended Investment Funds and Exchange Traded Funds in equity and fixed income securities, Money Market Investments and/or currencies worldwide. The Fund may also invest directly in those assets including sub-investment grade bonds (being securities with a credit rating below investment grade as measured by Standard & Poor's or any equivalent grade of other credit rating agencies).

The Fund has a maximum exposure of 30% to equities and at least 70% of its assets denominated in or hedged back into Japanese yen at all times. The Fund may invest indirectly in real estate and commodities through transferable securities (including REITs), derivatives (including total return swaps), open-ended Investment Funds, Exchange Traded Funds and Investment Trusts which invest in such asset classes.

The Fund intends to use derivatives (including total return swaps), long and short, with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently. Where the Fund uses total return swaps and contracts for difference, the underlying consists of instruments in which the Fund may invest according to its Investment Objective and Investment Policy. In particular, the aim is to use total return swaps and contracts for difference on a temporary basis in market conditions including but not limited to during periods of expanding global economic growth and rising inflation or elevated geopolitical risk, or when credit spreads are expected to widen such during periods of falling

economic growth, rising interest rates or elevated geopolitical risk. Contracts for difference and total return swaps are intended to be used to gain long and short exposure on equity and equity related securities, fixed and floating rate securities and commodity indices. The gross exposure of total return swaps and contracts for difference will not exceed 40% and is expected to remain within the range of 0% to 20% of the Net Asset Value. In certain circumstances this proportion may be higher. The Fund may invest in Money Market Investments and hold cash.

## Benchmark

The Fund's performance should be assessed against its target benchmark, being to achieve 3-month TIBOR (Tokyo interbank interest rates) +4% per annum, and its volatility objective of 5-7% per annum. The Investment Manager invests on a discretionary basis and is not limited to investing in accordance with the composition of a benchmark.

The target benchmark has been selected because the target return of the Fund is to deliver or exceed the return of that benchmark as stated in the investment objective.

## Further Information

The Fund is categorised as "Multi-Asset Fund". The Fund may invest more than 10% of its assets in Investment Funds. The Fund may invest in another fund that charges a performance fee.

## Risk Considerations

### Specific Risk Considerations

Long and short positions gained through index, bond and equity total return swaps may increase exposure to credit-related risks.

## Profile of the Typical Investor

The Fund will be suitable for Investors who are more concerned with maximising long-term returns than minimising possible short-term losses.

## Fund Characteristics

Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund Japanese Equity

## Investment Objective

The Fund aims to provide capital growth in excess of the Tokyo Stock Exchange 1<sup>st</sup> Section index (TOPIX) (Net TR) after fees have been deducted over a three to five year period by investing in equity and equity related securities of Japanese companies.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of Japanese companies.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.

The Fund maintains a higher overall sustainability score than the Tokyo Stock Exchange 1<sup>st</sup> Section index (TOPIX) (Net TR), based on the Investment Manager's rating system. More details on the investment process used to achieve this can be found in the Fund Characteristics section.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

## Benchmark

The Fund's performance should be assessed against its target benchmark being to exceed the Tokyo Stock Exchange 1<sup>st</sup> Section Index (TOPIX) (Net TR). The Fund's investment universe is expected to overlap materially with the components of the target benchmark. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the target benchmark. The Investment Manager will invest in companies or sectors not included in the target benchmark in order to take advantage of specific investment opportunities. The benchmark(s)

does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

The target benchmark has been selected because it is representative of the type of investments in which the Fund is likely to invest and it is, therefore, an appropriate target in relation to the return that the Fund aims to provide.

## Further Information

The Fund is categorised as "Mainstream Equity Fund".

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Specific Risk Considerations

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund's investment objective across all Share Classes after fees have been deducted.

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). A Fund with these characteristics may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As Investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are seeking long term growth potential offered through investment in equities.

## Fund Characteristics

|                                                                        |                                                |

| Sustainability Criteria | <p>The Investment Manager applies governance and sustainability criteria when selecting investments for the Fund. The investable universe is assessed using a number of proprietary tools, as well as external rating services.</p> <p>The Investment Manager performs due diligence on all potential holdings, including meetings with management, and assesses the company's governance, environmental and social profile across a range of factors. This process is supported by quantitative analysis provided by Schroders' proprietary sustainability tools, which are key inputs to assess how existing and potential investments for the portfolio are meeting the Fund's sustainability criteria. In some cases, companies which fall below our sustainability criteria may still be eligible for investment if, as a result of proprietary analysis and ongoing engagement with management, the Investment Manager believes the company will meet our sustainability criteria within a realistic time horizon.</p> <p>For a company to be eligible to be held in the Fund, it is expected to show a commitment to its stakeholders, including customers, employees, suppliers, shareholders and regulators. The Fund selects companies whose businesses demonstrate good governance and aim to treat stakeholders equitably.</p> <p>More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website <a href="http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures">www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures</a>.</p> <p>The Investment Manager ensures that at least:</p> <ul style="list-style-type: none"> <li>- 90% of equities issued by large companies domiciled in developed countries; fixed or floating rate securities and money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries; and</li> <li>- 75% of equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies; fixed or floating rate securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging countries,</li> </ul> <p>held in the Fund's portfolio are rated against the sustainability criteria. For the purposes of this test, small companies are those with market capitalisation below €5 billion, medium companies are those between €5 billion and €10 billion and large companies are those above €10 billion.</p> |

## General Share Class Features

| Share Classes             | Initial Charge <sup>2</sup> | Annual Distribution Charge <sup>3</sup> | Annual Management Charge |
|---------------------------|-----------------------------|-----------------------------------------|--------------------------|
| A Shares                  | Up to 5%                    | None                                    | 1.25%                    |
| AX Shares                 | Up to 5%                    | None                                    | 1.25%                    |
| A1 Shares                 | Up to 4%                    | 0.50%                                   | 1.50%                    |
| B Shares                  | None                        | 0.60%                                   | 1.25%                    |
| C Shares                  | Up to 1%                    | None                                    | 0.75%                    |
| CN Shares                 | Up to 3%                    | None                                    | 0.75%                    |
| CX Shares                 | Up to 1%                    | None                                    | 0.75%                    |
| D Shares                  | None                        | 1.00%                                   | 1.25%                    |
| E Shares                  | Up to 1%                    | None                                    | 0.375%                   |
| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 0.75%              |
| Z Shares                  | None                        | None                                    | Up to 0.75%              |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 5% is equivalent to 5.263 15% of the Net Asset Value per Share; up to 4% is equivalent to 4.16667% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund Japanese Opportunities

## Investment Objective

The Fund aims to provide capital growth in excess of the Tokyo Stock Exchange 1<sup>st</sup> Section index (TOPIX) (Net TR) after fees have been deducted over a three to five year period by investing in equity and equity related securities of Japanese companies.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of Japanese companies.

The Fund seeks to identify and invest in undervalued stocks by estimating their fair value based on predicted returns over the medium to long term.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.

The Fund maintains a higher overall sustainability score than the Tokyo Stock Exchange 1<sup>st</sup> Section (TOPIX) (Net TR) index, based on the Investment Manager's rating criteria. More details on the investment process used to achieve this can be found in the Fund Characteristics section.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

## Benchmark

The Fund's performance should be assessed against its target benchmark being to exceed the Tokyo Stock Exchange 1<sup>st</sup> Section Index (TOPIX) (Net TR). The Fund's investment universe is expected to overlap materially with the components of the target benchmark. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the target benchmark. The Investment Manager will invest in companies or sectors not included in the target benchmark in order to take advantage of specific investment opportunities.

## Fund Characteristics

|                                                                        |                                                |
|------------------------------------------------------------------------|------------------------------------------------|
| Fund Currency                                                          | JPY                                            |
| Investment Manager                                                     | Schroder Investment Management (Japan) Limited |
| Dealing Cut-off Time                                                   | 13.00 Luxembourg time on Dealing Day           |
| Dealing Frequency                                                      | Daily on Dealing Day                           |
| Settlement Period of Subscription and Redemption Proceeds <sup>1</sup> | 3 Business Days from the relevant Dealing Day  |
| Performance Fee                                                        | None                                           |

<sup>1</sup> Different subscription and redemption procedures may apply if applications are made through Distributors.

The target benchmark has been selected because it is representative of the type of investments in which the Fund is likely to invest and it is, therefore, an appropriate target in relation to the return that the Fund aims to provide.

The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

## Further Information

The Fund is categorised as "Specialist Equity Fund".

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Specific Risk Considerations

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). A Fund with these characteristics may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund's investment objective across all Share Classes after fees have been deducted.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are more concerned with maximising long term returns than minimising possible short term losses.

|                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                  |

| Sustainability Criteria | <p>The Investment Manager applies governance and sustainability criteria when selecting investments for the Fund. The investable universe is assessed using a number of proprietary tools, as well as external rating services.</p> <p>The Investment Manager performs due diligence on all potential holdings, including meetings with management, and assesses the company's governance, environmental and social profile across a range of factors. This process is supported by quantitative analysis provided by Schroders' proprietary sustainability tools, which are key inputs to assess how existing and potential investments for the portfolio are meeting the Fund's sustainability criteria. In some cases, companies which fall below the sustainability criteria may still be eligible for investment if, as a result of proprietary analysis and ongoing engagement with management, the Investment Manager believes the company will meet the sustainability criteria within a realistic time horizon.</p> <p>For a company to be eligible to be held in the Fund, it is expected to show a commitment to its stakeholders, including customers, employees, suppliers, shareholders and regulators. The Fund selects companies whose businesses demonstrate good governance and aim to treat stakeholders equitably.</p> <p>More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website <a href="http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures">www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures</a>.</p> <p>The Investment Manager ensures that at least:</p> <ul style="list-style-type: none"> <li>– 90% of equities issued by large companies domiciled in developed countries; fixed or floating rate securities and money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries; and</li> <li>– 75% of equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies; fixed or floating rate securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging countries,</li> </ul> <p>held in the Fund's portfolio are rated against the sustainability criteria. For the purposes of this test, small companies are those with market capitalisation below €5 billion, medium companies are those between €5 billion and €10 billion and large companies are those above €10 billion.</p> |

## General Share Class Features

| Share Classes             | Initial Charge <sup>2</sup> | Annual Distribution Charge <sup>3</sup> | Annual Management Charge |
|---------------------------|-----------------------------|-----------------------------------------|--------------------------|
| A Shares                  | Up to 5%                    | None                                    | 1.50%                    |
| AX Shares                 | Up to 5%                    | None                                    | 1.50%                    |
| A1 Shares                 | Up to 4%                    | 0.50%                                   | 1.50%                    |
| B Shares                  | None                        | 0.60%                                   | 1.50%                    |
| C Shares                  | Up to 1%                    | None                                    | 1.00%                    |
| CN Shares                 | Up to 3%                    | None                                    | 1.00%                    |
| CX Shares                 | Up to 1%                    | None                                    | 1.00%                    |
| D Shares                  | None                        | 1.00%                                   | 1.50%                    |
| E Shares                  | Up to 1%                    | None                                    | 0.50%                    |
| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 1%                 |
| Z Shares                  | None                        | None                                    | Up to 1%                 |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 5% is equivalent to 5.263 15% of the Net Asset Value per Share; up to 4% is equivalent to 4.16667% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund Japanese Smaller Companies

## Investment Objective

The Fund aims to provide capital growth in excess of the Russell Nomura Small Cap (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity related securities of small-sized Japanese companies.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of small-sized Japanese companies. These are companies which, at the time of purchase, are considered to be in the bottom 30% by market capitalisation of the Japanese equities market.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.

The Fund maintains a higher overall sustainability score than the Russell Nomura Small Cap (Net TR) index, based on the Investment Manager's rating criteria. More details on the investment process used to achieve this can be found in the Fund Characteristics section.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

## Benchmark

The Fund's performance should be assessed against its target benchmark being to exceed the Russell Nomura Small Cap (Net TR) index. The Fund's investment universe is expected to overlap materially with the components of the target benchmark. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the target benchmark. The Investment Manager will invest in companies or sectors not included in the target benchmark in order to take advantage of specific investment opportunities.

## Fund Characteristics

|                                                                        |                                                |
|------------------------------------------------------------------------|------------------------------------------------|
| Fund Currency                                                          | JPY                                            |
| Investment Manager                                                     | Schroder Investment Management (Japan) Limited |
| Dealing Cut-off Time                                                   | 13.00 Luxembourg time on Dealing Day           |
| Dealing Frequency                                                      | Daily on Dealing Day                           |
| Settlement Period of Subscription and Redemption Proceeds <sup>1</sup> | 3 Business Days from the relevant Dealing Day  |
| Performance Fee                                                        | None                                           |

<sup>1</sup> Different subscription and redemption procedures may apply if applications are made through Distributors.

The target benchmark has been selected because it is representative of the type of investments in which the Fund is likely to invest and it is, therefore, an appropriate target in relation to the return that the Fund aims to provide.

The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

## Further Information

The Fund is categorised as "Specialist Equity Fund".

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Specific Risk Considerations

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). A Fund with these characteristics may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As Investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund's investment objective across all Share Classes after fees have been deducted.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are more concerned with maximising long term returns than minimising possible short term losses.

|                         |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |

| Sustainability Criteria | <p>The Investment Manager applies governance and sustainability criteria when selecting investments for the Fund. The investable universe is assessed using a number of proprietary tools, as well as external rating services.</p> <p>The Investment Manager performs due diligence on all potential holdings, including meetings with management, and assesses the company's governance, environmental and social profile across a range of factors. This process is supported by quantitative analysis provided by Schroders' proprietary sustainability tools, which are key inputs to assess how existing and potential investments for the portfolio are meeting the Fund's sustainability criteria. In some cases, companies which fall below our sustainability criteria may still be eligible for investment if, as a result of proprietary analysis and ongoing engagement with management, the Investment Manager believes the company will meet our sustainability criteria within a realistic time horizon.</p> <p>For a company to be eligible to be held in the Fund, it is expected to show a commitment to its stakeholders, including customers, employees, suppliers, shareholders and regulators. The Fund selects companies whose businesses demonstrate good governance and aim to treat stakeholders equitably.</p> <p>The sources of information used to perform the analysis include information provided by the companies, such as company sustainability reports and other relevant company material, as well as Schroders' proprietary sustainability tools and third-party data.</p> <p>More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website <a href="http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures">www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures</a>.</p> <p>The Investment Manager ensures that at least:</p> <ul style="list-style-type: none"> <li>- 90% of equities issued by large companies domiciled in developed countries; fixed or floating rate securities and money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries; and</li> <li>- 75% of equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies; fixed or floating rate securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging countries,</li> </ul> <p>held in the Fund's portfolio are rated against the sustainability criteria. For the purposes of this test, small companies are those with market capitalisation below €5 billion, medium companies are those between €5 billion and €10 billion and large companies are those above €10 billion.</p> |

## General Share Class Features

| Share Classes             | Initial Charge <sup>2</sup> | Annual Distribution Charge <sup>3</sup> | Annual Management Charge |
|---------------------------|-----------------------------|-----------------------------------------|--------------------------|
| A Shares                  | Up to 5%                    | None                                    | 1.50%                    |
| AX Shares                 | Up to 5%                    | None                                    | 1.50%                    |
| A1 Shares                 | Up to 4%                    | 0.50%                                   | 1.50%                    |
| B Shares                  | None                        | 0.60%                                   | 1.50%                    |
| C Shares                  | Up to 1%                    | None                                    | 1.00%                    |
| CN Shares                 | Up to 3%                    | None                                    | 1.00%                    |
| CX Shares                 | Up to 1%                    | None                                    | 1.00%                    |
| D Shares                  | None                        | 1.00%                                   | 1.50%                    |
| E Shares                  | Up to 1%                    | None                                    | 0.50%                    |
| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 1%                 |
| Z Shares                  | None                        | None                                    | Up to 1%                 |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 5% is equivalent to 5.263 15% of the Net Asset Value per Share; up to 4% is equivalent to 4.16667% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

# Schroder International Selection Fund Latin American

## Investment Objective

The Fund aims to provide capital growth in excess of the MSCI Emerging Markets Latin America 10/40 (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity related securities of Latin American companies.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of Latin American companies.

The Fund typically holds 40-70 companies.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.

## Benchmark

The Fund's performance should be assessed against its target benchmark being to exceed the MSCI Emerging Markets Latin America 10/40 (Net TR) index. The Fund's investment universe is expected to overlap materially, directly or indirectly, with the components of the target benchmark. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may

deviate from the target benchmark. The Investment Manager will invest in companies or sectors not included in the target benchmark in order to take advantage of specific investment opportunities.

The target benchmark has been selected because it is representative of the type of investments in which the Fund is likely to invest and it is, therefore, an appropriate target in relation to the return that the Fund aims to provide.

## Further Information

The Fund is categorised as "Specialist Equity Fund".

## Risk Considerations

### Specific Risk Considerations

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

Risks related to emerging markets investments can be found under "Emerging and Less Developed Markets Securities Risk" in Appendix II of this Prospectus.

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund's investment objective across all Share Classes after fees have been deducted.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are more concerned with maximising long term returns than minimising possible short term losses.

## Fund Characteristics

| A1 Shares                 | Up to 4%                    | 0.50%                                   | 1.50%                    |
| B Shares                  | None                        | 0.60%                                   | 1.50%                    |
| C Shares                  | Up to 1%                    | None                                    | 1.00%                    |
| CN Shares                 | Up to 3%                    | None                                    | 1.00%                    |
| CX Shares                 | Up to 1%                    | None                                    | 1.00%                    |
| D Shares                  | None                        | 1.00%                                   | 1.50%                    |
| E Shares                  | Up to 1%                    | None                                    | 0.50%                    |
| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 1%                 |
| Z Shares                  | None                        | None                                    | Up to 1%                 |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 5% is equivalent to 5.263 15% of the Net Asset Value per Share; up to 4% is equivalent to 4.16667% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund Multi-Asset Growth and Income

## Investment Objective

The Fund aims to provide capital growth and income over a three to five year period after fees have been deducted by investing in a diversified range of assets and markets worldwide.

## Investment Policy

The Fund is actively managed and invests directly or indirectly through derivatives in equity and equity-related securities, fixed and floating rate securities issued by governments, government agencies, supra-nationals and companies worldwide in various currencies and Alternative Asset Classes.

The Fund may invest:

- up to 50% in sub-investment grade securities (being securities with a credit rating below investment grade as measured by Standard & Poor's or any equivalent grade of other credit rating agencies).
- up to 20% of its assets in asset-backed securities, commercial mortgage-backed securities, and/or residential mortgage-backed securities issued worldwide with an investment grade or sub-investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies). Underlying assets may include credit card receivables, personal loans, auto loans, small business loans, leases, commercial mortgages and residential mortgages.

The Fund may invest directly in China B-Shares and China H-Shares and may invest less than 15% of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A-Shares through Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect and shares listed on the STAR Board and the ChiNext. The Fund may also invest in mainland China through Regulated Markets (including the CIBM via Bond Connect or CIBM Direct).

The exposure to Alternative Asset Classes is taken through eligible assets as described in Appendix III of this Prospectus.

The Fund intends to use derivatives (including total return swaps), long and short, with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently. Where the Fund uses total return swaps and contracts for difference, the underlying consists of instruments in which the Fund may invest according to its Investment Objective and Investment Policy. In particular, the aim is to use total return swaps and contracts for difference on a temporary basis in market conditions including but not limited to during periods of expanding global economic growth and rising inflation or elevated geopolitical risk, or when credit spreads are expected to widen such during periods of falling economic growth, rising interest rates or elevated geopolitical risk. Contracts for difference and total return swaps are intended to be used to gain long and short exposure on equity and equity related securities, fixed and floating rate securities and commodity indices. The gross exposure of total return swaps and contracts for difference

will not exceed 30% and is expected to remain within the range of 0% to 20% of the Net Asset Value. In certain circumstances this proportion may be higher.

The Fund may invest in Money Market Investments and hold cash. The Fund may invest up to 10% of its assets in open-ended Investment Funds.

The Fund maintains a higher overall sustainability score than 25% MSCI AC World Index (USD), 25% Barclays Global High Yield excl CMBS & EMG 2% index (USD), 12.5% Thomson Reuters Convertible Global Focus index (USD) and 37.5% Barclays Global Aggregate Bond Index (USD), based on the Investment Manager's rating criteria. More details on the investment process used to achieve this can be found in the Fund Characteristics section.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

## Benchmark

The Fund does not have a target benchmark. The Fund's performance and volatility should be compared against 25% MSCI AC World Index (USD), 25% Barclays Global High Yield excl CMBS & EMG 2% index (USD), 12.5% Thomson Reuters Convertible Global Focus index (USD) and 37.5% Barclays Global Aggregate Bond Index (USD). The comparator benchmark is only included for performance and risk comparison purposes and does not determine how the Investment Manager invests the Fund's assets. The Fund's investment universe is expected to have limited overlap with the components of the comparator benchmark. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the comparator benchmark. The Investment Manager will invest in companies or sectors not included in the comparator benchmark.

The comparator benchmark has been selected because the Investment Manager believes that the benchmark is a suitable comparison for performance purposes given the Fund's investment objective and policy. The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

## Further Information

The Fund is categorised as "Multi-Asset Fund".

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Specific Risk Considerations

Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect are securities trading and clearing linked programmes developed by The Stock Exchange of Hong Kong Limited, Shanghai/Shenzhen Stock Exchanges,

Hong Kong Securities Clearing Company Limited and China Securities Depository and Clearing Corporation Limited, with an aim to achieve mutual stock market access between the PRC (excluding Hong Kong, Macau and Taiwan) and Hong Kong. A detailed description of the programmes as well as risks linked thereto can be found in Appendix II of this Prospectus.

Long and short positions gained through index, bond and equity total return swaps may increase exposure to credit-related risks.

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). A Fund with these characteristics may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As Investors may differ in their views of what constitutes sustainable

investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

A detailed description of the risks linked to asset-backed securities and mortgage-backed securities can be found in Appendix II of this Prospectus.

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

## Profile of the Typical Investor

The Fund is a medium risk vehicle that will be suitable for Investors who are seeking long term growth potential and income through investment in a diversified portfolio offering exposure to a range of asset classes.

## Fund Characteristics

|                                                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                |

| Sustainability Criteria                                                | <p>The Investment Manager applies governance and sustainability criteria when selecting investments for the Fund. The investable universe is assessed using a number of proprietary tools, as well as external rating services.</p> <p>The Investment Manager will assess companies against a variety of environmental, social and governance metrics, taking into account issues such as climate change, environmental performance, labour standards and board composition. The Investment Manager will decide whether an investment is eligible for inclusion taking into account the overall ESG score. The multi-asset nature of the Fund means that the Investment Manager will analyse the ESG scores across asset classes as an input into the asset allocation of the Fund. The Investment Manager may select investments, which it deems to contribute to one or more environmental or social objectives, provided that they do no significant harm to any other environmental or social objectives.</p> <p>The sources of information used to perform the analysis include information provided by the companies, such as company sustainability reports and other relevant company material, as well as Schroders' proprietary sustainability tools and third-party data.</p> <p>More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website <a href="http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures">www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures</a>.</p> <p>The Investment Manager ensures that at least:</p> <ul style="list-style-type: none"> <li>– 90% of equities issued by large companies domiciled in developed countries; fixed or floating rate securities and money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries; and</li> <li>– 75% of equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies; fixed or floating rate securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging countries,</li> </ul> <p>held in the Fund's portfolio are rated against the sustainability criteria. For the purposes of this test, small companies are those with market capitalisation below €5 billion, medium companies are those between €5 billion and €10 billion and large companies are those above €10 billion.</p> |
| PEA / PIR Eligibility                                                  | No                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                             |

<sup>1</sup> Different subscription and redemption procedures may apply if applications are made through Distributors.

## General Share Class Features

| Share Classes             | Initial Charge <sup>2</sup> | Annual Distribution Charge <sup>3</sup> | Annual Management Charge |
|---------------------------|-----------------------------|-----------------------------------------|--------------------------|
| A Shares                  | Up to 4%                    | None                                    | 1.25%                    |
| AX Shares                 | Up to 4%                    | None                                    | 1.25%                    |
| A1 Shares                 | Up to 3%                    | 0.50%                                   | 1.25%                    |
| B Shares                  | None                        | 0.60%                                   | 1.25%                    |
| C Shares                  | Up to 1%                    | None                                    | 0.75%                    |
| CN Shares                 | Up to 3%                    | None                                    | 0.75%                    |
| CX Shares                 | Up to 1%                    | None                                    | 0.75%                    |
| D Shares                  | None                        | 1.00%                                   | 1.25%                    |
| E Shares                  | Up to 1%                    | None                                    | 0.375%                   |
| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 0.75%              |
| Z Shares                  | None                        | None                                    | Up to 0.75%              |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 4% is equivalent to 4.166 67% of the Net Asset Value per Share; up to 3% is equivalent to 3.09278% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund Multi-Asset Total Return

## Investment Objective

The Fund aims to provide capital growth and income of ICE BofA 3 Month US Treasury Bill Index + 4% per annum before fees have been deducted\* over rolling three year periods by investing in a diversified range of assets and markets worldwide.

\*For the target return after fees for each Share Class please visit the Schroder website: <https://www.schroders.com/en/lu/private-investor/investing-with-us/after-fees-performance-targets/>

## Investment Policy

The Fund is actively managed and invests directly or indirectly (through Investment Funds and derivatives) in equity and equity related securities, fixed and floating rate securities, commodities and currencies worldwide.

The Fund may invest in sub-investment grade securities (being securities with a credit rating below investment grade as measured by Standard & Poor's or any equivalent grade of other credit rating agencies). The Fund may invest up to 20% of its assets in asset-backed securities and mortgage-backed securities.

The Fund intends to use derivatives (including total return swaps), long and short, with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently. Where the Fund uses total return swaps and contracts for difference, the underlying consists of instruments in which the Fund may invest according to its Investment Objective and Investment Policy. In particular, total return swaps and contracts for difference will be used on a continuous basis to gain long and short exposure on equity and equity related securities, fixed and floating rate securities and commodity indices. The gross exposure of total return swaps and contracts for difference will not exceed 25% and is expected to remain within the range of 0% to 15% of the Net Asset Value. In certain circumstances this proportion may be higher.

The investment strategy of the Fund and its use of derivatives may lead to situations when it is considered appropriate that prudent levels of cash or cash equivalent liquidity will be maintained, which may be substantial or even represent (exceptionally) 100% of the Fund's assets. This will be limited to a maximum of six months (otherwise the Fund will be liquidated). During this period, the Fund will not fall within the scope of MMFR. The Fund may also invest in Money Market Investments.

The Fund may invest up to 10% of its assets in open-ended Investment Funds (including other Schroder Funds).

## Benchmark

The Fund's performance should be assessed against its target benchmark, being to deliver ICE BofA 3 Month US Treasury Bill Index +4% per annum and compared against

ICE BofA 3Month US Treasury Bill Index. The Investment Manager invests on a discretionary basis and is not limited to investing in accordance with the composition of a benchmark.

The target benchmark has been selected because the target return of the Fund is to deliver or exceed the return of that benchmark as stated in the investment objective. The comparator benchmark has been selected because the Investment Manager believes that the benchmark is a suitable comparison for performance purposes given the Fund's investment objective and policy.

## Further Information

The Fund is categorised as "Multi-Asset Fund".

## Risk Considerations

### Risk Management Method

Absolute Value-at-Risk (VaR)

### Expected Leverage

350% of the total net assets

The expected level of leverage may be higher when market volatility decreases sustainably.

### This Fund is not a leveraged financial instrument

The Fund utilises financial derivative instruments for investment purposes and the global exposure is monitored under the absolute VaR approach in line with UCITS Risk Measurement Rules. Whilst these instruments generate leverage, the Fund itself is not a leveraged financial instrument as further described in the MIFID Directive. For further details on the absolute VaR approach please see Appendix 1. In addition to this regulatory restriction, Schroders implements internal controls on global exposure to constrain and/or highlight global exposure as appropriate.

### Specific Risk Considerations

A detailed description of the risks linked to asset-backed securities and mortgage-backed securities can be found in Appendix II of this Prospectus.

Long and short positions gained through index, bond and equity total return swaps may increase exposure to credit-related risks.

## Profile of the Typical Investor

The Fund is a medium risk vehicle that will be suitable for Investors who are seeking long term growth potential through investment in a diversified portfolio offering exposure to a range of asset classes.

## Fund Characteristics

|                      |                                        |

| Z Shares                  | None                        | None                                    | Up to 0.65%              |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>1</sup> Different subscription and redemption procedures may apply if applications are made through Distributors.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 4% is equivalent to 4.166 67% of the Net Asset Value per Share; up to 3% is equivalent to 3.09278% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund Nordic Micro Cap

## Investment Objective

The Fund aims to provide capital growth in excess of the MSCI Nordic Micro Cap (Net TR) index after fees have been deducted over a five to seven year period by investing in equity or equity related securities of micro-sized Nordic companies.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of micro-sized Nordic companies. These are companies which, at the time of purchase, are considered to be in the bottom 10% by market capitalisation of the Nordic equities market. The Fund may invest up to 10% of its assets in eligible unlisted transferable securities.

Portfolio construction is based on fundamental research, with a bias towards investing in companies that the investment manager considers are well-managed, entrepreneurial businesses that can grow in the long term.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.

The Fund maintains a higher overall sustainability score than the MSCI Nordic Micro Cap (Net TR) index based on the Investment Manager's rating criteria. More details on the investment process used to achieve this can be found in the Fund Characteristics section.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

## Benchmark

The Fund's performance should be assessed against its target benchmark being to exceed the MSCI Nordic Micro Cap (Net TR) index and compared against the Morningstar Nordic Small/Mid-Cap Equity Category. The Fund's investment universe is not expected to overlap materially with the components of the target benchmark. The comparator benchmark is only included for performance comparison purposes and does not determine how the Investment Manager invests the Fund's assets. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the target benchmark. The Investment Manager will invest in

companies or sectors not included in the target benchmark in order to take advantage of specific investment opportunities.

The target benchmark has been selected because it is representative of the type of investments in which the Fund is likely to invest and it is, therefore, an appropriate target in relation to the return that the Fund aims to provide. The comparator benchmark has been selected because the Investment Manager believes that the benchmark is a suitable comparison for performance purposes given the Fund's investment objective and policy. The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

## Further Information

The Fund is categorised as "Specialist Equity Fund".

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Specific Risk Considerations

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). A Fund with these characteristics may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As Investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund's investment objective across all Share Classes after fees have been deducted.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are more concerned with maximising long term returns than minimising possible short term losses.

| Sustainability Criteria                                                | <p>The Investment Manager applies governance and sustainability criteria when selecting investments for the Fund.</p> <p>The strategy aims to identify issuers demonstrating good or improving sustainability credentials. This involves:</p> <ul style="list-style-type: none"> <li>- The inclusion of issuers that demonstrate stable and improving sustainability trajectories, and issuers demonstrating good governance based on the Investment Manager's sustainability rating methodology.</li> </ul> <p>The Investment Manager may also engage with companies to encourage transparency, the transition to a circular economy with lower carbon emissions intensity and responsible social behaviour that promotes sustainable growth and alpha generation.</p> <p>The primary sources of information used to perform the analysis are the Investment Manager's proprietary tools and research, third-party research, meetings with company management and expert networks. The Investment Manager also performs its own analysis of publicly available information provided by the companies, including information provided in company sustainability reports and other relevant company material.</p> <p>More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website <a href="http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures">www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures</a>.</p> <p>The Investment Manager ensures that at least:</p> <ul style="list-style-type: none"> <li>- 90% of equities issued by large companies domiciled in developed countries; fixed or floating rate securities and money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries; and</li> <li>- 75% of equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies; fixed or floating rate securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging countries,</li> </ul> <p>held in the Fund's portfolio are rated against the sustainability criteria. For the purposes of this test, small companies are those with market capitalisation below €5 billion, medium companies are those between €5 billion and €10 billion and large companies are those above €10 billion.</p> |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

<sup>1</sup> Different subscription and redemption procedures may apply if applications are made through Distributors.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate. Initial charge of up to 5% is equivalent to 5.263 15% of the Net Asset Value per Share; up to 4% is equivalent to 4.16667% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

# Schroder International Selection Fund Nordic Smaller Companies

## Investment Objective

The Fund aims to provide capital growth in excess of the MSCI Nordic Smaller Companies (Net TR) index after fees have been deducted over a three to five year period by investing in equity or equity related securities of small-sized Nordic companies.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of small-sized Nordic companies. These are companies which, at the time of purchase, are considered to be in the bottom 30% by market capitalisation of the Nordic equities market.

Portfolio construction is based on fundamental research, with a bias towards investing in companies that the Investment Manager considers are well-managed, entrepreneurial businesses that can grow in the long term.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.

The Fund maintains a higher overall sustainability score than the MSCI Nordic Smaller Companies (Net TR) index based on the Investment Manager's rating criteria. More details on the investment process used to achieve this can be found in the Fund Characteristics section.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

## Benchmark

The Fund's performance should be assessed against its target benchmark being to exceed the MSCI Nordic Smaller Companies (Net TR) index and compared against the Morningstar Nordic Small/Mid-Cap Equity Category. The Fund's investment universe is expected to overlap materially with the components of the target benchmark. The comparator benchmark is only included for performance comparison purposes and does not determine how the Investment Manager invests the Fund's assets. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the target benchmark. The Investment Manager will invest in

companies or sectors not included in the target benchmark in order to take advantage of specific investment opportunities.

The target benchmark has been selected because it is representative of the type of investments in which the Fund is likely to invest and it is, therefore, an appropriate target in relation to the return that the Fund aims to provide. The comparator benchmark has been selected because the Investment Manager believes that the benchmark is a suitable comparison for performance purposes given the Fund's investment objective and policy. The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

## Further Information

The Fund is categorised as "Specialist Equity Fund".

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Specific Risk Considerations

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). A Fund with these characteristics may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As Investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund's investment objective across all Share Classes after fees have been deducted.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are more concerned with maximising long term returns than minimising possible short term losses.

| Sustainability Criteria                                                | <p>The Investment Manager applies governance and sustainability criteria when selecting investments for the Fund.</p> <p>The strategy aims to identify issuers demonstrating good or improving sustainability credentials. This involves:</p> <ul style="list-style-type: none"> <li>– The inclusion of issuers that demonstrate stable and improving sustainability trajectories, and issuers demonstrating good governance based on the Investment Manager's sustainability rating methodology.</li> </ul> <p>The Investment Manager may also engage with companies to encourage transparency, the transition to a circular economy with lower carbon emissions intensity and responsible social behaviour that promotes sustainable growth and alpha generation.</p> <p>The primary sources of information used to perform the analysis are the Investment Manager's proprietary tools and research, third-party research, meetings with company management and expert networks. The Investment Manager also performs its own analysis of publicly available information provided by the companies, including information provided in company sustainability reports and other relevant company material.</p> <p>More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website <a href="http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures">www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures</a>.</p> <p>The Investment Manager ensures that at least:</p> <ul style="list-style-type: none"> <li>– 90% of equities issued by large companies domiciled in developed countries; fixed or floating rate securities and money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries; and</li> <li>– 75% of equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies; fixed or floating rate securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging countries,</li> </ul> <p>held in the Fund's portfolio are rated against the sustainability criteria. For the purposes of this test, small companies are those with market capitalisation below €5 billion, medium companies are those between €5 billion and €10 billion and large companies are those above €10 billion.</p> |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

<sup>1</sup> Different subscription and redemption procedures may apply if applications are made through Distributors.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate. Initial charge of up to 5% is equivalent to 5.263 15% of the Net Asset Value per Share; up to 4% is equivalent to 4.1667% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

# Schroder International Selection Fund QEP Global Active Value

## Investment Objective

The Fund aims to provide capital growth and income in excess of the MSCI AC World (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity-related securities of companies worldwide.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in a diversified portfolio of equity and equity-related securities of companies worldwide.

The Fund focuses on companies that have certain “Value” characteristics. Value is assessed by looking at indicators such as cash flows, dividends and earnings to identify securities which the Investment Manager believes have been undervalued by the market.

The Fund may invest directly in China B-Shares and China H-Shares and may invest less than 10% of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A-Shares through Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect and shares listed on the STAR Board and the ChiNext.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.

## Benchmark

The Fund’s performance should be assessed against its target benchmark, being to exceed the MSCI AC World (Net TR) index and compared against the MSCI AC World Value (Net TR) index and the MSCI World (Net TR) index. The Fund’s investment universe is expected to overlap materially with the components of the target and comparator benchmarks. The comparator benchmarks are only included for performance comparison purposes and do not determine how the Investment Manager invests the Fund’s assets. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund’s portfolio and performance may deviate from the target or comparator benchmarks. The Investment Manager will invest in companies or sectors not included in the target or comparator benchmarks in order to take advantage of specific investment opportunities.

## Fund Characteristics

|                                                                        |                                               |
|------------------------------------------------------------------------|-----------------------------------------------|
| Fund Currency                                                          | USD                                           |
| Investment Manager                                                     | Schroder Investment Management Limited        |
| Dealing Cut-off Time                                                   | 13.00 Luxembourg time on Dealing Day          |
| Dealing Frequency                                                      | Daily on Dealing Day                          |
| Settlement Period of Subscription and Redemption Proceeds <sup>1</sup> | 3 Business Days from the relevant Dealing Day |

<sup>1</sup> Different subscription and redemption procedures may apply if applications are made through Distributors.

The target benchmark has been selected because it is representative of the type of investments in which the Fund is likely to invest, and it is, therefore, an appropriate target in relation to the return that the Fund aims to provide. Any comparator benchmark has been selected because the Investment Manager believes that the benchmark is a suitable comparison for performance purposes given the Fund’s investment objective and policy.

## Further Information

The Fund is categorised as “Quantitative Equity Fund”. QEP stands for Quantitative Equity Products.

The Investment Manager of the Fund undertakes the hedging of the Shares of the hedged Share Classes by considering the relevant proportionate underlying currency exposures of the Fund. Performance of these hedged Share Classes may therefore vary significantly from equivalent Share Classes in the Fund Currency.

## Risk Considerations

### Specific Risk Considerations

Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect are securities trading and clearing linked programmes developed by The Stock Exchange of Hong Kong Limited, Shanghai/Shenzhen Stock Exchanges, Hong Kong Securities Clearing Company Limited and China Securities Depository and Clearing Corporation Limited, with an aim to achieve mutual stock market access between the PRC (excluding Hong Kong, Macau and Taiwan) and Hong Kong. A detailed description of the programmes as well as risks linked thereto can be found in Appendix II of this Prospectus.

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund’s investment objective across all Share Classes after fees have been deducted.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are seeking long term growth potential offered through investment in equities.

|                       |      |
|-----------------------|------|
| Performance Fee       | None |
| Redemption Charge     | None |
| PEA / PIR Eligibility | No   |

## General Share Class Features

| Share Classes             | Initial Charge <sup>2</sup> | Annual Distribution Charge <sup>3</sup> | Annual Management Charge |

| B Shares                  | None                        | 0.60%                                   | 1.25%                    |
| C Shares                  | Up to 1%                    | None                                    | 0.65%                    |
| CN Shares                 | Up to 3%                    | None                                    | 0.65%                    |
| CX Shares                 | Up to 1%                    | None                                    | 0.65%                    |
| D Shares                  | None                        | 1.00%                                   | 1.25%                    |
| E Shares                  | N/A                         | N/A                                     | N/A                      |
| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 0.65%              |
| Z Shares                  | None                        | None                                    | Up to 0.65%              |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 5% is equivalent to 5.263 15% of the Net Asset Value per Share; up to 4% is equivalent to 4.16667% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund QEP Global Core

## Investment Objective

The Fund aims to provide capital growth and income in excess of the MSCI World (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity-related securities of companies worldwide.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in a diversified portfolio of equity and equity-related securities of companies worldwide.

The Fund's weight in a single country, region or sector will typically be within 3% of the target index whilst the weight of each security will typically be within 0.75% of the benchmark.

The Fund focuses on companies that have certain "Value" and/or "Quality" characteristics. Value is assessed by looking at indicators such as cash flows, dividends and earnings to identify securities which the Investment Manager believes have been undervalued by the market. Quality is assessed by looking at indicators such as a company's profitability, stability, financial strength, governance and growth.

The Fund may invest directly in China B-Shares and China H-Shares and may invest less than 10% of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A-Shares through Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect and shares listed on the STAR Board and the ChiNext.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.

The Fund maintains a higher overall sustainability score than MSCI World (Net TR) index, based on the Investment Manager's rating system. More details on the investment process used to achieve this can be found in the Fund Characteristics section.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

## Benchmark

The Fund's performance should be assessed against its constraining benchmark, being the MSCI World (Net TR) index. The Fund's investment universe is expected to overlap materially with the components of the constraining benchmark. The Investment Manager will use discretion to vary the weightings in the benchmark's securities.

The constraining benchmark has been selected because the Investment Manager is constrained by reference to the value, price or components of that benchmark as stated in the investment objective and policy. The benchmark(s)

does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

Where a Fund states that it will typically be within a certain percentage of specific weightings (e.g. sector or security) of a particular benchmark, the Investment Manager does not actively take the Fund outside of such a percentage and if the Fund moves passively outside of a percentage the Investment Manager looks to bring the Fund back in line with the percentage at the next appropriate occasion, provided the Investment Manager believes this to be in the best interests of investors.

## Further Information

The Fund is categorised as "Quantitative Equity Fund". QEP stands for Quantitative Equity Products.

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Specific Risk Considerations

Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect are securities trading and clearing linked programmes developed by The Stock Exchange of Hong Kong Limited, Shanghai/Shenzhen Stock Exchanges, Hong Kong Securities Clearing Company Limited and China Securities Depository and Clearing Corporation Limited, with an aim to achieve mutual stock market access between the PRC (excluding Hong Kong, Macau and Taiwan) and Hong Kong. A detailed description of the programmes as well as risks linked thereto can be found in Appendix II of this Prospectus.

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund's investment objective across all Share Classes after fees have been deducted.

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). A Fund with these characteristics may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As Investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are seeking long term growth potential offered through investment in equities.

| Sustainability Criteria                                                | <p>The Investment Manager applies governance and sustainability criteria when selecting investments for the Fund. Companies in the investment universe are assessed on their governance, environmental and social profile, across a wide range of underlying measures. The Investment Manager will take into account an assessment of the sustainability profile of companies when determining position sizing within the portfolio.</p> <p>Within governance, criteria assessed include risk to shareholders, business oversight, accounting risk and dividend policy. Environmental considerations include climate change related risks alongside broader environmental impact and opportunities. Social criteria reflects areas such as business involvement, safety, employee welfare, supply chain management and data privacy.</p> <p>The primary sources of information include fundamental accounting data, Schroders' proprietary sustainability tools and third-party ESG data.</p> <p>More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website <a href="http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures">www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures</a>.</p> <p>The Investment Manager ensures that at least:</p> <ul style="list-style-type: none"> <li>- 90% of equities issued by large companies domiciled in developed countries; fixed or floating rate securities and money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries; and</li> <li>- 75% of equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies; fixed or floating rate securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging countries,</li> </ul> <p>held in the Fund's portfolio are rated against the sustainability criteria. For the purposes of this test, small companies are those with market capitalisation below €5 billion, medium companies are those between €5 billion and €10 billion and large companies are those above €10 billion.</p> |

| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 0.275%             |
| P Shares                  | None                        | None                                    | 0.10%                    |
| Z Shares                  | None                        | None                                    | Up to 0.275%             |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>3</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate. Initial charge of up to 5% is equivalent to 5.263 15% of the Net Asset Value per Share; up to 4% is equivalent to 4.16667% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>4</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund QEP Global Emerging Markets

## Investment Objective

The Fund aims to provide capital growth and income in excess of the MSCI Emerging Markets (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity-related securities of companies in emerging market countries.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in a diversified portfolio of equity and equity-related securities of companies in emerging market countries or companies who derive a significant proportion of their revenues or profits from emerging markets.

The Fund focuses on companies that have certain "Value" and/or "Quality" characteristics. Value is assessed by looking at indicators such as cash flows, dividends and earnings to identify securities which the Investment Manager believes have been undervalued by the market. Quality is assessed by looking at indicators such as a company's profitability, stability, financial strength, governance and growth.

The Fund may invest directly in China B-Shares and China H-Shares and may invest less than 20% of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A-Shares through Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect and shares listed on the STAR Board and the ChiNext.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.

## Benchmark

The Fund's performance should be assessed against its target benchmark, being to exceed the MSCI Emerging Markets (Net TR) index and compared against the MSCI Emerging Market Value (net TR) index. The Fund's investment universe is expected to overlap materially with the components of the target and comparator benchmarks. The comparator benchmark is only included for performance comparison purposes and does not determine how the Investment Manager invests the Fund's assets. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's

portfolio and performance may deviate from the target or comparator benchmarks. The Investment Manager will invest in companies or sectors not included in the target or comparator benchmarks in order to take advantage of specific investment opportunities.

The target benchmark has been selected because it is representative of the type of investments in which the Fund is likely to invest and it is, therefore, an appropriate target in relation to the return that the Fund aims to provide. The comparator benchmark has been selected because the Investment Manager believes that the benchmark is a suitable comparison for performance purposes given the Fund's investment objective and policy.

## Further Information

The Fund is categorised as "Quantitative Equity Fund". QEP stands for Quantitative Equity Products.

## Risk Considerations

### Specific Risk Considerations

Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect are securities trading and clearing linked programmes developed by The Stock Exchange of Hong Kong Limited, Shanghai/Shenzhen Stock Exchanges, Hong Kong Securities Clearing Company Limited and China Securities Depository and Clearing Corporation Limited, with an aim to achieve mutual stock market access between the PRC (excluding Hong Kong, Macau and Taiwan) and Hong Kong. A detailed description of the programmes as well as risks linked thereto can be found in Appendix II of this Prospectus.

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

Risks related to emerging markets investments can be found under "Emerging and Less Developed Markets Securities Risk" in Appendix II of this Prospectus.

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund's investment objective across all Share Classes after fees have been deducted.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are seeking long term growth potential offered through investment in equities.

## Fund Characteristics

|                                                                        |                                               |

| CX Shares                 | Up to 1%                    | None                                    | 0.75%                    |
| D Shares                  | None                        | 1.00%                                   | 1.50%                    |
| E Shares                  | Up to 1%                    | None                                    | 0.375%                   |
| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 0.75%              |
| Z Shares                  | None                        | None                                    | Up to 0.75%              |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 5% is equivalent to 5.263 15% of the Net Asset Value per Share; up to 4% is equivalent to 4.16667% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund QEP Global ESG<sup>1</sup>

## Investment Objective

The Fund aims to provide capital growth and income in excess of the MSCI AC World (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity-related securities of companies worldwide which meet the Investment Manager's sustainability criteria.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in a diversified portfolio of equity and equity-related securities of companies worldwide.

The Fund focuses on companies that have certain "Value" and/or "Quality" characteristics. Value is assessed by looking at indicators such as cash flows, dividends and earnings to identify securities which the Investment Manager believes have been undervalued by the market. Quality is assessed by looking at indicators such as a company's profitability, stability, financial strength and governance

The Fund may invest directly in China B-Shares and China H-Shares and may invest less than 10% of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A-Shares through Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect and shares listed on the STAR Board and the ChiNext.

The Fund maintains a higher overall sustainability score than MSCI AC World (Net TR) index, based on the Investment Manager's rating system. More details on the investment process used to achieve this can be found in the Fund Characteristics section.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

The Fund invests in companies that have good governance practices, as determined by the Investment Manager's rating criteria (please see the Fund Characteristics section for more details).

The Investment Manager may also engage with companies held by the Fund to challenge identified areas of weakness on sustainability issues. More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website [www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures](http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures).

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.

## Benchmark

The Fund's performance should be assessed against its target benchmark, being to exceed the MSCI AC World (Net TR) index and compared against the MSCI World (Net TR) index. The Fund's investment universe is expected to overlap materially with the components of the target and comparator benchmarks. The comparator benchmark is only included for performance comparison purposes and does not determine how the Investment Manager invests the Fund's assets. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the target or comparator benchmarks. The Investment Manager will invest in companies or sectors not included in the target or comparator benchmarks in order to take advantage of specific investment opportunities. The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

The target benchmark has been selected because it is representative of the type of investments in which the Fund is likely to invest, and it is, therefore, an appropriate target in relation to the return that the Fund aims to provide. The comparator benchmark has been selected because the Investment Manager believes that the benchmark is a suitable comparison for performance purposes given the Fund's investment objective and policy.

## Further Information

The Fund is categorised as "Quantitative Equity Fund". QEP stands for Quantitative Equity Products.

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Specific Risk Considerations

Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect are securities trading and clearing linked programmes developed by The Stock Exchange of Hong Kong Limited, Shanghai/Shenzhen Stock Exchanges, Hong Kong Securities Clearing Company Limited and China Securities Depository and Clearing Corporation Limited, with an aim to achieve mutual stock market access between the PRC (excluding Hong Kong, Macau and Taiwan) and Hong Kong. A detailed description of the programmes as well as risks linked thereto can be found in Appendix II of this Prospectus.

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund's investment objective across all Share Classes after fees have been deducted.

<sup>1</sup> ESG means Environmental, Social and Governance

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). A Fund with these characteristics may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As Investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not

reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

### Profile of the Typical Investor

The Fund may be suitable for Investors who are seeking long term growth potential offered through investment in equities.

### Fund Characteristics

|                                                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                    |

| PEA / PIR Eligibility                                                  | No                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| Sustainability Criteria                                                | <p>The Investment Manager applies sustainability criteria when selecting investments for the Fund.</p> <p>Companies in the investment universe are assessed on their governance, environmental and social profile, across a wide range of underlying measures. The Investment Manager will then decide whether a company is eligible for inclusion in the Fund, based on its sustainability profile. The sustainability characteristics of a company can also impact the sizing of positions in the Fund.</p> <p>Within governance, criteria assessed include risk to shareholders, business oversight, accounting risk and dividend policy. Environmental considerations include climate change related risks alongside broader environmental impact and opportunities. Social criteria reflects areas such as business involvement, safety, employee welfare, supply chain management and data privacy.</p> <p>The primary sources of information include fundamental accounting data, Schroders' proprietary sustainability tools and third-party ESG data.</p> <p>The Investment Manager ensures that at least 90% of companies in the Fund's portfolio are rated against the sustainability criteria. As a result of the application of sustainability criteria, the portfolio exhibits a higher overall sustainability score than its investment universe after the bottom-rated 20% of stocks within the investment universe are excluded.</p> <p>For the purposes of this test, the potential investment universe is the core universe of issuers that the Investment Manager may select for the Fund prior to the application of sustainability criteria, in accordance with the other limitations of the Investment Objective and Policy. This universe is comprised of equity and equity-related securities of companies worldwide.</p> |

| D Shares                  | N/A                         | N/A                                     | N/A                      |
| E Shares                  | N/A                         | N/A                                     | N/A                      |
| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 0.65%              |
| Z Shares                  | None                        | None                                    | Up to 0.65%              |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>3</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 5% is equivalent to 5.263 15% of the Net Asset Value per Share; up to 4% is equivalent to 4.16667% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>4</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund QEP Global ESG ex Fossil Fuels

## Investment Objective

The Fund aims to provide capital growth in excess of the MSCI AC World ex Energy (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity related securities of companies worldwide which meet the Investment Manager's sustainability criteria, excluding companies that derive any revenues from fossil fuels and excluding companies with fossil fuel reserves.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in a diversified portfolio of equity and equity related securities of companies worldwide, excluding companies that derive any revenues from fossil fuels (including but not limited to fossil fuel production, refining and transportation and power generation) and companies with fossil fuel reserves.

The Fund focuses on companies that have certain "Value" and/or "Quality" characteristics. Value is assessed by looking at indicators such as cash flows, dividends and earnings to identify securities which the Investment Manager believes have been undervalued by the market. Quality is assessed by looking at indicators such as a company's profitability, stability, financial strength and governance.

The Fund may invest directly in China B-Shares and China H Shares and may invest less than 10% of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A Shares through Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect and shares listed on the STAR Board and the ChiNext.

The Fund maintains a higher overall sustainability score than MSCI AC World ex Energy (Net TR) index, based on the Investment Manager's rating system. More details on the investment process used to achieve this can be found in the Fund Characteristics section.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc) which includes companies that generate any revenue from fossil fuel.

The Fund invests in companies that have good governance practices, as determined by the Investment Manager's rating criteria (please see the Fund Characteristics section for more details).

The Investment Manager may also engage with companies held by the Fund to challenge identified areas of weakness on sustainability issues. More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website [www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures](http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures).

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.

## Benchmark

The Fund's performance should be assessed against its target benchmark, being to exceed the MSCI AC World ex Energy (Net TR) index. The Fund's investment universe is expected to overlap materially with the components of the target benchmark. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the target benchmark. The Investment Manager will invest in companies or sectors not included in the target benchmark in order to take advantage of specific investment opportunities. The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund. The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

The target benchmark has been selected because it is representative of the type of investments in which the Fund is likely to invest and it is, therefore, an appropriate target in relation to the return that the Fund aims to provide.

## Further Information

The Fund is categorised as "Quantitative Equity Fund". QEP stands for Quantitative Equity Products.

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Specific Risk Considerations

Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect are securities trading and clearing linked programmes developed by The Stock Exchange of Hong Kong Limited, Shanghai/Shenzhen Stock Exchanges, Hong Kong Securities Clearing Company Limited and China Securities Depository and Clearing Corporation Limited, with an aim to achieve mutual stock market access between the PRC (excluding Hong Kong, Macau and Taiwan) and Hong Kong. A detailed description of the programmes as well as risks linked thereto can be found in Appendix II of this Prospectus.

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund's investment objective across all Share Classes after fees have been deducted.

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). A Fund with these characteristics may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability

criteria chosen by the Investment Manager. As Investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are seeking long term growth potential offered through investment in equities.

| PEA / PIR Eligibility                                                  | No                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |
| Sustainability Criteria                                                | <p>The Investment Manager applies sustainability criteria when selecting investments for the Fund.</p> <p>Companies in the investment universe are assessed on their governance, environmental and social profile, across a wide range of underlying measures. The Investment Manager will then decide whether a company is eligible for inclusion in the Fund, based on its sustainability profile. The sustainability characteristics of a company can also impact the sizing of positions in the Fund.</p> <p>Within governance, criteria assessed include risk to shareholders, business oversight, accounting risk and dividend policy. Environmental considerations include climate change related risks alongside broader environmental impact and opportunities. Social criteria reflects areas such as business involvement, safety, employee welfare, supply chain management and data privacy.</p> <p>The primary sources of information include fundamental accounting data, Schroders' proprietary sustainability tools and third-party ESG data.</p> <p>The Investment Manager ensures that at least 90% of companies in the Fund's portfolio are rated against the sustainability criteria. As a result of the application of sustainability criteria, the portfolio exhibits a higher overall sustainability score than its investment universe after the bottom-rated 20% of stocks within the investment universe are excluded.</p> <p>For the purposes of this test, the potential investment universe is the core universe of issuers that the Investment Manager may select for the Fund prior to the application of sustainability criteria, in accordance with the other limitations of the Investment Objective and Policy. This universe is comprised of equity and equity-related securities of companies worldwide.</p> |

| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 0.65%              |
| Z Shares                  | None                        | None                                    | Up to 0.65%              |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 3% is equivalent to 3.092 78% of the Net Asset Value per Share; up to 2% is equivalent to 2.04081% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund QEP Global Quality

## Investment Objective

The Fund aims to provide capital growth and income in excess of the MSCI AC World (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity-related securities of companies worldwide.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in a diversified portfolio of equity and equity-related securities of companies worldwide.

The Fund focuses on companies that have certain "Quality" characteristics. Quality is assessed by looking at indicators such as a company's profitability, stability, financial strength, governance and growth.

The Fund may invest directly in China B-Shares and China H-Shares and may invest less than 10% of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A-Shares through Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect and shares listed on the STAR Board and the ChiNext.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.

The Fund maintains a higher overall sustainability score than MSCI AC World (Net TR) index, based on the Investment Manager's rating system. More details on the investment process used to achieve this can be found in the Fund Characteristics section.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

## Benchmark

The Fund's performance should be assessed against its target benchmark, being to exceed the MSCI AC World (Net TR) index and compared against the MSCI World (Net TR) index. The Fund's investment universe is expected to overlap materially with the components of the target and comparator benchmarks. The comparator benchmark is only included for performance comparison purposes and does not determine how the Investment Manager invests the Fund's assets. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the target or comparator benchmarks. The Investment Manager will invest in companies or sectors not included in the target or comparator benchmarks in order to take advantage of specific investment opportunities. The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

The target benchmark has been selected because it is representative of the type of investments in which the Fund is likely to invest, and it is, therefore, an appropriate target in relation to the return that the Fund aims to provide. The comparator benchmark has been selected because the Investment Manager believes that the benchmark is a suitable comparison for performance purposes given the Fund's investment objective and policy.

## Further Information

The Fund is categorised as "Quantitative Equity Fund". QEP stands for Quantitative Equity Products.

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Specific Risk Considerations

Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect are securities trading and clearing linked programmes developed by The Stock Exchange of Hong Kong Limited, Shanghai/Shenzhen Stock Exchanges, Hong Kong Securities Clearing Company Limited and China Securities Depository and Clearing Corporation Limited, with an aim to achieve mutual stock market access between the PRC (excluding Hong Kong, Macau and Taiwan) and Hong Kong. A detailed description of the programmes as well as risks linked thereto can be found in Appendix II of this Prospectus.

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund's investment objective across all Share Classes after fees have been deducted.

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). A Fund with these characteristics may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As Investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are seeking long term growth potential offered through investment in equities.

## Fund Characteristics

| Sustainability Criteria                                                | <p>The Investment Manager applies governance and sustainability criteria when selecting investments for the Fund. Companies in the investment universe are assessed on their governance, environmental and social profile, across a wide range of underlying measures. The Investment Manager will take into account an assessment of the sustainability profile of companies when determining position sizing within the portfolio.</p> <p>Within governance, criteria assessed include risk to shareholders, business oversight, accounting risk and dividend policy. Environmental considerations include climate change related risks alongside broader environmental impact and opportunities. Social criteria reflects areas such as business involvement, safety, employee welfare, supply chain management and data privacy.</p> <p>The primary sources of information include fundamental accounting data, Schroders' proprietary sustainability tools and third-party ESG data.</p> <p>More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website <a href="http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures">www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures</a>.</p> <p>The Investment Manager ensures that at least:</p> <ul style="list-style-type: none"> <li>- 90% of equities issued by large companies domiciled in developed countries; fixed or floating rate securities and money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries; and</li> <li>- 75% of equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies; fixed or floating rate securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging countries,</li> </ul> <p>held in the Fund's portfolio are rated against the sustainability criteria. For the purposes of this test, small companies are those with market capitalisation below €5 billion, medium companies are those between €5 billion and €10 billion and large companies are those above €10 billion.</p> |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 5% is equivalent to 5.263 15% of the Net Asset Value per Share; up to 4% is equivalent to 4.16667% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund Securitised Credit

## Investment Objective

The Fund aims to provide income and capital growth of ICE BofA 3 Month US Treasury Bill Index +2%, before fees have been deducted\* over a three to five year period by investing in securitised assets issued by entities worldwide.

\*For the target return after fees for each Share Class please visit the Schroder website: <https://www.schroders.com/en/lu/private-investor/investing-with-us/after-fees-performance-targets/>

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in fixed and floating rate securitised investments including but not limited to asset-backed securities (ABS), residential mortgage-backed securities (MBS) and commercial mortgage-backed securities (CMBS). The Fund may also invest in collateralised loan obligations (CLOs).

The Fund may invest up to 100% of its assets in ABS, MBS and CMBS issued worldwide with an investment grade and sub-investment grade credit rating (as measured Standard & Poor's or any equivalent grade of other credit rating agencies for rated securities and implied Schroders ratings for non-rated securities). Underlying assets of the asset-backed securities may include credit card receivables, personal loans, auto loans, transportation finance and small business loans.

The Fund may invest up to 30% of its assets in securities with a sub-investment grade credit rating (as measured Standard & Poor's or any equivalent grade of other credit rating agencies for rated securities and implied Schroders ratings for non-rated securities).

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.

The Investment Manager assesses the sustainability credentials of potential investments using a proprietary tool. The Fund only invests in assets deemed above a minimum threshold based on the Investment Manager's rating system.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

## Benchmark

The Fund's performance should be assessed against its target benchmark of ICE BofA 3 Month US Treasury Bill Index +2% and compared against the ICE BofA Merrill Lynch

US Floating Rate Asset Backed Securities index. The comparator benchmark is only included for performance comparison purposes and does not determine how the Investment Manager invests the Fund's assets. Whilst the Fund's investments are generally expected to deviate significantly from the components of the comparator benchmark, dependent on the Investment Manager's views, the Fund's investments may overlap with them. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the comparator benchmark. The Investment Manager will invest in companies or sectors not included in the comparator benchmark.

The target benchmark has been selected because the target return of the Fund is to deliver or exceed the return of that benchmark as stated in the investment objective. The comparator benchmark has been selected because the Investment Manager believes that the benchmark is a suitable comparison for performance purposes given the Fund's investment objective and policy.

The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

## Further Information

The Fund is categorised as "Specialist Bond Fund".

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Specific Risk Considerations

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). A Fund with these characteristics may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are seeking to combine capital growth opportunities with income in the relative stability of the debt markets over the long term.

| Sustainability Criteria                                                | <p>The Investment Manager applies governance and sustainability criteria when selecting investments for the Fund. The strategy aims to identify securities offering good or improving sustainability characteristics and credentials.</p> <p>The Investment Manager seeks to avoid, penalize or exclude collateral, structures or agents that impose a high cost on the environment and society, or those that lack acceptable governance.</p> <p>This involves:</p> <ul style="list-style-type: none"> <li>- The exclusion of sectors, assets or collateral, that the Investment Manager deems impose material uncompensated costs to the environment and those that impose unjustifiable social costs; and</li> <li>- The inclusion of securities that evidence improvements to existing assets, lending conditions or governance based on the Investment Manager's rating methodology.</li> </ul> <p>Securities are ranked across Environmental, Social and Governance factors using a scorecard system and are awarded points on a 100-point /100 percent scale. These scores are then translated into a scoring system of 1 star – 5 stars, with a score of 5-stars deemed the highest.</p> <p>The Investment Manager ensures that at least 80% of the assets in the Fund are ranked in the top 3 Sustainability categories (3, 4, 5-stars) and will invest 100% of its assets in those ranked 2-stars or higher.</p> <p>The primary sources of information used to perform the analysis are the Investment Manager's proprietary tools, surveys, ESG questionnaires, public information, securitization filings and third-party research.</p> |

| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 0.35%              |
| Z Shares                  | None                        | None                                    | Up to 0.35%              |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>1</sup> Different subscription and redemption procedures may apply if applications are made through Distributors.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 3% is equivalent to 3.092 78% of the Net Asset Value per Share; up to 2% is equivalent to 2.04081% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund Short Duration Dynamic Bond

## Investment Objective

The Fund aims to provide an absolute return after fees have been deducted by investing in fixed and floating rate securities. Absolute return means the Fund seeks to provide a positive return over a 12-month period in all market conditions, but this cannot be guaranteed and your capital is at risk.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in fixed and floating rate securities in various currencies issued by governments, government agencies, supra-nationals and companies worldwide.

The Fund invests in derivatives to take long or short exposures to credit markets, interest rates, foreign exchange, volatility and to various sectors within these markets. The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.

The Fund may invest:

- up to 50% of its assets in non-investment grade instruments (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies);
- up to 40% of its assets in asset-backed securities and mortgage-backed securities; and
- up to 10% of its assets in contingent convertible bonds.

The Fund may invest in mainland China through Regulated Markets (including the CIBM via Bond Connect or CIBM Direct).

The Fund may invest in asset-backed securities, commercial mortgage-backed securities, and/or residential mortgage-backed securities issued worldwide with an investment grade or sub-investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies). Underlying assets may include credit card receivables, personal loans, auto loans, small business loans, leases, commercial mortgages and residential mortgages.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

## Benchmark

The Fund's performance should be assessed against its objective of providing a positive return over a 12-month period in all market conditions and compared against the

Euro Short Term Rate. The comparator benchmark is only included for performance comparison purposes and does not determine how the Investment Manager invests the Fund's assets.

The target benchmark has been selected because the target return of the Fund is to deliver the return of that benchmark as stated in the investment objective. The comparator benchmark has been selected because the Investment Manager believes that the benchmark is a suitable comparison for performance purposes given the Fund's investment objective and policy.

## Further Information

The Fund is categorised as "Specialist Bond Fund".

## Risk Considerations

### Risk Management Method

Absolute Value-at-Risk (VaR)

### Expected Leverage

500% of the total net assets. The expected level of leverage may be higher when volatility decreases sustainably, when interest rates are expected to change or when credit spreads are expected to widen or tighten.

### This Fund is not a leveraged financial instrument

The Fund utilises financial derivative instruments for investment purposes and the global exposure is monitored under the absolute VaR approach in line with UCITS Risk Measurement Rules. Whilst these instruments generate leverage, the Fund itself is not a leveraged financial instrument as further described in the MIFID Directive. For further details on the absolute VaR approach please see Appendix 1. In addition to this regulatory restriction, Schroders implements internal controls on global exposure to constrain and/or highlight global exposure as appropriate.

### Specific Risk Considerations

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund's investment objective across all Share Classes after fees have been deducted.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are seeking to combine capital growth opportunities with income in the relative stability of the debt markets over the long term.

## Fund Characteristics

|                      |                                        |

| CX Shares                 | Up to 1%                    | None                                    | 0.30%                    |
| D Shares                  | None                        | 1.00%                                   | 0.50%                    |
| E Shares                  | Up to 1%                    | None                                    | 0.25%                    |
| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 0.30%              |
| Z Shares                  | None                        | None                                    | Up to 0.30%              |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>1</sup> Different subscription and redemption procedures may apply if applications are made through Distributors.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 3% is equivalent to 3.09278% of the Net Asset Value per Share; up to 2% is equivalent to 2.04081% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund Smart Manufacturing

## Investment Objective

The Fund aims to provide capital growth by investing in equity and equity related securities of companies worldwide which the Investment Manager believes will benefit from the latest industrial innovation techniques.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of companies worldwide.

Smart Manufacturing typically means the application of the latest industrial innovation techniques to address the market needs and supply chain challenges of manufacturing and related sectors such as distribution, logistics and transportation. The Investment Manager seeks to invest in companies that it believes will enjoy superior growth through their exposure to these innovations.

The Fund may invest directly in China B-Shares and China H-Shares and may invest less than 10% of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A-Shares through Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect and shares listed on the STAR Board and the ChiNext.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives with the aim of reducing risk or managing the Fund more efficiently.

The Fund maintains a higher overall sustainability score than the MSCI AC World (Net TR) index based on the Investment Manager's rating criteria. More details on the investment process used to achieve this can be found in the Fund Characteristics section.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

## Benchmark

The Fund does not have a target benchmark. The Fund's performance should be compared against the MSCI AC World (Net TR) index. The comparator benchmark is only included for performance comparison purposes and does not determine how the Investment Manager invests the Fund's assets. The Fund's investment universe is expected to overlap materially with the components of the comparator benchmark. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may

deviate from the comparator benchmark. The Investment Manager will invest in companies or sectors not included in the comparator benchmark.

The comparator benchmark has been selected because the Investment Manager believes that the benchmark is a suitable comparison for performance purposes given the Fund's investment objective and policy.

The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

## Further Information

The Fund is categorised as a "Specialist Equity Fund".

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Specific Risk Considerations

Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect are securities trading and clearing linked programmes developed by The Stock Exchange of Hong Kong Limited, Shanghai/Shenzhen Stock Exchanges, Hong Kong Securities Clearing Company Limited and China Securities Depository and Clearing Corporation Limited, with an aim to achieve mutual stock market access between the PRC (excluding Hong Kong, Macau and Taiwan) and Hong Kong. A detailed description of the programmes as well as risks linked thereto can be found in Appendix II of this Prospectus.

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). A Fund with these characteristics may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As Investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are more concerned with maximising long-term returns than minimising possible short term losses.

## Fund Characteristics

| Sustainability Criteria                                                | <p>The Investment Manager applies governance and sustainability criteria when selecting investments for the Fund.</p> <p>The Investment Manager evaluates issuers against a range of environmental, social and governance factors in order to decide whether an issuer is eligible for the Fund's portfolio. This analysis is performed by global sector specialists and local analyst teams and is supported by Schroders' dedicated Sustainable Investment team. The Investment Manager uses Schroders' proprietary sustainability tools to provide a baseline assessment that contributes to the overall ESG appraisal of a company. Additionally, meetings with company management inform the Investment Manager's view, providing further insights on corporate culture and senior management commitment to corporate social responsibility, with third party ESG research used primarily as a benchmarking exercise to confirm proprietary analysis.</p> <p>More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website <a href="http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures">www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures</a>.</p> <p>The Investment Manager ensures that at least:</p> <ul style="list-style-type: none"> <li>- 90% of equities issued by large companies domiciled in developed countries; fixed or floating rate securities and money market instruments with an investment grade credit rating; and sovereign debt issued by developed countries; and</li> <li>- 75% of equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies; fixed or floating rate securities and money market instruments with a high yield credit rating; and sovereign debt issued by emerging countries,</li> </ul> <p>held in the Fund's portfolio are rated against the sustainability criteria. For the purposes of this test, small companies are those with market capitalisation below €5 billion, medium companies are those between €5 billion and €10 billion and large companies are those above €10 billion.</p> |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

<sup>1</sup> Different subscription and redemption procedures may apply if applications are made through Distributors.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 3% is equivalent to 3.092 78% of the Net Asset Value per Share; up to 2% is equivalent to 2.04081% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

# Schroder International Selection Fund Social Impact Credit

## Investment Objective

The Fund aims to provide capital growth by investing in fixed and floating rate securities issued by governments, government agencies, supra nationals and companies worldwide which help to advance social development and which the Investment Manager deems to be sustainable investments.

## Investment Policy

The Fund is actively managed and invests at least 75% of its assets in sustainable investments, which are investments that the investment manager expects to contribute positively towards social development themes. These themes may include but are not limited to:

- Sustainable Infrastructure (such as connectivity, sustainable power and clean water)
- Economic Inclusion (such as training, gender equality, workforce diversity, access to finance and quality work)
- Health and Wellbeing (such as medicine and healthcare services)

The Investment Manager will select investments for the Fund from a universe of eligible companies that have been determined as meeting the Investment Manager's sustainability criteria. The criteria include an assessment of the company's contribution to social impact themes, which themselves align with UN SDGs. This means that the extent to which companies deliver a direct or indirect positive impact on society together with the impact that these actions may have on a company's value are considered in the assessment of the Fund's investments. The Fund may also invest in social and sustainability bonds, which are bonds that are specifically designed to address social challenges. Please see the Fund Characteristics section for more details.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

The Fund invests in companies that do not cause significant environmental or social harm and have good governance practices, as determined by the Investment Manager's rating criteria (please see the Fund Characteristics section for more details).

The Fund may invest in issuers that the Investment Manager believes will improve their sustainability practices within a reasonable timeframe, typically up to two years.

The Investment Manager may also engage with issuers held by the Fund to challenge identified areas of weakness on sustainability issues. More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website [www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures](http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures).

The Fund invests at least two-thirds of its assets in a range of fixed and floating rate securities issued by governments, government agencies, supra-nationals and companies worldwide.

The Fund may invest:

- up to 60% of its assets in securities that have a below investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies for rated bonds and implied Schroders ratings for non-rated bonds);
- up to 30% of its assets in convertible bonds including up to 10% of its assets in contingent convertible bonds; and
- up to 20% of its assets in asset-backed securities and mortgage-backed securities.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.

## Benchmark

The Fund does not have a target benchmark. The Fund's performance should be compared against the Barclays Multiverse ex Treasury A+ to B-, USD Hedged index. The comparator benchmark is only included for performance comparison purposes and does not determine how the Investment Manager invests the Fund's assets. The Fund's investment universe is expected to overlap to a limited extent with the components of the comparator benchmark. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the comparator benchmark. The Investment Manager will invest in companies or sectors not included in the comparator benchmark. The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund. The comparator benchmark has been selected because the Investment Manager believes that the benchmark is a suitable comparison for performance purposes given the Fund's investment objective and policy.

## Further Information

The Fund is categorised as "Specialist Bond Fund".

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Specific Risk Considerations

A detailed description of the risks linked to contingent convertible bonds, below-investment grade securities, asset-backed securities and mortgage-backed securities can be found in Appendix II of this Prospectus.

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The Fund has the objective of sustainable investment (within the meaning of Article 9 SFDR). A Fund with this objective may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As Investors may differ in their views of what constitutes sustainable investing, the Fund may also

invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

### Profile of the Typical Investor

The Fund may be suitable for Investors who are more concerned with maximising long term returns than minimising possible short term losses.

## Fund Characteristics

|                                                                        |                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                 |

| PEA / PIR Eligibility                                                  | No                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                              |
| Sustainability Criteria                                                | <p>The Investment Manager applies sustainability criteria when selecting investments for the Fund.</p> <p>The Investment Manager applies an initial screen to exclude certain activities, industries or groups from the universe of potential investments. For issuers to be deemed eligible for investment they are then assessed under various social criteria, metrics and objectives. This process has been defined and agreed by a team of specialists consisting of members of Schroders' sustainable investments team, sustainable credit specialists, portfolio managers and credit analysts from the Global Credit team. The process is reviewed regularly to adjust for new sustainability developments globally.</p> <p>The process will use a framework consisting of key questions including whether, based on the Investment manager's sustainability criteria, a company makes a positive or negative contribution to society, the level of commitment of management towards a positive contribution, treatment of employees and whether its practices may cause significant environmental damage.</p> <p>The Investment Manager will then decide whether a company is eligible for inclusion in the Fund's portfolio.</p> <p>The sources of information used to perform the analysis include information provided by the companies, such as company sustainability reports and other relevant company material, as well as Schroders' proprietary sustainability tools and third-party data.</p> <p>The Investment Manager ensures that at least 90% of companies in the Fund's portfolio are rated against the sustainability criteria. As a result of the application of sustainability criteria, at least 20% of the Fund's potential investment universe is excluded from the selection of investments.</p> <p>For the purposes of this test, the potential investment universe is the core universe of issuers that the Investment Manager may select for the Fund prior to the application of sustainability criteria, in accordance with the other limitations of the Investment Objective and Policy. This universe is comprised of fixed and floating rate securities issued by companies worldwide. The universe (for the purpose of this test only) does not include fixed or floating rate securities issued by public or quasi-public issuers.</p> |

<sup>1</sup> Different subscription and redemption procedures may apply if applications are made through Distributors.

| CN Shares                 | Up to 3%                    | None                                    | 0.45%                    |
| CX Shares                 | Up to 1%                    | None                                    | 0.45%                    |
| D Shares                  | None                        | 1.00%                                   | 0.75%                    |
| E Shares                  | Up to 1%                    | None                                    | 0.225%                   |
| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 0.45%              |
| IE Shares                 | None                        | None                                    | Up to 0.45%              |
| Z Shares                  | None                        | None                                    | Up to 0.45%              |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 3% is equivalent to 3.09278% of the Net Asset Value per Share; up to 2% is equivalent to 2.04081% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund Strategic Bond

## Investment Objective

The Fund aims to provide an absolute return after fees have been deducted by investing in fixed and floating rate securities. Absolute return means the Fund seeks to provide a positive return over a 12-month period in all market conditions, but this cannot be guaranteed and your capital is at risk.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in fixed and floating rate securities in various currencies issued by governments, government agencies, supra-nationals and companies worldwide.

The Fund may invest:

- up to 10% of its assets in contingent convertible bonds;
- up to 50% of its assets in securities with a non-investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies); and
- up to 100% of its assets in asset-backed securities, commercial mortgage-backed securities, and/or residential mortgage-backed securities issued worldwide with an investment grade or sub-investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies). Underlying assets may include credit card receivables, personal loans, auto loans, small business loans, leases, commercial mortgages and residential mortgages.

The Fund may invest in mainland China through Regulated Markets (including the CIBM via Bond Connect or CIBM Direct).

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives, long and short, with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.

## Benchmark

The Fund's performance should be assessed against its objective of providing a positive return over a 12-month period in all market conditions and compared against the ICE BofA US 3 Month Treasury Bill Index. The comparator benchmark is only included for performance comparison purposes and does not determine how the Investment Manager invests the Fund's assets.

The target benchmark has been selected because the target return of the Fund is to deliver the return of that benchmark as stated in the investment objective. The comparator benchmark has been selected because the Investment Manager believes that the benchmark is a suitable comparison for performance purposes given the Fund's investment objective and policy.

## Further Information

The Fund is categorised as "Specialist Bond Fund".

## Risk Considerations

### Risk Management Method

Absolute Value-at-Risk (VaR)

### Expected Leverage

900% of the total net assets

In order to implement an efficiently diversified set of strategies (such as country, yield curve, credit and currency strategies) and to achieve a risk target that is consistent with the Fund's risk profile, the Fund will use derivatives that may generate a higher level of leverage.

Although the Fund uses derivatives for investment purposes, which can increase the Fund's level of risk, it also uses derivatives within a portfolio construction process that is focused on diversifying strategies and managing risk correlation, which can contribute to reducing the Fund's level of risk. In general the Fund uses derivatives for investment purposes and managing risk correlation, in equal measure.

Some of the strategies will rely on instruments that require a substantial level of gross leverage to generate a limited amount of risk, such as short-dated interest rate contracts. Also, derivatives used within the long and short strategies may generate a high level of gross leverage but a reduced level of net leverage.

The expected level of leverage may be higher when volatility decreases sustainably, when interest rates are expected to change or when credit spreads are expected to widen or tighten.

### This Fund is not a leveraged financial instrument

The Fund utilises financial derivative instruments for investment purposes and the global exposure is monitored under the absolute VaR approach in line with UCITS Risk Measurement Rules. Whilst these instruments generate leverage, the Fund itself is not a leveraged financial instrument as further described in the MIFID Directive. For further details on the absolute VaR approach please see Appendix 1. In addition to this regulatory restriction, Schroders implements internal controls on global exposure to constrain and/or highlight global exposure as appropriate.

### Specific Risk Considerations

The Fund uses significant leverage through financial derivative instruments, which will magnify both gains and losses on its investments and result in greater fluctuations of its Net Asset Value. This significantly increases the risk of the Fund compared to an unleveraged fund. Leverage occurs when the overall economic exposure of the Fund exceeds its amount of assets invested.

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund's investment objective across all Share Classes after fees have been deducted.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are seeking to combine capital growth opportunities with income in the relative stability of the debt markets over the long term.

## Fund Characteristics

|                                                                        |                                               |

## General Share Class Features

| Share Classes             | Initial Charge <sup>2</sup> | Annual Distribution Charge <sup>3</sup> | Annual Management Charge |
|---------------------------|-----------------------------|-----------------------------------------|--------------------------|
| A Shares                  | Up to 3%                    | None                                    | 1.00%                    |
| AX Shares                 | Up to 3%                    | None                                    | 1.00%                    |
| A1 Shares                 | Up to 2%                    | 0.50%                                   | 1.00%                    |
| B Shares                  | None                        | 0.50%                                   | 1.00%                    |
| C Shares                  | Up to 1%                    | None                                    | 0.60%                    |
| CN Shares                 | Up to 3%                    | None                                    | 0.60%                    |
| CX Shares                 | Up to 1%                    | None                                    | 0.60%                    |
| D Shares                  | None                        | 1.00%                                   | 1.00%                    |
| E Shares                  | Up to 1%                    | None                                    | 0.30%                    |
| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 0.60%              |
| Z Shares                  | None                        | None                                    | Up to 0.60%              |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>1</sup> Different subscription and redemption procedures may apply if applications are made through Distributors.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 3% is equivalent to 3.092 78% of the Net Asset Value per Share; up to 2% is equivalent to 2.04081% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund Strategic Credit

## Investment Objective

The Fund aims to provide capital growth and income in excess of ICE BofA Sterling 3-Month Government Bill Index after fees have been deducted over a three to five year period by investing in fixed and floating rate securities issued by companies worldwide.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in fixed and floating rate securities issued by governments, government agencies, supra-nationals and companies worldwide.

The Fund may invest up to 100% of its assets in securities with a below investment grade credit rating (as measured by Standard & Poor's or any equivalent grade of other credit rating agencies).

The Fund may also seek up to 25% exposure to convertible bonds and bonds with warrants. The exposure to convertible bonds includes up to 10% in contingent convertible bonds.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may also invest in derivatives to create long and short exposure to the underlying assets of these derivatives. The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.

The Fund maintains a positive absolute sustainability score, based on the Investment Manager's rating system. More details on the investment process used to achieve this can be found in the Fund Characteristics section

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

## Benchmark

The Fund's performance should be assessed against its target benchmark, being to exceed ICE BofA Sterling 3-Month Government Bill Index. The Investment Manager invests on a discretionary basis and is not limited to investing in accordance with the composition of a benchmark.

The target benchmark has been selected because the target return of the Fund is to deliver or exceed the return of that benchmark as stated in the investment objective.

The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

## Further Information

The Fund is categorised as "Specialist Bond Fund".

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Risk Management Method

Absolute Value-at-Risk (VaR)

### Expected Leverage

150% of the total net assets

The expected level of leverage may be higher when there is unusually high or low volatility.

### This Fund is not a leveraged financial instrument

The Fund utilises financial derivative instruments for investment purposes and the global exposure is monitored under the absolute VaR approach in line with UCITS Risk Measurement Rules. Whilst these instruments generate leverage, the Fund itself is not a leveraged financial instrument as further described in the MIFID Directive. For further details on the absolute VaR approach please see Appendix 1. In addition to this regulatory restriction, Schroders implements internal controls on global exposure to constrain and/or highlight global exposure as appropriate.

### Specific Risk Considerations

The Fund will make use of credit derivative instruments to seek exposure to global credit markets. This may lead to a higher volatility in the price of the Shares and may imply increased counterparty risk.

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). A Fund with these characteristics may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As Investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund's investment objective across all Share Classes after fees have been deducted.

## Profile of the Typical Investor

The Fund may be suitable for Investors who are seeking to combine capital growth opportunities with income in the relative stability of the debt markets over the long term.

## Fund Characteristics

| PEA / PIR Eligibility                                                  | No                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                                         |
| Sustainability Criteria                                                | <p>The Investment Manager applies governance and sustainability criteria when selecting investments for the Fund.</p> <p>The strategy aims to identify issuers demonstrating good or improving sustainability credentials, and those that impose a high cost on the environment and society. This involves:</p> <ul style="list-style-type: none"> <li>- The exclusion of issuers that the Investment Manager deems to have businesses that are materially damaging to the climate and impose unjustifiable social costs.</li> <li>- The inclusion of issuers that demonstrate stable and improving sustainability trajectories, and issuers demonstrating good governance based on the Investment Manager's sustainability rating methodology.</li> </ul> <p>The Investment Manager may also engage with companies to encourage transparency, the transition to a circular economy with lower carbon emissions intensity and responsible social behaviour that promotes sustainable growth and alpha generation.</p> <p>The primary sources of information used to perform the analysis are the Investment Manager's proprietary tools and research, third-party research, NGO reports and expert networks. The Investment Manager also performs its own analysis of publicly available information provided by the companies, including information provided in company sustainability reports and other relevant company material.</p> <p>More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website <a href="http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures">www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures</a>.</p> <p>The Investment Manager ensures that at least:</p> <ul style="list-style-type: none"> <li>- 90% of fixed or floating rate securities and money market instruments with an investment grade credit rating; sovereign debt issued by developed countries; and equities issued by large companies domiciled in developed countries; and</li> <li>- 75% of fixed or floating rate securities and money market instruments with a high yield credit rating; sovereign debt issued by emerging countries equities issued by large companies domiciled in emerging countries; equities issued by small and medium companies,</li> </ul> <p>held in the Fund's portfolio are rated against the sustainability criteria. For the purposes of this test, small companies are those with market capitalisation below €5 billion, medium companies are those between €5 billion and €10 billion and large companies are those above €10 billion.</p> |

| CN Shares                 | Up to 3%                    | None                                    | 0.60%                    |
| CX Shares                 | Up to 1%                    | None                                    | 0.60%                    |
| D Shares                  | None                        | 1.00%                                   | 1.00%                    |
| E Shares                  | Up to 1%                    | None                                    | 0.30%                    |
| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 0.60%              |
| Z Shares                  | None                        | None                                    | Up to 0.60%              |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate. Initial charge of up to 3% is equivalent to 3.092 78% of the Net Asset Value per Share; up to 2% is equivalent to 2.04081% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund Sustainable Asian Equity

## Investment Objective

The Fund aims to provide capital growth in excess of the MSCI AC Asia Pacific ex Japan (Net TR) index after fees have been deducted over a three to five year period by investing in equity and equity related securities of Asia Pacific markets companies which meet the Investment Manager's sustainability criteria.

## Investment Policy

The Fund is actively managed and invests at least two-thirds of its assets in equity and equity related securities of companies in Asia Pacific markets (excluding Japan) or companies which derive a significant proportion of their revenues or profits from the Asia Pacific region.

The Fund maintains a higher overall sustainability score than the MSCI AC Asia Pacific ex Japan (Net TR) index, based on the Investment Manager's rating system. More details on the investment process used to achieve this can be found in the Fund Characteristics section.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

The Fund invests in companies that have good governance practices, as determined by the Investment Manager's rating criteria (please see the Fund Characteristics section for more details).

The Investment Manager may also engage with companies held by the Fund to challenge identified areas of weakness on sustainability issues. More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website [www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures](http://www.schroders.com/en/lu/private-investor/strategic-capabilities/sustainability/disclosures).

The Fund may invest directly in China B-Shares and China H-Shares and may invest less than 30% of its assets (on a net basis) directly or indirectly (for example via participatory notes) in China A-Shares through:

- Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect;
- the Renminbi Qualified Institutional Investor (RQFII) Scheme;
- shares listed on the STAR Board and the ChiNext; and
- Regulated Markets.

The Fund may also invest up to one-third of its assets directly or indirectly in other securities (including other asset classes), countries, regions, industries or currencies, Investment Funds, warrants and Money Market Investments, and hold cash (subject to the restrictions provided in Appendix I).

The Fund may use derivatives with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently.

## Benchmark

The Fund's performance should be assessed against its target benchmark being to exceed the MSCI AC Asia Pacific ex Japan (Net TR) index and compared against the Morningstar Asia Pacific ex Japan Category. The Fund's investment universe is expected to overlap to a limited extent with the components of the target benchmark. The comparator benchmark is only included for performance comparison purposes and does not determine how the Investment Manager invests the Fund's assets. The Investment Manager invests on a discretionary basis and there are no restrictions on the extent to which the Fund's portfolio and performance may deviate from the target benchmark. The Investment Manager will invest in companies or sectors not included in the target benchmark in order to take advantage of specific investment opportunities.

The target benchmark has been selected because it is representative of the type of investments in which the Fund is likely to invest and it is, therefore, an appropriate target in relation to the return that the Fund aims to provide. The comparator benchmark has been selected because the Investment Manager believes that the benchmark is a suitable comparison for performance purposes given the Fund's investment objective and policy. The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

## Further Information

The Fund is categorised as "Specialist Equity Fund".

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Specific Risk Considerations

Shanghai-Hong Kong Stock Connect and Shenzhen-Hong Kong Stock Connect are securities trading and clearing linked programmes developed by The Stock Exchange of Hong Kong Limited, Shanghai/Shenzhen Stock Exchanges, Hong Kong Securities Clearing Company Limited and China Securities Depository and Clearing Corporation Limited, with an aim to achieve mutual stock market access between the PRC (excluding Hong Kong, Macau and Taiwan) and Hong Kong. A detailed description of the programmes as well as risks linked thereto can be found in Appendix II of this Prospectus.

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

The level of distribution costs in certain jurisdictions may impact the ability of the Investment Manager to meet the Fund's investment objective across all Share Classes after fees have been deducted.

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). A Fund with these characteristics may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As Investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not

reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

### Profile of the Typical Investor

The Fund may be suitable for Investors who are more concerned with maximising long term returns than minimising possible short term losses.

| Sustainability Criteria                                                | <p>The Investment Manager applies sustainability criteria when selecting investments for the Fund.</p> <p>The investable universe is assessed using a number of proprietary tools, as well as external rating services. Companies being considered for investment are assessed on a stakeholder-based approach against criteria including, but not limited to (1) good governance practices; (2) impact on the environment and local communities; and (3) fair and equitable treatment of employees, suppliers and customers.</p> <p>In the portfolio construction process, companies that fall into the bottom quintile based on the Investment Manager's overall sustainability score will not be eligible for inclusion in the first instance. However, if, based on proprietary analysis and ongoing engagement with a company, the Investment Manager believes that the company is taking concrete steps to transition out of business segments that have not met the sustainability criteria or to improve their relevant areas of weakness, the company may be deemed eligible for investment.</p> <p>The Investment Manager ensures that at least 90% of companies in the Fund's portfolio are rated against the sustainability criteria. As a result of the application of sustainability criteria, at least 20% of the Fund's potential investment universe is excluded from the selection of investments.</p> <p>For the purposes of this test, the potential investment universe is the core universe of issuers that the Investment Manager may select for the Fund prior to the application of sustainability criteria, in accordance with the other limitations of the Investment Objective and Policy. This universe is comprised of equity and equity related securities of companies in Asia Pacific markets or companies which derive a significant proportion of their revenues or profits from the Asia Pacific region.</p> |

<sup>1</sup> Different subscription and redemption procedures may apply if applications are made through Distributors.

## General Share Class Features

| CN Shares                 | Up to 3%                    | None                                    | 0.75%                    |
| CX Shares                 | Up to 1%                    | None                                    | 0.75%                    |
| D Shares                  | None                        | 1.00%                                   | 1.50%                    |
| E Shares                  | Up to 1%                    | None                                    | 0.375%                   |
| IZ, IA, IB, IC, ID Shares | None                        | None                                    | Up to 0.75%              |
| Z Shares                  | None                        | None                                    | Up to 0.75%              |

Annual Distribution Charge and Annual Management Charge percentages are stated as an annual charge with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as may be appropriate.

A share class hedging charge of up to 0.03% will be borne by the currency hedged Share Classes.

Not all Share Classes listed are available for subscription at the time of issue of this Prospectus. The Funds may also launch Bespoke Share Classes that are described under Appendix III at the Directors' discretion.

<sup>2</sup> Percentages are stated with reference to the Net Asset Value of the Fund or the Net Asset Value per Share, as maybe appropriate. Initial charge of up to 5% is equivalent to 5.263 15% of the Net Asset Value per Share; up to 4% is equivalent to 4.16667% of the Net Asset Value per Share; up to 1% is equivalent to 1.0101% of the Net Asset Value per Share. The Management Company and Distributors are entitled to the initial charge, which can be partly or fully waived at the Directors' discretion.

<sup>3</sup> Annual Distribution Charges in respect of A1 and D Shares are paid at such intervals as may be agreed from time to time between the Company and those Distributors that are appointed specifically for the purpose of distributing such Shares. Annual Distribution Charges in respect of B Shares are payable quarterly.

# Schroder International Selection Fund Sustainable Conservative

## Investment Objective

The Fund aims to provide capital growth and income of 3 month Euribor +2% per annum before fees have been deducted over a three to five year period. The Fund aims to provide this return with a volatility (a measure of how much the fund's returns vary over rolling 3 year periods) of 3-5% per annum. The Fund aims to achieve the objective by investing in a diversified range of assets and markets worldwide that meet the Investment Manager's sustainability criteria.

\*For the target return after fees for each Share Class please visit the Schroder website: <https://www.schroders.com/en/lu/private-investor/investing-with-us/after-fees-performance-targets/>

## Investment policy

The Fund is actively managed and invests at least two-thirds of its assets directly or indirectly through derivatives in equity and equity-related securities, fixed and floating rate securities issued by governments, government agencies, supra-nationals and companies worldwide and Alternative Asset Classes.

The Fund may invest in sub-investment grade fixed and floating rate securities (being securities with a credit rating below investment grade as measured by Standard & Poor's or any equivalent grade of other credit rating agencies). The exposure to Alternative Asset Classes is taken through eligible assets as described in Appendix III of this Prospectus.

The Fund maintains a higher overall sustainability score than a bespoke asset-weighted blend\* of MSCI World Index (hedged to EUR), MSCI Emerging Market Index (hedged to EUR), Barclays Global Aggregate Corporate Bond Index (hedged to EUR), Barclays Global High Yield excl CMBS & EMD 2% Index (hedged to EUR), ICE BofA US Treasury Index (hedged to EUR), JPM GBI Emerging Market Index - EM Local (hedged to EUR), JPM EMBI Index EM Hard Currency (hedged to EUR), Thomson Reuters Global Convertible Bonds Index (hedged to EUR), based on the Investment Manager's rating system. More details on the investment process used to achieve this can be found in the Fund Characteristics section.\*The blend will evolve over time in line with the actual asset allocation of the Fund.

The Fund does not directly invest in certain activities, industries or groups of issuers above the limits listed under "Sustainability Information" on the Fund's webpage, accessed via [www.schroders.com/en/lu/private-investor/gfc](http://www.schroders.com/en/lu/private-investor/gfc).

The Fund invests in companies that have good governance practices, as determined by the Investment Manager's rating criteria (please see the Fund Characteristics section for more details).

The Investment Manager may also engage with companies held by the Fund to challenge identified areas of weakness on sustainability issues. More details on the Investment Manager's approach to sustainability and its engagement with companies are available on the website [www.schroders.com/en/lu/private-investor/strategic-capabilities-sustainability/disclosures](http://www.schroders.com/en/lu/private-investor/strategic-capabilities-sustainability/disclosures).

The Fund intends to use derivatives (including total return swaps), long and short, with the aim of achieving investment gains, reducing risk or managing the Fund more efficiently. Where the Fund uses total return swaps and contracts for difference, the underlying consists of instruments in which the Fund may invest according to its Investment Objective and Investment Policy. In particular, the aim is to use total return swaps and contracts for difference on a temporary basis in market conditions including but not limited to during periods of expanding global economic growth and rising inflation or elevated geopolitical risk, or when credit spreads are expected to widen such during periods of falling economic growth, rising interest rates or elevated geopolitical risk. Contracts for difference and total return swaps are intended to be used to gain long and short exposure on equity and equity related securities, fixed and floating rate securities and commodity indices. The gross exposure of total return swaps and contracts for difference will not exceed 40% and is expected to remain within the range of 0% to 20% of the Net Asset Value. In certain circumstances this proportion may be higher.

The Fund may (exceptionally) hold up to 100% of its assets in cash and Money Market Investments. This will be limited to a maximum of six months (otherwise the Fund will be liquidated). During this period, the Fund will not fall within the scope of MMFR. The Fund may invest up to 10% of its assets in open-ended Investment Funds.

## Benchmark

The Fund's performance should be assessed against its target benchmark, being 3 month EURIBOR (or an alternative reference rate) plus 2% per annum, and its volatility objective of 3-5% per annum. The Investment Manager invests on a discretionary basis and is not limited to investing in accordance with the composition of a benchmark. The benchmark(s) does/do not take into account the environmental and social characteristics or sustainable objective (as relevant) of the Fund.

The target benchmark has been selected because the target return of the Fund is to deliver or exceed the return of that benchmark as stated in the investment objective.

Schroders is in the process of assessing the potential alternatives to EURIBOR and will notify investors of any decision to move away from EURIBOR in due course.

## Further Information

The Fund is categorised as "Multi-Asset Fund".

More information relating to the environmental and social characteristics or sustainable investment objective (as applicable) of the Fund is provided in Appendix IV in accordance with SFDR and Commission Delegated Regulation (EU) 2022/1288.

## Risk Considerations

### Risk Management Method

Absolute Value-at-Risk (VaR)

### Expected Leverage

180% of the total net assets

The expected level of leverage may be higher when volatility decreases sustainably, when interest rates are expected to change or when credit spreads are expected to widen or tighten.

#### **This Fund is not a leveraged financial instrument**

The Fund utilises financial derivative instruments for investment purposes and the global exposure is monitored under the relative VaR approach in line with UCITS Risk Measurement Rules. Whilst these instruments generate leverage, the Fund itself is not a leveraged financial instrument as further described in the MIFID Directive. For further details on the relative VaR approach please see Appendix 1. In addition to this regulatory restriction, Schroders implements internal controls on global exposure to constrain and/or highlight global exposure as appropriate.

#### **Specific Risk Considerations**

Long and short positions gained through indices, bond and equity total return swaps may increase exposure to credit-related risks.

The reference in the Investment Policy to a fund investing two-thirds of its assets in a certain way applies in normal market conditions. See paragraph (A) at the start of this Appendix for further information.

Risks related to emerging markets investments can be found under “Emerging and Less Developed Markets Securities Risk” in Appendix II of this Prospectus.

As the Fund’s performance is calculated by reference to an IBOR it may be necessary, as a result of these industry initiatives, for the Fund to choose a successor or substitute alternative reference rate as the Fund’s benchmark. As described further under the heading “IBOR Reform” in

Appendix II, even with spreads or other adjustments, IBOR-equivalent alternative reference rates may be only an approximation of the relevant IBOR and may not result in a rate that is the economic equivalent of the specific IBOR. This may result in the Fund not constituting an economically equivalent investment to that which an investor had anticipated at the time it invested in the Fund. Schroders is in the process of assessing the potential alternatives to IBORs and will notify investors in the Fund of the decision in due course.

The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR). A Fund with these characteristics may have limited exposure to some companies, industries or sectors as a result and the Fund may forego certain investment opportunities, or dispose of certain holdings, that do not align with its sustainability criteria chosen by the Investment Manager. As Investors may differ in their views of what constitutes sustainable investing, the Fund may also invest in companies that do not reflect the beliefs and values of any particular Investor. Please refer to Appendix II for more details on sustainability risks.

#### **Profile of the Typical Investor**

The Fund is a low risk fund aiming to provide capital growth. It may be suitable for investors seeking capital growth opportunities whilst also seeking to limit losses to a maximum of 8% over any investment period. It may be suitable for investors who are members of a defined contribution pension plan who wish to have flexibility to take their pension savings as a single lump sum or who wish to drawdown their savings over a period of time. Investors should regard their investment as medium to long-term and should read the risk warnings set out in Appendix II and the Fund's Key Investor Information Document before investing.
