Schroder International Selection Fund Global Bond

A Accumulation USD | Data as at 31.10.2023

Important Information

The fund invests primarily in fixed and floating rate securities.

- The fund invests in debt securities which may be subject to interest rate, credit and counterparty risks and risk relating to below investment grade and unrated debt securities, etc.
 - Investment in sovereign debt obligations which may expose the fund to political, social and economic risks. The fund may suffer significant losses upon defaults by government entities.
 - The fund may invest substantially in European securities and may suffer from adverse economic or financial events in Europe.
 - The fund may invest in mortgage related and other asset backed securities that may be subject to greater interest rate, credit and liquidity risks compared to other debt securities.
 - The fund's active management of currency positions may result in losses if the strategy/technique is not successful.
 - The fund may use derivatives to meet its investment objective. Derivatives exposure may involve higher credit risk and counterparty risk, liquidity risk and valuation risk. In adverse situations, the fund may suffer significant losses from their derivative usage for hedging.
 - For distribution share classes/units, the distribution rate is not guaranteed. Distribution yield is not indicative of the return of the fund.
- Distributions may be paid out of the capital of the fund at the Manager's discretion. This amounts to a return or withdrawal of part of the amount you originally invested or capital gains attributable to that and may result in an immediate decrease in the net asset value per share or decrease in the value of units of the relevant Distribution Units..
- You should not make any investment decision solely based on this document. Please read the relevant offering document carefully for further fund details including risk factors.

Investment Objectives

The Fund aims to provide capital growth and income in excess of the Bloomberg Global Aggregate Bond index after fees have been deducted over a three to five year period by investing in fixed and floating rate securities.

Benchmark and corporate action information

The fund's performance should be assessed against its target benchmark being to exceed the Bloomberg Global Aggregate Bond index. The fund's investment universe is expected to overlap to a limited extent with the components of the target benchmark. However, the fund will likely reflect certain features of the target benchmark (namely credit quality/duration, currency exposure/ exposure to particular issuers). The investment manager invests on a discretionary basis and there are no restrictions on the extent to which the fund's portfolio and performance may deviate from the target benchmark. The investment manager will invest in companies or sectors not included in the target benchmark in order to take advantage of specific investment opportunities. The target benchmark has been selected because it is representative of the type of investments in which the fund is likely to invest and it is, therefore, an appropriate target in relation to the return that the fund aims to provide. The Fund has environmental and/or social characteristics (within the meaning of Article 8 SFDR).

Important information

The fund has environmental and/or social characteristics within the meaning of Article 8 of Regulation (EU) 2019/2088 on Sustainability-related Disclosures in the Financial Services Sector (the "SFDR"). For information on sustainability-related aspects of this fund please go to www.Schroders.com
