

## UBS (Lux) Bond Fund - Full Cycle Asian Bond (USD)

### Important information:

- The Fund primarily invests in debt instruments and claims issued by international and supranational organizations, public and parastatal institutions and companies whose registered offices are in Asia or who are principally active in Asia.
- The Fund invests in certain Asian markets that are classified as 'emerging markets'. Investment in emerging markets suffer from certain risks such as increased risk of expropriation, nationalization and social, political and economic insecurity; acquisition of counterfeit securities by the Fund; low liquidity and high price (and performance) volatility; substantial currency fluctuations; settlement and custody risks; restrictions on the buying of securities by foreign investors; accounting, auditing and reporting standards, methods, practices and disclosures required by companies in emerging markets being different from those in developed markets.
- Investment in below investment grade sovereign securities have higher risks of default and may be subject to greater levels of interest rate, credit and liquidity risk. If such adverse conditions occur, the Fund may incur substantial loss..
- The Fund can invest up to 10% of its assets in bonds with a rating below CCC or with a comparable rating. Investments in below investment grade debt securities may be partially or fully lost under adverse conditions.
- Specifically for the P-mdist share class, the Fund may at the discretion of the Management Company make distributions out of capital or out of gross income while charging/ paying all or part of the Fund's fees and expenses to/ out of capital of the Fund, resulting in an increase in the payment of dividends by the Fund. Payment of dividends out of capital or on a gross-of-fee basis may result in an immediate reduction of the net asset value per share.
- Any distributions from the income and/or involving the Capital result in an immediate reduction of the net asset value per unit of the Sub-Fund. Payment of dividends out of Capital amounts to a return or withdrawal of part of an investor's original investment or from any capital gains attributable to that original investment.
- Investors should not invest in the Fund solely based on this document and should read the relevant offering document.

### Investment objective & strategy

- The fund invests primarily in securities denominated in USD and local currencies issued by Asian economies/borrowers (ex Japan).
- Country selection, credit ratings and interest rate and currency risks are actively managed in order to benefit from market volatility.
