

**IMPORTANT:**

- The Fund's investments in equities could incur significant losses due to higher fluctuation of equity values. The Fund's income-generating investment strategy may reduce the potential for capital growth and future income of the Fund.
- The Fund is subject to currency risk, emerging market risk, foreign investments restrictions risk, small-cap companies' volatility and liquidity risks and currency conversion risk including Renminbi denominated Classes.
- **Class 5(G) Shares** pay dividends gross of expenses. **Class 6 Shares** pay dividends gross of expenses and/or from capital at the Directors' discretion. **Class 8 Shares** pay dividends gross of expenses and/or from capital at the Directors' discretion and include interest rate differentials arising from share class currency hedging. Negative interest rate differentials may decrease the dividends paid. Paying dividends gross of expenses may result in more income being available for distribution; however these shares may effectively pay dividends from capital – may amount to a partial return or withdrawal of an investor's original investment or capital gains. All declared dividends result in an immediate reduction in the NAV price of the share class on the ex-dividend date.
- The Fund may use derivatives for hedging and for investment purposes. However, usage for investment purposes will not be extensive. The Fund may suffer losses from its derivatives usage.
- The value of the Fund can be volatile and can go down substantially within a short period of time. It is possible that a certain amount of your investment could be lost.
- Investors should not make investment decisions based on this document alone. Investors should refer to the Prospectus and Key Facts Statement for details including risk factors.

**INVESTMENT OBJECTIVE**

The Systematic Global Equity High Income Fund seeks to generate a high level of income. The Fund invests globally, with no prescribed country or regional limits, at least 70% of its total assets in equity securities.

**GROWTH OF 10,000 SINCE LAUNCH**

## SECTOR BREAKDOWN (%)

Negative weightings may result from specific circumstances (including timing differences between trade and settlement dates of securities purchased by the funds) and/or the use of certain financial instruments, including derivatives, which may be used to gain or reduce market exposure and/or risk management. Allocations are subject to change. Due to rounding, the total may not be equal to 100 %.

## GEOGRAPHIC BREAKDOWN (%)

Geographic exposure relates principally to the domicile of the issuers of the securities held in the product, added together and then expressed as a percentage of the product's total holdings. However, in some instances it can reflect the geography where the issuer of the securities carries out much of their business. "Others" excluded from the chart above.
