

Performance, Portfolio Breakdowns and Characteristics, and Net Assets as at 30-Nov-2023. All other data as at 14-Dec-2023.

IMPORTANT:

- The Fund's investments in equities could incur significant losses due to higher fluctuation of equity values. The Fund invests in certain emerging markets and may be subject to political, tax, economic, social and foreign exchange risks. The Fund's investments are concentrated in Latin America. This may result in greater volatility than more broad-based investments.
- The Fund is subject to currency risk, foreign investments restrictions risk, small-cap companies' volatility and liquidity risks and securities lending counterparty risk.
- The Fund may use derivatives for hedging and for investment purposes. However, usage for investment purposes will not be extensive. The Fund may suffer losses from its derivatives usage.
- The value of the Fund can be volatile and can go down substantially within a short period of time. It is possible that a certain amount of your investment could be lost.
- Investors should not make investment decisions based on this document alone. Investors should refer to the Prospectus and Key Facts Statement for details including risk factors.

INVESTMENT OBJECTIVE

The Latin American Fund seeks to maximise total return. The Fund invests at least 70% of its total assets in the equity securities of companies domiciled in, or exercising the predominant part of their economic activity in, Latin America.

GROWTH OF 10,000 FOR PAST 10 YEARS

Past performance is not a reliable indicator of current or future performance and should not be the sole factor of consideration when selecting a product or strategy. Investors may not get back the full amount invested. Performance is shown on a Net Asset Value (NAV) basis with gross income reinvested, net of fees. Performance is calculated in the relevant share class currency, including ongoing charges and taxes and excluding subscription and redemption fees, if applicable. Benchmark performance displayed in denominated currency and for comparative purpose only.

The performance of the benchmark prior to 29 June 2022, is that of MSCI Emerging Markets Latin America Index. Prior to 1 November 2021, the Fund was managed by Ed Kuczma.

Unless otherwise specified, all information as of the month end. Sources: BlackRock and Morningstar. Performance is shown as of the month end in share class currency on a NAV to NAV price basis with income reinvested, net of fees. The above Fund data is for information only and does not constitute an offer or invitation to anyone to invest in any BlackRock Global Funds (BGF) and has not been prepared in connection with any such offer. BGF is an open-ended investment company established in Luxembourg which is available for sale in certain jurisdictions only. BGF is not available for sale in the U.S. or to U.S. persons. Product information concerning BGF should not be published in the U.S. Investment involves risk. Past performance is not necessarily a guide to future performance or returns. The value of investments and the income from them can fluctuate and is not guaranteed. Rates of exchange may cause the value of investments to go up or down. Investors may not get back the amount they invest. Individual stock price/figure does not represent the return of the Fund. The investment returns are denominated in share class dealing currency, which may be a foreign currency. If so, US/HK dollar-based investors are therefore exposed to fluctuations in the US/HK dollar/foreign currency exchange rate. For Hong Kong investors, please refer to the BGF offering documents for details, including risk factors. Issued by BlackRock Asset Management North Asia Limited. SUSTAINABILITY CHARACTERISTICS

Sustainability Characteristics can help investors integrate non-financial, sustainability considerations into their investment process. These metrics enable investors to evaluate funds based on their environmental, social, and governance (ESG) risks and opportunities. This analysis can provide insight into the effective management and long-term financial prospects of a fund.

The metrics below have been provided for transparency and informational purposes only. The existence of an ESG rating is not indicative of how or whether ESG factors will be integrated into a fund. The metrics are based on MSCI ESG Fund Ratings and, unless otherwise stated in fund documentation and included within a fund's investment objective, do not change a fund's investment objective or constrain the fund's investable universe, and there is no indication that an ESG or Impact focused investment strategy or exclusionary screens will be adopted by a fund. For more information regarding a fund's investment strategy, please see the fund's prospectus.

MSCI ESG Fund Rating (AAA-CCC)	BBB	MSCI ESG Quality Score (0-10)	5.61
MSCI ESG Quality Score - Peer Percentile	81.32%	MSCI ESG % Coverage	92.37%
Fund Lipper Global Classification	Equity Emerging Mkts Latin Am	MSCI Weighted Average Carbon Intensity (Tons CO2E/\$M SALES)	195.81
Funds in Peer Group	91		

All data is from MSCI ESG Fund Ratings as of **25 Oct 2023**, based on holdings as of **31 May 2023**. As such, the fund's sustainable characteristics may differ from MSCI ESG Fund Ratings from time to time.

To be included in MSCI ESG Fund Ratings, 65% (or 50% for bond funds and money market funds) of the fund's gross weight must come from securities with ESG coverage by MSCI ESG Research (certain cash positions and other asset types deemed not relevant for ESG analysis by MSCI are removed prior to calculating a fund's gross weight; the absolute values of short positions are included but treated as uncovered), the fund's holdings date must be less than one year old, and the fund must have at least ten securities.

ESG GLOSSARY:

MSCI ESG Fund Rating (AAA-CCC): The MSCI ESG Rating is calculated as a direct mapping of ESG Quality Scores to letter rating categories (e.g. AAA = 8.6-10). The ESG Ratings range from leader (AAA, AA), average (A, BBB, BB) to laggard (B, CCC).

MSCI ESG Quality Score - Peer Percentile: The fund's ESG Percentile compared to its Lipper peer group.

Fund Lipper Global Classification: The fund peer group as defined by the Lipper Global Classification.

Funds in Peer Group: The number of funds from the relevant Lipper Global Classification peer group that are also in ESG coverage.

MSCI ESG Quality Score (0-10): The MSCI ESG Quality Score (0 - 10) for funds is calculated using the weighted average of the ESG scores of fund holdings. MSCI rates underlying holdings according to their exposure to industry specific ESG risks and their ability to manage those risks relative to peers.

MSCI ESG % Coverage: Percentage of the fund's holdings for which the MSCI ESG ratings data is available. The MSCI ESG Fund Rating, MSCI ESG Quality Score and MSCI ESG Quality Score – Peer Percentile metrics are displayed for funds with at least 65% coverage (or 50% for bond funds and money market funds).

MSCI Weighted Average Carbon Intensity (Tons CO2E/\$M SALES): Measures a fund's exposure to carbon intensive companies. This figure represents the estimated greenhouse gas emissions per \$1 million in sales across the fund's holdings. This allows for comparisons between funds of different sizes.

MSCI Weighted Average Carbon Intensity % Coverage: Percentage of the fund's holdings for which MSCI Carbon Intensity data is available. The MSCI Weighted Average Carbon Intensity metric is displayed for funds with any coverage. Funds with low coverage may not fully represent the fund's carbon characteristics given the lack of coverage.
