

BOC Life receives Social Capital Builder Awards

13 January 2017

BOC Life is devoted to social responsibility and has been actively supporting various community programmes over the years. Recently, BOC Life is awarded Social Capital Builder (SCB) Awards which recognises our outstanding performance on promoting the development of social enterprises.

SCB Awards, organised biennially by the Community Investment and Inclusion Fund of the Labour and Welfare Bureau, are presented to accord recognition to those individuals and enterprises/organisations which have contributed to the development of social capital in Hong Kong. The awards also provide an opportunity for various sectors of the community to witness and share the achievements in building social capital in Hong Kong.

The award ceremony was held at the Central Government Offices on 6 January 2017 where BOC Life received the certificate. Looking forward, we will continue to take part in worthy causes to build a better community.
