

BOC Life exhibits in Education and Career Expo

27 February 2017

BOC Life is fast building a wealth management team aiming to provide customers with diversified insurance and financial planning services. Being an exhibitor again in the Education and Career Expo held by the Hong Kong Trade Development Council this year, BOC Life intended to attract more potential recruits and introduce to them the company's background and growth potential.

Leveraging the network and strength of BOCHK and the synergy with its associated business units, BOC Life Wealth Management Managers differentiate themselves by offering all-round wealth management solutions covering insurance and financial planning services as well as referral for banking services.

BOC Life's wealth management team has achieved outstanding performance with over 10% of them being qualified for "Million Dollar Round Table" (MDRT) membership, a renowned recognition in the insurance industry. BOC Life will continue to invest in the recruitment and training of talents to serve customers with superior and professional services.
