Assure2gether Policy Right

Mental Incapacity Benefit¹ (“MIB”)

Starting from the first Policy Anniversary, the Policy Owner can designate a family member (who must be the parent, spouse, child, grandparent, grandchild or sibling) as a Designated Recipient and the Designated Percentage. In the unfortunate event that the Policy Owner is diagnosed as a Mentally Incapacitated Person while the policy is in force, the Designated Recipient can make a claim for the MIB¹ within 90 days from the date of the diagnosis, and receive a lump sum amount up to the equivalent of 50% of the Policy Value (subject to BOC Life’s approval and rules stated in the policy provisions) as a benefit to alleviate immediate financial needs to overcome difficulties. After the payment of the MIB¹, the Policy Value will be reduced accordingly and the remaining value may continue to grow over time in the future, safeguarding your family's future.

Creating Enduring Power of Attorney (“EPA”) Benefit²

When the Notional Amount of the Basic Plan is HK\$3,000,000 / RMB2,500,000 / USD385,000 or above, the Policy Owner is eligible for the Creating EPA Benefit². Under this benefit, as long as the Policy Owner has created an EPA in Hong Kong which has been successfully registered by the High Court of Hong Kong after expiry of the Cooling-off Period and before the third Policy Anniversary, he / she may then apply to BOC Life for reimbursement of the actual expenses incurred in connection with it, up to a maximum of HK\$8,000. The Creating EPA Benefit² is subject to terms and conditions. Please refer to the policy documents issued by BOC Life for details.

Note: As long as an EPA covering the policy(ies) has been created, an application for the designation of a Designated Recipient of the relevant policy(ies) will not be approved (if such EPA is created before the application for designation), or such designation will be automatically revoked (if such EPA is created after the designation), and the MIB¹ (if any) shall not be payable under the relevant policy(ies).

What is Enduring Power of Attorney?

- ✓ According to the Enduring Powers of Attorney Ordinance (Cap.501 of the Laws of Hong Kong), an EPA is a legal instrument which allows its donor (i.e. the person who wishes to give his / her power of attorney to someone), while he / she is still mentally capable, to appoint attorney(s) to take care of the donor’s financial matters in the event that he / she subsequently becomes mentally incapacitated. He / she must expressly spell out the specific matters, property or financial affairs (including non-insurance products) in relation to which the attorney(s) has authority to act.
- ✓ While a general power of attorney will cease to be effective if the donor becomes mentally incapacitated, an EPA will “endure” the donor’s mental incapacity and give the attorney(s) the power to continue to take care of the donor’s financial affairs despite such incapacity.

12 Settlement Options of “Prosperity Wealth” Advance Policy Instruction³

As the Policy Owner, by utilizing the “Prosperity Wealth” Advance Policy Instruction³, whilst the Insured is alive, you may designate one or more Beneficiary(ies) to receive his / her / their Determined Portion of Death Benefit³ upon the death of the Insured in accordance with any one or more payment option(s) and/or payment deferral arrangement(s) (“Settlement Option(s)”) offered by BOC Life with a total of 12 Settlement Options, giving your beloved ones a continuous and stable financial support, inspiring wealth legacy with wisdom, allowing love to endure. A non-guaranteed interest rate declared by BOC Life from time to time will be applied to the unpaid Determined Portion of Death Benefit³ accumulated with BOC Life. The payments amount is therefore not guaranteed. For details, please refer to the flyer enclosed with the product brochure.

Change of Insured⁴ and Contingent Insured⁵ Options

When planning a comprehensive inheritance strategy, the Policy Owner can choose to change the Insured⁴ to continue the policy, helping you to further accumulate the Policy Value of the policy. In addition, you can nominate a Contingent Insured⁵ in advance who may become the New Insured⁵ when the current Insured dies, assisting your accumulated wealth to be inherited from generation to generation.

Please note the Contingent Insured⁵ will not automatically become the New Insured⁵ when the current Insured dies. The Policy Owner will need to make an application for change of Insured while the policy is in force and within one year from the date of death of the current deceased Insured by filing a request to BOC Life to apply for replacing the current deceased Insured with the Contingent Insured⁵. The acceptance of this application will be entirely at BOC Life’s discretion, and subject to such other terms and conditions as BOC Life shall determine from time to time. For details, please refer to remark 5.

Currency Exchange Option⁶

Within 31 days on or after any Policy Anniversary commencing from the third Policy Anniversary, you may exercise the Currency Exchange Option⁶ once per Policy Year to convert the policy currency to HKD, RMB, USD, AUD, CAD, GBP, EUR or SGD as the new policy currency, helping you keep abreast of market trends while providing a greater financial flexibility to help you seize global opportunities.

When you exercise the Currency Exchange Option⁶ to convert the policy currency, the Basic Plan of the original policy may be changed to another plan under Assure Together Global Series. In such case, the terms of the policy will be revised to follow all benefits, options and other policy terms as provided by such new plan, which may be significantly different from the Basic Plan of the original policy. The Notional Amount, guaranteed and non-guaranteed policy value, future premium(s) due and payable (if any), interest rate for the dividend accumulations (if any) and interest rate for Premium Deposit Account (if applicable) may be affected by your exercise of the Currency Exchange Option⁶. You can refer to the section of “Exchange Rate and Currency Risk of RMB / Foreign Currency” and remark 6 below or contact BOC Life at 2860 0688 for more details about Currency Exchange Option⁶.

Policy Split Option⁷

The policy of the Plan allows for policy split⁷ in accordance with your life plan or change of plan, such that you can rearrange and reallocate your wealth accumulated to fit for your current planning. Complemented by the Currency Exchange Option⁶, the Plan provides a more flexible solution which helps you to prepare for various opportunities and achieve different life goals.

From the third Policy Anniversary or after the end of the premium payment term (whichever is later), you may apply for Policy Split Option⁷ to transfer certain policy values of the policy to a separate new policy or multiple separate new policies as you wish, provided that Policy Split Option⁷ can only be exercised once per Policy Year. There is no evidence of insurability required for the policy split⁷. After the policy has been split⁷, you can also apply for change of policy currency⁶ and/or change of Insured⁴ and/or nomination of Contingent Insured⁵, which may help you achieve greater financial flexibility and meet the needs of wealth inheritance. Please contact BOC Life at 2860 0688 for more details about Policy Split Option⁷.

Premium Deferral Benefit⁸

In your life journey, certain designated events, such as marriage, buying a home, hospitalization, or salary reduction may occur. For policies with a five-year premium payment term, the Plan offers the Premium Deferral Benefit⁸ of up to one year which is available for application upon the occurrence of these events, giving you extra time to manage your finances while keeping your protection uninterrupted.

Investment Strategy, Philosophy in Deciding Dividends and Fulfilment Ratio

BOC Life invests globally in various types of assets, in order to achieve the advantages of diversification in investment portfolio. The assets supporting the policies under the Plan mainly consist of the following:

	Mix
Fixed income instruments or interest-bearing securities	25% - 45%
Growth assets	55% - 75%

Fixed income instruments or interest-bearing securities include but not limited to government and corporate bonds, etc.

- BOC Life primarily invests in investment-grade bonds, together with a small portion of high-yield bonds and emerging-market bonds to further improve yield.
- Under normal circumstances, the major markets invested by BOC Life are North America, the Chinese mainland, Hong Kong China and other Asian developed countries.

Growth assets include but not limited to listed equity, private equity, mutual funds, properties investment, etc. BOC Life invests in diversified growth assets, which aims to achieve a higher long term return over fixed income investments.

With the aim of achieving long term investment target, BOC Life, at BOC Life's sole discretion, reserves the right to adjust the aforementioned asset allocation when there are material changes in market outlook and condition, or engage in other financial arrangements including but not limited to reinsurance arrangement. BOC Life aims at investing in assets denominated in policy's currency. If the currency by which the assets are denominated is not the same as policy currency, BOC Life may use derivatives to manage the impact of currency risk.

For the latest Investment Strategy, please refer to BOC Life website www.boclif.com.hk.

Philosophy in Deciding Dividends

Participating insurance plans provide policy owners an opportunity to receive a share of profits attributable to the participating life insurance business of BOC Life by means of dividends, with the potential prospect of long-term rates of return. To accomplish the purpose, BOC Life invests in a wide range of asset portfolios that are prudently chosen by BOC Life to balance the risk. In general, the asset portfolios mainly consist of fixed income securities and equity investments.

The actual amount of dividends is determined by the stipulated surplus sharing approach in BOC Life's policy, which is based on the past experience of BOC Life and the long-term expectation of the participating life insurance business in the future. Dividends amount mainly depends on the overall performance of the participating life insurance business of BOC Life, taking into account factors including investment returns, claim experience, persistency and operating expense. The actual amount of dividends payable is recommended by BOC Life's Appointed Actuary according to the aforementioned company's policy and approved by the Board of Directors of BOC Life.

Annual dividends paid can be left with BOC Life and accumulate with interest. The interest rate (Dividends Accumulation Rate) is determined based on market conditions and expected investment return of BOC Life.

In light of the above factors, dividends and Dividend Accumulation Rate are not guaranteed and may be higher or lower than the values illustrated in the benefit illustration provided at point of sale.

You may browse the following website, www.boclif.com.hk/ps, to understand BOC Life's philosophy in deciding dividends as well as dividend history for reference purposes. Please note that past performance of dividend is not an indicator for its future performance.

RMB Conversion Limitation Risk

(Only applicable to Individual Customers) RMB is currently not fully freely convertible. Individual customers can be offered CNH rate to conduct conversion of RMB through bank accounts and may occasionally not be able to do

so fully or immediately, for which it is subject to the RMB position of the banks and their commercial decisions at that moment. Customers should consider and understand the possible impact on their liquidity of RMB funds in advance. (Only applicable to Corporate Customers) RMB is currently not fully freely convertible. Corporate customers that intend to conduct conversion of RMB through banks may occasionally not be able to do so fully or immediately, for which it is subject to the RMB position of the banks and their commercial decisions at that moment. Customers should consider and understand the possible impact on their liquidity of RMB funds in advance.

Exchange Rate and Currency Risk of RMB / Foreign Currency

RMB / Foreign currency exchange rates may fluctuate. As a result, you may incur a substantial loss when you choose to convert your payout benefits to other currencies. The subsequent premium payments (if any) may be higher than your initial premium payment as a result of exchange rate fluctuations. Additionally, the conversion of your benefits to other currencies is subject to currency exchange restrictions applicable at the time when the benefits are paid. If your policy currency is not your local currency, your policy value may appreciate or depreciate when viewed against your local currency.

RMB / foreign currency policies are subject to exchange rate risk. We may illustrate a different future policy value for policies denominated in different currencies, with the expected foreign exchange movements reflected. The exchange rate between RMB / foreign currency and HKD may rise as well as fall. Therefore, if calculated in HKD, premiums, fees and charges (where applicable), account value / surrender value and other benefits payable under RMB / foreign currency policy will vary with the exchange rate. The exchange rate between RMB / foreign currency and HKD will be the market-based prevailing exchange rate determined by BOC Life from time to time, which may not be the same as the spot rate of banks. The fluctuation in exchange rate may result in losses if a customer chooses to pay premiums in HKD, or requests the insurer to pay the account value / surrender value or other benefits payable in HKD, for RMB / foreign currency policy.

- (i) cashing out dividend accumulations (if applicable);
- (ii) cashing out Guaranteed Cash Value and Terminal Dividend (if applicable).

After cashing out the Guaranteed Cash Value and Terminal Dividend (if applicable), the Notional Amount of the Basic Plan will be reduced proportionally. The Total Premiums Paid, existing and future amounts of Guaranteed Cash Value and Terminal Dividend (if applicable), and the future amounts of Annual Dividend (if applicable), will be determined respectively according to the new Notional Amount of the Basic Plan and the above (where applicable) will become the basis for the calculation of Death Benefit and other benefits (if applicable) under the Basic Plan after payment of MIB. The reduced Notional Amount of the Basic Plan must meet the minimum Notional Amount as required at the date of approval by BOC Life. If the proposed cashing out above results in the Notional Amount falling below the minimum requirements, the maximum amount available to be cashed out from the Policy Value at the date of approval by BOC Life will be an amount that ensures the reduced Notional Amount after the proposed cashing out will be maintained at the minimum level required (the "Maximum Cash-out Limit").

The actual payment amount of the MIB will be calculated as follows, which may result in the amount received by the Designated Recipient being less than that calculated

based on the formula under the above paragraph:

- (i) the Maximum Cash-out Limit; less
- (ii) any Indebtedness and outstanding premiums.

If there is a dispute or BOC Life has reasonable belief that there may be a dispute on the MIB between the Designated Recipient and any other person(s) (including but not limited to the recipient of the MIB, the guardian or committee appointed in respect of the Policy Owner, the attorney under the EPA, Beneficiary, the Official Receiver, any person(s) claiming through or on behalf of the Policy Owner, the successor(s) and personal representatives of such person(s), as well as any other person(s) claiming through or on behalf of such person(s)), and/or if BOC Life may incur liability as a result of BOC Life making payment under the MIB, BOC Life has the absolute right to withhold the payment under the MIB until such dispute or matter is resolved to the satisfaction of BOC Life. No interest shall accrue on any withheld payment. For the avoidance of doubt, any dispute on the MIB between the Designated Recipient and any other person(s) of whatsoever nature shall be resolved directly between those parties, and BOC Life shall not be held responsible nor be required to participate in any manner (including but not limited to any dispute resolution, coordination, intervention or compensation), nor shall it incur any liability in connection with any such dispute.

The Policy Owner, Insured, the guardian or committee appointed in respect of the Policy Owner, the attorney under the EPA, the Designated Recipient, the recipient of the MIB, Beneficiary, any person(s) claiming through or on behalf of the Policy Owner, the successor(s) and personal representatives of such person(s), as well as any other person(s) claiming through or on behalf of such person(s) shall fully indemnify and hold harmless BOC Life from and against any and all losses, liabilities, damages, costs, claims, actions and expenses (including legal costs) incurred by BOC Life arising out of or in connection with any payment or non-payment of the MIB including but not limited to any dispute on the MIB, any payment made pursuant to a Wrongful Claim, and the resolution of such dispute or matter.

Wrongful Claim means a claim pursuant to which the payment of the MIB is made to the Designated Recipient or any person entitled to receive it that is subsequently determined to be invalid, false, fraudulent or based on incorrect declarations.

Termination of MIB

The MIB shall be automatically terminated upon the first occurrence of any of the following:

- (i) if the policy is surrendered or terminated; or
 - (ii) BOC Life's payment of the MIB.
2. While the policy is in force and during the lifetime of the Insured, after the Cooling-off Period and before the third Policy Anniversary, if the Policy Owner has created an EPA in Hong Kong, which has been successfully registered by the High Court of Hong Kong, he / she can request to exercise the Creating EPA Benefit by applying to the BOC Life within 90 days from the date the EPA is registered. Upon receipt of the relevant application and satisfactory written proof, we will pay to the Policy Owner a lump sum amount equivalent to the actual charges incurred for the creation and registration of the EPA, subject to a maximum amount of HK\$8,000. The policy must not be a Split Policy.

If the Policy Owner holds more than one policy under the Basic Plan, the Policy Owner shall only be entitled once to the Creating EPA Benefit for all such policies.

Save and except for the sole purpose of ascertaining whether the reimbursement application should be approved and/or whether any designation of the Designated Recipient of the MIB shall be revoked under this policy and/or any other policy, BOC Life shall not be obliged to consider and/or review the contents of an EPA and/or make any recommendations in relation to the EPA, and shall not act on any matters in respect of this policy and/or any such other policy as may have been specified in the EPA unless and until the powers granted therein are exercised by its attorney subject to the scope of authority and restrictions under the EPA. Where BOC Life receives written notification that there is an EPA covering this policy and/or any other policy, any designation of a Designated Recipient under the MIB Provision of this policy and/or any such other policy shall be automatically revoked without further notice to you as the Policy Owner and/or the Designated Recipient, and the MIB (if any) shall not be payable under this policy and/or such other policy.

If you vary or revoke your EPA, you must, as soon as reasonably possible, notify BOC Life and provide any written proof relating to such variation or revocation as requested by BOC Life in its absolute discretion (including but not limited to copies of the deed of revocation, the court order confirming the revocation of the revoked EPA, and the new EPA (if any) (in the case of revocation) or the varied EPA (in the case of variation)), so that BOC Life's internal records may be updated. If the Policy Owner fails to notify BOC Life of any variation

or revocation of the EPA and/or supply the required written proof relating to such variation or revocation of the EPA (as the case may be), BOC Life shall act solely based on the EPA received from the Policy Owner in its internal records.

3. While the policy is in force and during the lifetime of the Insured, the Policy Owner may request in writing to have the Death Benefit payable to the Beneficiary(ies) in the occurrence of the death of the Insured in accordance with any one or more payment option(s) and/or payment deferral arrangement(s) offered at BOC Life's sole discretion ("Settlement Option(s)") ("Prosperity Wealth' Advance Policy Instruction"). Upon approval of the Policy Owner's application for "Prosperity Wealth" Advance Policy Instruction by BOC Life, an endorsement will be issued to record the details of the "Prosperity Wealth" Advance Policy Instruction including the Settlement Option(s) chosen by the Policy Owner and the manner in which such Settlement Option(s) shall be implemented. The "Prosperity Wealth" Advance Policy Instruction shall not be valid unless and until such "Prosperity Wealth" Advance Policy Instruction is approved by BOC Life and evidenced by such endorsement. Upon BOC Life's approval of the death claim, payments calculated by the Determined Portion of Death Benefit shall be paid to the designated Beneficiary(ies) in accordance with the Settlement Option(s) chosen by the Policy Owner which respectively apply(ies) to each of such designated Beneficiary(ies). If the Settlement Option(s) chosen by the Policy Owner include(s) payment deferral arrangement(s), such payments shall be paid to the designated Beneficiary(ies) on or commencing from (as the case may be) the Designated Date of Payment under "Prosperity Wealth" Advance Policy Instruction. For the avoidance of doubt, should the Designated Date of Payment under "Prosperity Wealth" Advance Policy Instruction fall before our approval of the death claim, such payment deferral arrangement(s) shall be deemed to be cancelled, and the payment(s) to each of the designated Beneficiaries shall be released in accordance with the payment option(s) under the Settlement Option(s) chosen by the Policy Owner which respectively apply(ies) to each of such designated Beneficiary(ies) after BOC Life's approval of the death claim. A non-guaranteed interest rate declared by BOC Life from time to time will be applied to the unpaid Determined Portion of Death Benefit accumulated with BOC Life. The payments amount is therefore not guaranteed. The last payment under this "Prosperity Wealth" Advance Policy Instruction to the Beneficiary(ies) under the policy will fully discharge BOC Life from further liability under the policy.

If the policy is under collateral assignment, the amount of Death Benefit proceeds to be paid under the “Prosperity Wealth” Advance Policy Instruction as designated by the Policy Owner (where consent has been obtained from the assignee) is subject to the terms and conditions of such collateral assignment and the assignee’s instructions to BOC Life.

While the policy is in force and during the lifetime of the Insured, upon the change of the Policy Owner, the change of Insured, the change of Beneficiary or upon assignment of the policy (including but not limited to collateral assignment or absolute assignment), the “Prosperity Wealth” Advance Policy Instruction selected by the Policy Owner will be revoked, and the Death Benefit proceeds will be paid as if the “Prosperity Wealth” Advance Policy Instruction has / have never been selected by the Policy Owner, until another “Prosperity Wealth” Advance Policy Instruction request is accepted and recorded by BOC Life.

4. During the lifetime of both of the existing and new Insureds and while the policy is in force, the Policy Owner may make an application for change of Insured within 31 days before or after any Policy Anniversary. The New Insured is subject to underwriting rules of BOC Life. The attained Age of the New Insured on the date of the submission of the Application for change of Insured must be between 15 days and 65 and the attained Age of the New Insured must not exceed the attained Age of the first Insured (i.e. the Insured upon issuance of the policy) for 10 years or more. Various terms of the policy will be revised upon the approval of the application for change of Insured. If the New Insured dies within two years from the effective date of change of Insured and the death is not an Accidental Death, the Death Benefit amount payable by BOC Life will be calculated as follows:

- (i) the higher of:
 - (a) the sum of Guaranteed Cash Value and any Terminal Dividend (non-guaranteed) applicable as at the date of death; or
 - (b) 100% of Total Premiums Paid as at the date of death; plus
- (ii) dividend accumulations (non-guaranteed) (if any); less
- (iii) Indebtedness (if any) and outstanding premiums (if any).

For details, please refer to the sample of endorsement to be issued after approval of the application. Change of Insured is subject to the prevailing rules and conditions of BOC Life. For more details regarding change of Insured, please contact BOC Life at 2860 0688.

5. During the lifetime of the Insured and while the policy is in force, the Policy Owner may make an application to nominate a Contingent Insured. - (vii) the Policy Owner provides such other information as may be requested by BOC Life in processing the application for nomination of Contingent Insured.

The acceptance of application for the nomination of Contingent Insured will be entirely at BOC Life’s discretion, and subject to such other terms and conditions as BOC Life shall determine from time to time.

Please note that upon the death of the existing Insured, the Contingent Insured will not automatically become the new Insured.

If the current Insured dies and there is a Contingent Insured duly nominated, while the policy is in force and within one year from the date of death of the current deceased Insured, the Policy Owner may make an application for change of Insured to BOC Life to apply for replacing the current deceased Insured with the Contingent Insured. BOC Life’s approval of such application is subject to the following requirements:

- (ii) Death Benefit is not paid under the policy;
- (iii) satisfactory proof of death of the current deceased Insured is provided and accepted by BOC Life;

Various terms of the policy will be revised upon the approval of the application for change of Insured to the Contingent Insured. An endorsement together with a revised Policy Specification will be issued by BOC Life to record such change of Insured and related information. For details, please refer to the sample of endorsement to be issued after approval of the application.

In the event that there is a Contingent Insured nominated under the policy, BOC Life will not process any claim for Death Benefit within one year from the date of death of the current deceased Insured. BOC Life will only process a claim for Death Benefit in respect of the current deceased Insured if there is no application for change of Insured submitted within one year from the date of death of the current deceased Insured, such application for change of Insured is rejected, or the Contingent Insured is removed, whichever is the earliest. For the avoidance of doubt, if there is a Contingent Insured nominated and such Contingent Insured has successfully become the Insured of the policy, the Death Benefit under the policy will not be payable for the death of the current deceased Insured.

6. Within 31 days on or after any Policy Anniversary commencing from the third Policy Anniversary, the Policy Owner may apply for changing the current policy currency to a different currency available for selection, by exchanging the policy for a plan under the Assure Together Global Series offered at BOC Life's sole discretion in the new policy currency, without (i) providing any evidence of insurability, (ii) surrendering the current Policy or (iii) changing the Policy Date and Policy Issue Date of the current policy, provided that all of the following conditions are met: (i) the Application for currency exchange must be submitted by the Policy Owner within 31 days on or after any Policy Anniversary commencing from the 3rd Policy Anniversary; (ii) there is no premium(s) in default or outstanding Indebtedness under the policy; (iii) there is no claim in progress under the policy; (iv) the Notional Amount of the policy following the currency exchange must not be less than the minimum Notional Amount BOC Life permits at the time of the application; (v) the Application for currency exchange cannot be withdrawn or changed once made; (vi) the Policy Owner can submit an Application for currency exchange only one time during a Policy Year; and (vii) the Policy Owner provides such other information as may be requested by BOC Life in processing the application for currency exchange. The new policy currency will not be available for selection if it is demonetized by the issuance country or region at the time of currency exchange. The acceptance of any Policy Owner's application for currency exchange will be entirely at BOC Life's discretion, and subject to such other terms and conditions as BOC Life shall determine from time to time. The terms of the policy will be revised to follow all benefits, options and other policy terms as provided by such new plan, which may be significantly different from the Basic Plan of the original policy.

Significant differences include but are not limited to: product features (e.g. benefits, policy terms and conditions, investment strategy, portfolio of target assets and the return and restrictions of relevant investment) and policy value (such policy value will be adjusted significantly (higher or lower), and may be relatively less than the Total Premiums Paid). If the customer exercises the Currency Exchange Option within the premium payment term, the subsequent premiums will be adjusted (based on factors including but not limited to the prevailing market-based currency exchange rate as determined by BOC Life from time to time, the investment yield and asset values of the existing and new underlying portfolio of assets, and/or the adjustment for transactions from the existing assets to new assets).

If the Policy Owner intends to apply for the Currency Exchange Option in the future, please contact BOC Life for details and further handling.

The Notional Amount shall be rounded off to the nearest integer after exercising the Currency Exchange Option. BOC Life will determine and adjust the Notional Amount, guaranteed and non-guaranteed policy values, future premium(s) due and payable (if any) and interest rate for the dividend accumulations (if any) in the new policy currency based on factors including but not limited to the prevailing market-based currency exchange rate as determined by BOC Life from time to time, the investment yield and asset values of the existing and new underlying portfolio of assets, and/or the transactions from the existing assets to new assets. Any dividend accumulations under the policy will be adjusted according to the prevailing market-based currency exchange rate as determined by BOC Life from time to time. The Total Premiums Paid for the policy after currency exchange will be adjusted according to the new Notional Amount of the policy, and will become the basis for the calculation of Death Benefit, Additional Accidental Death Benefit (if applicable), Accidental ICU Benefit (if applicable) and other benefits (if applicable) of the policy. All supplementary benefit(s) (if any) will remain in force and be changed to the new policy currency. If the chosen new policy currency is not offered under such supplementary benefit(s) or such supplementary benefit(s) cannot be attached to the new plan after currency exchange, such supplementary benefit(s) will automatically end when the currency exchange takes effect. Currency Exchange Option is subject to the prevailing rules and conditions of BOC Life. For details, please refer to the provisions issued by BOC Life.

The Policy Owner should evaluate in detail for the differences between the offerings of the original plan and the plan available for currency exchange under the Assure Together Global Series at that time, and consider whether the relevant product meets his / her own individual needs, and should not convert to the plan solely for the sake of exercising the Currency Exchange Option. The approval of application to exercise the Currency Exchange Option and the currencies available for selection when exercising the option will be subject to relevant applicable laws and regulations.

7. From the third Policy Anniversary or after the Basic Plan is paid-up (whichever is later), the Policy Owner may make an application to transfer certain policy values of the original policy to a separate new policy or multiple separate new policies ("Split Policy"), without providing any evidence of insurability, provided that all of the following conditions are met: (i) the Application

for policy split can only be submitted by the Policy Owner after the Basic Plan is paid-up or after the 3rd Policy Anniversary (whichever is later); (ii) there is no premium(s) in default or outstanding Indebtedness under the original Policy; (iii) there is no claim in progress under the original Policy; (iv) the respective Notional Amount of the original policy and the Split Policy following the split must not be less than the minimum amount permitted at the time of the application; (v) the Application for split cannot be withdrawn, changed or reverted once made; (vi) the original policy can only be split once during a Policy Year; and (vii) the Policy Owner provides such other information as may be requested by BOC Life in processing the application for split. The acceptance of any Policy Owner's application for split will be entirely at BOC Life's discretion, and subject to such other terms and conditions as BOC Life shall determine from time to time.

Upon BOC Life's approval of the application for split, certain policy values of the original policy will be transferred to the Split Policy and the Notional Amount of the original policy will be reduced. All terms and conditions of the Split Policy will follow the original policy; save and except for the condition where Accidental ICU Benefit has been paid under the original Policy before split, the Accidental ICU Benefit will not be applicable to the Split Policy and the original policy after split. The Policy Date and Policy Issue Date of the Split Policy will be the same as the original policy. Time shall not run afresh in respect of the computation of Policy Years, and the operation of Incontestability clause and Suicide clause of the Split Policy. There is no Cooling-off Period for the Split Policy. For details, please refer to the provisions issued by BOC Life.

The Notional Amount shall be rounded off to the nearest integer after exercising the Policy Split Option. BOC Life will determine the new Notional Amount of the original policy after split and the Split Policy respectively based on the instruction in the Application for policy split that BOC Life has accepted and approved, and determine the existing and future amounts of the guaranteed and non-guaranteed policy values for both the original policy after split and the Split Policy according to their respective new Notional Amounts. Any dividend accumulations of the original policy will be split according to the respective new Notional Amounts of the original policy after split and the Split Policy. The Total Premiums Paid for both the original policy after split and the Split Policy will be adjusted according to the respective new Notional Amounts of the original policy after split and the Split Policy, and will become the basis for the calculation of Death Benefit, Additional

Accidental Death Benefit (if applicable), Accidental ICU Benefit (if applicable) and other benefits (if applicable) under the original policy after split and the Split Policy.

After policy split, the aggregate amount of the Policy Value and the benefits for the original policy after split and the Split Policy will remain the same as that of the original policy before such split.

If the Policy Owner intends to apply for the Policy Split Option in the future, please contact BOC Life for details and further handling.

Policy Split Option is subject to the prevailing rules and conditions of BOC Life. For details, please refer to the provisions issued by BOC Life.

Additional Accidental Death Benefit will only be payable for the death of the current deceased Insured if there is no Contingent Insured nominated who has successfully become the New Insured of the policy. If the Insured is covered by more than one policy under Assure Together Global Whole Life Insurance Plan, any plan under the Assure Together Global Series, Eternal Fortune Global Whole Life Insurance Plan, any plan under the Eternal Fortune Global Series, Forever Fortune Whole Life Insurance Plan, Glamorous Glow Global Whole Life Insurance Plan, Glamorous Glow Whole Life Insurance Plan and/or any plan under the Glamorous Glow Global Series, the total maximum amount of the Additional Accidental Death Benefit of all these policies shall be equal to 10% of the Total Premiums Paid under all such policies as at the date of the Insured's death (subject to a maximum amount of HK\$100,000 / RMB100,000 / USD12,500 / AUD13,800 / CAD13,800 / EUR10,000 / GBP8,000 / SGD16,000). 12. Underwriting is required for attaching supplementary benefits to the policy and supplementary benefits are subject to the corresponding issue age eligibilities. Premiums of such may be changed from time to time. For details, please contact your Financial Consultants.

13. No medical examination is required for application as long as the total annual premiums (including lump sum prepayment) does not exceed the aggregate limit set for each Insured, subject to the relevant requirements in

accordance with the prevailing underwriting rules and guidelines of BOC Life. Normal underwriting is required if the policy is attached with “Payor’s Death Or Disability Rider” or “Waiver Of Premium Rider”. For details, please contact your Financial Consultants.

- 14.(i) Premium Deposit Account is only applicable to the policy with annual premium payment mode. The regular premiums and Levy (if any) for the Basic Plan and supplementary benefits (if applicable) must be made in lump sum upon application whereas further prepayment of premiums and Levy (if any) will not be accepted thereafter.
- (ii) If “Payor’s Death Or Disability Rider” or “Waiver Of Premium Rider” or is attached to the policy, Premium Deposit Account is not applicable.
- (iii) Annual premiums and Levy (if any) will be deducted automatically from the Premium Deposit Account on each Policy Anniversary when due. The Premium Deposit Account balance (if any) should be sufficient to pay the entire amount of annual premiums and Levy (if any) of the policy, and cannot be used for partial settlement of annual premiums and/or Levy (if any).
- (iv) The Premium Deposit Account balance of Basic Plan (if any) including Levy (if any) is accumulated with BOC Life at a guaranteed accumulation interest rate of 3.5% (applicable to policy currency in HKD) , 2.5% (applicable to policy currency in RMB) and 5% (applicable to policy currency in USD) per annum and the Premium Deposit Account balance of supplementary benefits (if any) is accumulated at a special accumulation interest rate determined by BOC Life from time to time. Since the special accumulation interest rate of the Premium Deposit Account of supplementary benefits and premiums for some supplementary benefits (if applicable) are not guaranteed and may be changed from time to time by BOC Life, the Premium Deposit Account balance (if any) is not guaranteed to be sufficient to cover all premiums for the whole premium payment term. When the Premium Deposit Account balance (if any) is insufficient to pay the annual premium payable and/or Levy (if any), BOC Life will issue a payment notice and/or Levy reminder to customer, and interest will not be accrued on the residual value.
- (v) If the Policy Owner makes withdrawal from the Premium Deposit Account balance, a premium deposit withdrawal fee will be deducted from the amount withdrawn from the Premium Deposit Account balance (if any). The premium deposit

withdrawal fee is equivalent to 6% of the withdrawal amount, and the calculation of the premium deposit withdrawal fee may also be changed from time to time.

- (vi) If the Insured passes away and there is no Contingent Insured nominated who has successfully become the New Insured of the policy, the Premium Deposit Account balance (if any) together with the Death Benefit will be payable to the Beneficiary.
 - (vii) For details, please refer to the proposal and provisions issued by BOC Life.
15. The Plan is a participating policy. Nevertheless, Annual Dividend (if any) and the annual interest rate for dividend accumulation, and Terminal Dividend (if any) are not guaranteed and may be changed from time to time. Past performance is not indicative of future performance. The actual amount received may be higher or lower than the estimated amount. BOC Life reserves the right to change them from time to time. If the Policy Owner chooses to withdraw the Annual Dividend (if any) and/or interest accumulated (if any), the Annual Dividend (if any) and/or accumulated interest (if any) withdrawn will no longer be accumulated as part of the total cash value and the total Death Benefit of the policy. The total cash value, the surrender value and the total Death Benefit of the policy will be reduced accordingly. Annual Dividend accruing on the first Policy Anniversary (if any) shall be credited after the second Policy Year’s premium has been paid in full. Terminal Dividend (if any) may be payable upon the death of the Insured (if applicable) if the Death Benefit is approved or surrender of the policy. Nevertheless, no Terminal Dividend will be payable if the Death Benefit reaches the upper limit in the event of death of the Insured. For details, please refer to policy documents and provisions issued by BOC Life.
- Withdrawal of policy values may involve partial surrender of the policy. If the Policy Owner early terminates the policy or withdraws policy values, the amounts received may be lower than the amount of premium paid. The Policy Owner may sustain a substantial loss.
16. Upon encashment of total cash value, the policy and corresponding protection including life protection will be terminated, and the total cash value received may be lower than the amount of premium paid. Starting from the 20th Policy Anniversary and once the policy is terminated, customer may opt to have a new arrangement with BOC Life, having part or all of the cash value of the policy left with BOC Life for interest accumulation (non-guaranteed). Such arrangement (including but not limited to the death benefit of the new arrangement) can only be exercised subject to the

conditions imposed by BOC Life and upon approval by BOC Life in writing, and shall be subject to the formal policy documents and provisions issued by BOC Life. The provisions of the new arrangement are determined at BOC Life's discretion after receiving the Policy Owner's request. In addition, the interest rate for the accumulated account of such new arrangement is not guaranteed. BOC Life reserves the right to amend at any time at BOC Life's sole discretion.
