Create steady income for peaceful retirement

**CoverU Whole Life Insurance Plan / CoverU Whole Life Insurance Plan (Delight Version) (the “Plan”)** is an eligible life insurance plan under the **Policy Reverse Mortgage Programme**, allowing you to create steady flow of income for your retirement with total peace of mind.

## What is a policy reverse mortgage?

The Policy Reverse Mortgage Programme (PRMP) is operated by HKMC Insurance Limited (HKMCI), a wholly-owned subsidiary of The Hong Kong Mortgage Corporation Limited (HKMC), for people who are aged 55 or above to apply for policy reverse mortgage loans.

Policy reverse mortgage is a loan arrangement. It enables you to use your life insurance policy as collateral to borrow from a lender. You can opt to receive monthly payouts either over a fixed period of 5, 10, 15 or 20 years or throughout your entire life until the maturity of your life insurance policy. You may also apply for lump-sum payouts to suit personal needs.

In general, you do not need to repay your policy reverse mortgage loan during your lifetime, unless your policy reverse mortgage loan is terminated under specific circumstances.

There is no limit on the number of policy reverse mortgage loans to be taken out by a borrower, but each loan can only have one life insurance policy as collateral. The aggregate amount of death benefits of all your life insurance policies assigned or to be assigned as collateral under the programme is capped at HK\$15 million. For any application with the aggregate amount of death benefits exceeding such capped amount, such application will be considered on a case-by-case basis.

CoverU Whole Life Insurance Plan / CoverU Whole Life Insurance Plan (Delight Version) is the eligible life insurance plans under the PRMP.

In most cases, your policy reverse mortgage loan will become due and payable when you pass away. The lender will enforce your life insurance policy within a specified timeframe to repay in full the outstanding loan amount. The amount recoverable from your life insurance policy to be used for repayment of your policy reverse mortgage loan will be the death benefits of your life insurance policy.

If the amount of the death benefits exceeds the outstanding loan amount under the policy reverse mortgage loan, the lender will pass the surplus to you (or your personal representative) after repaying the outstanding loan amount in full. If there is any shortfall, it will be borne by the HKMCI under an insurance arrangement between the lender and the HKMCI.

## Key features and benefits of the PRMP

### Flexible payment term

### Lump-sum payout

You may apply for lump-sum payouts at the time of policy reverse mortgage loan application and / or any time during the selected payment term to suit your personal needs.

If you withdraw a larger lump-sum payout amount, there will be a correspondingly lower monthly payout amount. If you withdraw the maximum amount of lump-sum payout, you will not receive any monthly payouts thereafter.

### Two options of mortgage plans

To meet your financial needs, you can choose either a floating-rate or fixed-rate mortgage plan.

### No repayment during your lifetime

In general, you do not need to repay the outstanding loan amount during your lifetime, unless your policy reverse mortgage loan is terminated under specific circumstances.

### No penalty for early full repayment

You may fully repay the outstanding loan amount and redeem your life insurance policy at any time without penalty. However, you may not repay only a part of the outstanding loan amount.

### Six-month cooling-off period

If you terminate your policy reverse mortgage loan for whatever reason, provided that you notify the lender within the first six months and repay in full the outstanding loan amount on the proposed repayment date, you will be given a full refund and waiver of the relevant mortgage insurance premiums. However, you still need to bear any accrued interest and financed fees in the outstanding loan amount.
